**Program: Domestic and Non-Domestic Wastewater
And Surface Water Management**

Any objection to the plat as submitted.
Answer: No

This plat is subject to the comments noted below.
Answer: Yes

Plat Comments, as needed:

1. The Broward County Domestic Wastewater Licensing Program has no objection to the described plat note amendment. Nonetheless, should there be a significant flow generation from the site, advanced planning and upgrades to the downstream/off-site wastewater facilities may be warranted. Contact the Environmental Engineering and Permitting Division at 954-519-1483 or WWLicense@broward.org for specific code requirements.
2. The Broward County Non-Domestic Wastewater Program has no objection to the described plat note amendment because no non-domestic wastewater discharge is anticipated for the site. Nonetheless, should there be proposed non-domestic wastewater discharges, these must meet the criteria under Chapter 27, Article V, Sections 27-193(b)(3)a, 27-193(b)(4)a, 27-194(b), and 27-198(c) of the Broward County Code of Ordinances. Contact the Environmental Engineering and Permitting Division at 954-519-1483 or NDDLICENSE@broward.org for specific code requirements.
3. This site does not require a Broward County Surface Water Management License because it is located outside of the jurisdiction of the Broward County Surface Water Management Licensing Program.

Answer: Yes

Plat Comments, as needed:

1. An Environmental Resource License, No. DF98-1016, was issued on 3/19/1998 and expired on 3/19/2003. This plat has previously been reviewed by the Water and Environmental Licensing Section of the Environmental Engineering and Permitting Division to authorize the filling of 1.96 acres of wetlands. On-site (Tract B) wetland mitigation was required and a Joint Deed of Conservation Easement (Instrument # 113300405) was granted to Broward County and the South Florida Water Management District.
2. The Water and Environmental Licensing Section of the Environmental Engineering and Permitting Division encourages all invasive exotic vegetation including Melaleuca, Brazilian pepper, Australian pine and others as listed in the Exotic Pest Plant Council's List of Florida's Most Invasive Species to be removed during the development process, and a management plan may be necessary to control re-invasion of same. In addition, landscape material should not include any plants considered to be invasive of South Florida's native plant communities. The Exotic Pest Plant Council's List of Florida's Most Invasive Species is available at <https://www.fleppc.org/list/list.htm>.
3. Other activities regulated under Chapter 27, Article XI of the Natural Resource Protection Code (e.g., lake or canal excavation, installation of headwalls, end walls, or outfalls) may require an Environmental Resource License. Prior to undertaking surface disturbing activities, contact the Environmental Engineering and Permitting Division at 954-519-1483 or AWRLicense@broward.org for specific code requirements.
