

Eco-Discovery Lab at Deerfield Island Park and the Sullivan Park Eco-Center

Provide ideal locations for the following:

- Environmental and marine science educational field trips for K-12
- Professional development and hands-on program for educators
- Educational special events for the public
- Volunteer community engagement events
- Interactive exhibits demonstrating interconnection between the Sawgrass and Seagrass ecosystems
- Exhibits showcasing the integration of arts in STEAM education (Science, Technology, Engineering, Arts, Math)
