FOR NATURESCOPE AND AIR QUALITY PROGRAMS IN SUPPORT OF ENVIRONMENTAL
STEWARDSHIP WITHIN THE SCHOOL BOARD OF BROWARD COUNTY**

This is an Agreement ("Agreement"), made and entered into by and between Broward County, a political subdivision of the State of Florida ("County"), and the School Board of Broward County, a political subdivision of the State of Florida ("SBBC") (collectively referred to as the "Parties").

RECITALS

- A. The purpose of this Agreement is to implement certain terms of this partnership between the COUNTY and SBBC, as described herein and in the Exhibit hereto.
- B. The Parties desire for this Agreement to integrate two previously separate partnership agreements, the NatureScape program and an air quality program that both support environmental stewardship and best practices.
- C. A high quality and adequate water supply is key to the current and continued support of urban and natural systems in Broward County.
- D. The South Florida Water Management District encourages local governments and water utilities to provide water conservation-related educational programs, which instill a year-round water conservation ethic.
- E. The County-wide Integrated Water Resource Plan seeks to optimize the beneficial uses of local water resources by effectively and efficiently managing water to make our water resources sustainable for meeting future supply needs.
- F. A significant percentage of water consumption in Broward County is due to outdoor irrigation and landscape runoff associated with over-irrigation, and poorly maintained irrigation systems have been identified as primary sources of surface water pollution.
- G. The County and SBBC have previously committed to a partnership in support of sustainable water conservation and environmental protection practices, including the NatureScape Broward principles.
- H. This Partnership Agreement provides for the implementation of a Green Schools Recognition Program that acknowledges and rewards schools and teachers for participating/implementing environmentally sustainable measures and green initiatives
- I. This Agreement provides a fourth agreement period of up to five (5) years that focuses on supporting water conservation and environmental protection practices, including the NatureScape Broward principles, creating sustainable schools in a holistic

approach through access to the County's resources and programs under an umbrella initiative.

Now, therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

The Scope of Services stated in this Agreement is a description of the Parties' obligations and responsibilities and is deemed to include preliminary considerations and prerequisites, and all labor, materials, equipment, and tasks which are such an inseparable part of the work described that exclusion would render performance by the Parties impractical, illogical, or unconscionable. The Parties shall meet or exceed all applicable federal, state, and local laws, ordinances, codes, rules, and regulations in performing the Services.

2.2 The Parties acknowledge that the Contract Administrator has no authority to make changes that would increase, decrease, or otherwise modify the Scope of Services to be provided under this Agreement except as expressly set forth in this Agreement.

ARTICLE 3. TERM AND TIME OF PERFORMANCE

3.1 The term of this Agreement shall begin on July 1, 2022, ("effective date") and shall end on June 30, 2023, ("Initial Term"). Payment shall be made only for work actually performed, completed, and invoiced pursuant to this Agreement. This amount shall be accepted by County as full compensation for all such work. County acknowledges that the amounts set forth herein are the maximum amounts payable and constitute a limitation upon SBBC's obligation to compensate County for its work under this Agreement. These maximum amounts, however, do not constitute a limitation of any sort upon the Parties' obligation to perform all items of work required under this Agreement. Additionally, under this Agreement, all Air Program related goods and services will be provided by County, with an estimated annual value of \$176,525.

2.0 SCOPE OF WORK

The following tasks comprise this new Agreement between SBBC and the NRD (NatureScape):

Task 1 Environmental Recognition/School Certifications

The primary goals of this task are to: a) work with schools to achieve recognition for various environmental initiatives and achievements, b) maintain certifications,

as required, through various programs such as Florida Green School designation, Green Apple designation, National Wildlife Federation's Schoolyard Wildlife Habitat certification and Eco-Schools USA programs, and c) promote student and school environmental advocacy.

The P₃ Eco-Challenge Program is designed to recognize and reward schools, teachers, students, and school staff for participating/implementing environmental measures and green initiatives within their schools. While the P₃ Eco-Challenge Awards program will remain the primary opportunity to recognize environmental stewardship achievements amongst peers, other recognition programs such as the County's Emerald Awards program, will also be considered.

- Work with SBBC to ensure that certification is maintained for the School Board of Broward County as a Schoolyard Wildlife Habitat by the National Wildlife Federation.
- Work with SBBC to ensure the continued certification of schools into the Eco-Schools USA program.
- Work with schools and SBBC staff to maintain certification and evaluate school facilities, programs, and provide recommendations for achieving various certifications/recognition as appropriate.

that may be tailored to coordinate with science curriculum focusing on different types and causes of air pollution and how they affect human health. The Air Program will work through SBBC's Environmental Education programs and Mathematics, Science and Gifted (MSG) department to coordinate presentations.

- Identify, share, and pursue grant opportunities that further support these programs.
 - The NRD's Air Program will provide technical assistance and in-kind resources to the SBBC to apply for grants to retrofit school buses and/or purchase alternative fuels (electric buses).
