AFFORDABLE HOUSING BONUS DENSITY

Policy 2.16.3 was initially readopted as part of the BrowardNext process on April 25, 2017, and amended on March 9, 2021, to increase the bonus density formulas. The following modifications are proposed to enhance the implementation related to development parcels designated as “Residential.” All changes are indicated in ~~strike-through~~/underline format. Words in ~~double-strike-through~~/double-underline format reflect a ministerial correction per the July 28, 2022, Planning Council public hearing.

POLICY 2.16.3

(1) Bonus residential density may be allocated to facilitate the development of affordable housing for persons within the following income categories as defined in the Broward County Land Use Plan:

- Moderate-income persons having a total annual anticipated income for the household that does not exceed 120 percent of the median annual income adjusted for family size for households within the county.*

- Low-income persons having a total annual anticipated income for the household that does not exceed 80 percent of the median annual income adjusted for family size for households within the county.*

- Very-Low income persons having a total annual anticipated income for the household that does not exceed 50 percent of the median annual income adjusted for family size for households within the county.*

*While occupying a rental unit, annual anticipated gross income may increase to an amount not to exceed 140 percent of the applicable median income adjusted for family size.

(2) Bonus Formulas

Moderate-income: Six (6) bonus units per every one (1) “moderate-income” unit (including areas east of the Intracoastal Waterway).

Low-income: Nine (9) bonus units per every one (1) “low-income” unit (including areas east of the Intracoastal Waterway).

Very-Low-income: Nineteen (19) bonus units per every one (1) “very-low-income” unit (including areas east of the Intracoastal Waterway).

- (3) Affordable housing density bonuses are conditioned on the developer or purchaser providing, in a manner acceptable to the affected unit of local government, guarantees, as a minimum, through the use of restrictive covenants, that the affordability of the bonus units for the affordable income groups described above will be maintained for a period of at least thirty (30) years for rental housing and at least thirty (30) years for owner occupied housing.
- (4) The total number of ~~bonus~~ affordable and bonus units on lands designated as “Residential” may not exceed 50 dwelling units per acre with the exception of sites fronting with direct access to a roadway classified as a State road, County arterial, per the Broward Highway Functional Classification map, or other road or portion thereof as approved by the County Commission. 50% of the maximum number of dwelling units indicated for the parcel by the local land use plan map. However, for “very low or low income” units, the total number of bonus affordable and bonus market rate units may not exceed 100% of the maximum number of dwelling units indicated for the parcel by the local land use plan map. For parcels designated “Commerce” or similar designation on the local land use plan map, these ~~percentages~~ maximum densities shall not be applicable. Units of local government shall address compatibility with existing and future land uses through its local land development regulations.
- (5) At the time of allocation of bonus density, the applicable local government must make a finding that adequate public facilities and services are in place or will be in place with completion of project construction, to accommodate all bonus and affordable units.
- (6) Allocations of bonus residential density ~~does~~ not require an amendment to the Broward County Land Use Plan or local land use plan.
- (7) Units of local government may utilize the Bonus Density provisions regardless of whether such provisions are incorporated within their certified local land use elements.
- (8) By January 31 of each year, an official of each local government shall transmit to the Planning Council an annual report providing tables reflecting bonus density units allocated.
- (9) ~~Bonus~~ “Affordable” unit and bonus unit construction is subject to the following, as enforced by the applicable local government:
 - a. One hundred percent (100%) of ~~bonus~~ “affordable” units must receive certificates of occupancy before the final fifty percent (50%) of bonus units receive their certificate of occupancy; or
 - b. The local government must require that ~~bonus~~ “affordable” units are available before or concurrently with bonus units.
- (10) Units of local government may be more restrictive and are not required to adopt, utilize or implement the above referenced bonus formulas.
