Summary Explanation/Background

On August 25, 2022, the Board of County Commissioners ("Board") directed the Office of the County Attorney to prepare Ordinances to amend or repeal outdated or obsolete provisions of the Broward County Code of Ordinances ("Code") and present such Ordinances for consideration by the Board. Consistent with this direction, a series of proposed Ordinances will be presented for Board consideration in 2022 and 2023. This proposed Ordinance repeals sections of the Code that are

obsolete and no longer consistent with the County's current practice.

Section 1-6 of the Code declares the budgeting and expenditure of funds to purchase uniforms for certain employees to be a public purpose. Section 1-8, which was enacted in 1974 during the energy crisis, authorizes expenditure and budgeting for the purpose of public information regarding the energy crisis. These provisions are unnecessary and obsolete as the purchase of uniforms is addressed in applicable collective bargaining agreements, and the energy crisis has subsided.

Sections 1-20 and 1-46 authorize the Board to approve agreements that contain indemnification provisions. The law in the State of Florida has substantially changed since these provisions were enacted in the 1970s, and these provisions are no longer required.

Section 1-21 of the Code provides that, except by affirmative vote of four Commissioners, any matter on which the Board has denied a motion to take action may not be brought back before the Board for 12 months. This is inconsistent with current Board policy, as stated in Chapter 18 of the Broward County Administrative Code.
