#### Why Action is Necessary

**Summary Explanation/Background**

THE ENVIRONMENTAL PROTECTION AND GROWTH MANAGEMENT DEPARTMENT (EPGMD) AND THE ENVIRONMENTAL ENGINEERING AND PERMITTING DIVISION RECOMMEND APPROVAL OF THE ABOVE MOTION.

This item supports the Board's Value of "Encouraging investments in renewable energy, sustainable practices, and environmental protection" and Goal 1: "Seek funding for, implement policies and pursue projects promoting the use of alternative energies and sustainable practices."

The EPGMD issued Environmental Resource License (ERL) DF15-1259 (Exhibit 3) and the SFWMD issued permit 06-07569-P (Exhibit 4) to Lennar Homes, LLC authorizing impacts to 48.9 acres of wetlands and requiring the licensee to provide 23.86 acres of mixed habitat wetland mitigation area with buffers related to the redevelopment of the site (Exhibit 1), and to convey a Joint Deed of Conservation Easement (Exhibit 2) to Broward County and the SFWMD over the on-site wetland mitigation area to ensure it would remain in perpetuity and be maintained by the grantor. Additional mitigation was provided by the purchase of 3.01 freshwater credits from the FPL Everglades Mitigation Bank.

The Joint Deed of Conservation Easement has been reviewed and approved as to form by the Office of the County Attorney.
