Summary Explanation/Background

The Florida Department of Transportation ("FDOT") has adopted a work program which includes a project to widen and improve State Road 869, the Sawgrass Expressway, in Broward County, Florida,

from south of Sunrise Boulevard to Atlantic Boulevard, as described in the Department's Five-Year Adopted Work Program as Financial Project Number (FPN) 437155-1 ("Project").

A partial interchange currently exists within the Project limits at Pat Salerno Drive, an arterial roadway under the jurisdiction of the City, and State Road 869, with ramps accommodating traffic movements to and from the south.

The County and the City have asked FDOT to consider design and construction of a fully directional interchange at Pat Salerno Drive and the Sawgrass Expressway, with ramps accommodating traffic movements both to and from the south and to and from the north ("Full Interchange") as part of the overall Project.

The City wishes to transfer certain properties to the County to facilitate the construction of the Full Interchange.

All documents have been reviewed and approved as to form by the Office of the County Attorney.
