Summary Explanation/Background

In 2021, the number of antisemitic incidents and antisemitic motivated hate crimes in the United States reached an all-time high. Jewish institutions, such as synagogues, Jewish community centers, and Jewish schools, are often targets of antisemitic incidents, including vandalism, harassment, assaults, and deadly violence. However, such incidents and hate crimes are not limited to targeting Jews, and there has been a significant recent increase in such crimes and incidents against Black individuals and Black institutions, including bomb threats against historically Black colleges and universities earlier this year and the recent attack by a white supremacist against Black individuals at a grocery store in Buffalo, New York. Hate crime incidents against Asian Americans increased 339% in 2021, and such incidents against Latinos are also on the rise.

This item, if approved, would direct the Office of the County Attorney to analyze the extent to which Broward County can enact regulations or propose other appropriate measures regarding the investigation and punishment of crimes motivated by hate and bigotry that target ethnic, racial, religious, and other minority groups, and, to the extent permissible, draft an Ordinance, or propose such measures for the Board's later consideration.
