Summary Explanation/Background

On September 21, 2021 (Item 57), the Board approved a pilot project for home repair work on 26 homes in the residential area of the Northwest Pompano Beach Community Redevelopment Agency (13 homes in each of Municipal Commission Districts 4 and 5), which will be the first step toward the County's \$10 million investment in addressing slum and blight in that residential district. The Board action authorized the County Administrator to take all budgetary and administrative actions necessary to facilitate the pilot project and provided specific direction on the parameters of the project (such as the number of homes, the maximum project cost per home, and the strong preference for local contractors), but did not provide specific direction to directly award the project rather than award after conducting a competitive solicitation.

This item, if approved, would waive the Broward County Procurement Code to the extent necessary and direct the County Administrator to expeditiously and directly award the administration of the pilot project to the Collective Community Initiative, LLC, an economic and workforce development company based in the City of Pompano Beach and whose President is Dahlia Baker, with the terms of the award to be consistent with the other direction provided by the Board on September 21, 2021,

and provided the actual home repair will be performed by appropriately licensed contractors. The agreement with the awarded entity shall be subject to legal sufficiency approval by the Office of the County Attorney.
