Dear Commissioner Bogen and County Attorney Meyers,

On behalf of Memorial Healthcare System, we have reviewed the Draft Broward County Preventive Health Care Pilot Project and would like to submit the following comments for the record on the item. We would like to ensure that the criteria for the Broward County Preventive Healthcare Screening Pilot Project is equitable access based on recognized standards of care for all participants.

As discussed in the Broward County Commission Meeting of February 15, 2022, a recommendation was made during the discussion on this initiative to have each of the four health systems to identify a medical expert to be part of a committee to provide recommendations and input into this program. We look forward to the establishment of this committee by the County.

Thank you for your interest in our comments. We look forward to continuing further dialogue on this plan and direct inclusion of our system's Chief Medical Officer, Marc Napp, M.D., in the Committee that will be established to oversee this program for the health and wellbeing of the residents of Broward County.
