SECTION II AMENDMENT REPORT PROPOSED AMENDMENT PCNRM 22-1

INTRODUCTORY INFORMATION/PLANNING ANALYSIS

Pursuant to Policy 2.22.3 of the BrowardNext - Broward County Land Use Plan, the Broward County Resilient Environment Department (RED) is required to update the Natural Resource Map Series - Eastern Broward County Wetlands Map (Map) every other year. The Map was previously updated in 2020 based on actions from January 1, 2018 through December 31, 2019. The proposed revisions are based on actions that the RED staff has taken from January 1, 2020 through December 31, 2021. Those actions include observing or delineating wetlands on a parcel, issuing an Environmental Resource License which formally identifies wetlands or removing wetlands that are no longer environmentally significant. These actions resulted in the addition of 162.96 acres and the removal of 222.007 acres. In addition, sites that were determined to be scrivener's errors due to no historical or current evidence of wetlands have been removed from the Map; these sites are not included in the removal total. Attachment 1 provides a detailed listing of the proposed additions and deletions. Attachment 2 depicts the revised Broward County Wetlands Map.
