1. Land Use

Planning Council has reviewed this application and determined that the City of Fort Lauderdale's Comprehensive Plan is the effective land use plan, that plan designates the area covered by this plat uses permitted in the "Commercial" land use category. The proposed commercial use is in compliance with the permitted uses and densities of the effective land use plan. Planning Council Memorandum is attached as **Exhibit 3**.

2. Trafficways

Trafficways approval is valid for 10 months. Approval was received on December 2, 2021.

3. Access

Highway Construction and Engineering Division, Traffic Engineering Division and Transit Division have reviewed the plat application and determined that the comments and recommendations are required with respect to the safe and adequate access standards of the Broward County Land Development Code, as shown in the attached memorandum. The recommendations for this plat may be modified if significant conflicts are identified by details included in the submitted construction plans, **Exhibits 4**.

This project is located on Federal Highway/U.S. 1. Florida Department of Transportation (FDOT) has issued a pre-application letter (See attached FDOT Letter). Openings or improvements on functionally classified State Roads are subject to the "Rules of the Department of Transportation Chapter 14-97 State Highway System Access Management Classification System and Standards", see **Exhibit 5**.

4. Concurrency – Transportation

This plat is located in the Central Transportation Concurrency Management Area, which is subject to Transportation concurrency fees, as defined in Section 5- 182.1.(a)(1)a) of Land Development Code.

	Existing Use PM Trips per Peak Hour	Proposed Use PM Trips per Peak Hour
Residential	0	0
Non-residential	0	35
Total	35	

5. Concurrency - Water and Wastewater Capacity

This plat receives water and wastewater from the utilities listed below:

	Potable Water	Wastewater
Utility Provider:	City of Fort Lauderdale	City of Fort Lauderdale
Plant name:	Fort Lauderdale (Fiveash) (08/21)	G.T. Lohmeyer (06/22)
Design Capacity:	90.00 MGD	48.00 MGD
Annual Average Flow:	51.00 MGD	43.24 MGD
Estimated Project Flow:	0.003 MGD	0.003 MGD

Sufficient capacity exists at this time to serve the proposed development, however approval of this plat note does not guarantee reservation of future capacity. Plat approval does not infer any approval to connect to any wastewater collection, treatment, or disposal system.

6. Impact Fee Payment

Transportation concurrency and administrative fees will be calculated by Urban Planning a Division, Development and Environmental Review Section; assessed based on construction plans submitted for environmental review approval and must be paid on date of building permit issuance.

7. Environmental Review

This plat has been reviewed by Environmental Permitting Division. See the attached environmental review report which provide recommendations to the developer regarding environmental permitting for the future development. See the attached Environmental Review Report, **Exhibit 6**.

Natural Resource Division notes that this site is not included in the Protected Natural Lands Inventory and is not adjacent to a site in the Inventory.

8. Additional Environmental Protection Actions

Plat approval does not infer any approval to connect to any wastewater collection, treatment, or disposal system. Nor does it infer that sufficient capacity will exist at time of building permit approval. Approval to connect to such systems is approved by the Environmental Permitting Division as a prerequisite to, and just prior to, approval of building permits by the appropriate building department for any structures that are to be built on the platted site. These comments do not indicate waiver of approval of any other permit that may be required for other aspects of the project.

9. Historic Resources

This plat has been reviewed by the Broward County's consulting archaeologist. The review of available information including archival documents, maps, the Broward County Land Use Plan, and the Florida Master Site File determined that the proposed project, will not have an adverse effect on any known historical or archaeological resources or areas of archaeological or paleontological sensitivity. See the attached historic and archaeological comments, **Exhibit 7**.

10. Aviation

The Broward County Aviation Department has no objections to this plat. However, the information submitted with this plat application does not indicate the height of any proposed buildings. The applicant is advised by staff of the Aviation Department that any proposed construction on this property with a height exceeding 200 feet, or the use of cranes or other high-lift equipment, must be reviewed to determine if Federal Aviation Regulation Part 77, Florida Statutes, Chapter 333 and/or the Broward County Airport Zoning Ordinance apply to this development. Based on the location of the proposed project, the FAA may need to conduct a review to determine whether the project is a potential hazard to aviation. To initiate the Federal Aviation Review, access the FAA Web Page at: <http://oeaaa.faa.gov>.

11. Utilities

Florida Power and Light (FPL) and AT&T have been advised of this plat application and provided no comments.

12. Notice to Applicant

The applicant is advised that, in accordance with Section 125.022, Florida Statutes, the issuance of a development permit by the County does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the County for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Specific questions regarding any of the above comments may be directed to each review agency contact person. A list of agency contacts is available on the Urban Planning Division's web page at: www.broward.org/Planning/FormsPublications/Documents/ReviewAgencies.pdf

FINDINGS

Staff have reviewed the application and found that it meets the requirement of the Land Development Code and satisfies requirements for Concurrency:

1. This plat is located within the Central Concurrency Management Area. This district meets the regional transportation concurrency standards specified in Section 5-182.1(a)(1)a) of the Land Development Code.
2. This plat satisfies the drainage, water, wastewater and solid waste disposal concurrency requirement of Section 5-182.6 of the Broward County Land Development Code.

RECOMMENDATIONS

Based on the review and findings, staff recommends **APPROVAL** of this application, subject to the following conditions which shall assure compliance with the standards and requirements of the Land Development Code:

1. Conditions attached in Highway Construction and Engineering Memorandum, **Exhibit 4**.
2. Place note on the face of the plat, preceding municipal official's signature, reading:

Concurrency/impact fees for the construction, expansion, and/or conversion of a building within this plat shall be paid on the date of building permit issuance.

3. Place a note on this face of the plat reading:

- a. This plat is restricted to 3,000 square feet of commercial use.

This note is required by Chapter 5, Article IX, Broward County Code of Ordinances, and may be amended by approval of the Broward County Board of County Commissioners. The notation and any amendments thereto are solely indicating the approved development level for property located within the plat and do not operate as a restriction in favor of any property owner including an owner or owners of property within this plat who took title to the property with reference to this plat.

4. If this item is approved, authorize the Mayor to sign an order approving this agenda item subject to staff findings, comments, and recommendations.
