SCOPE OF WORK

COUNTYWIDE INTERSECTION IMPROVEMENTS PRIORITIZATION STUDY

The Broward County Highway Construction and Engineering Division requests a Consultant to develop a prioritized schedule of signalized intersection capacity improvement projects.

The County will provide the Consultant a list of all signalized intersections, which is approximately 1,461 total signalized intersections within the County (including County, Cities, and State intersections). The Consultant is requested to develop a methodology to longlist 250 intersections from the total number of intersections in Broward County based on available information, such as, but not limited to, the following: traffic and safety data, recently completed construction projects, planned future improvements, and other filters proposed by the Consultant and approved by the County.

From the longlist of intersections, the Consultant must develop a methodology to provide the County with the following: (1) 5 Constructible intersection improvements for immediate work program implementation, and (2) A shortlist 100 intersections requiring capacity and safety improvements. When developing the shortlist, the Consultant must consider the feasibility of the improvements by identifying right of way acquisitions, environmental restrictions/mitigation, and other items of significance.

From the Shortlist of 100 intersections, the Consultant shall group the intersections based on a combination of demand for the improvement, feasibility of the improvement's implementation, and reasonable timeframe for the implementation of the improvement alternative/concepts. The Consultant shall provide deliverables for Five (5) groups of intersections. The County envisions the implementation of alternatives/concepts to range from short term solutions with a likelihood of being in construction in less than 2 years (i.e. Group 1) to long term solutions with a likelihood of being in construction within 20 years (i.e. Group 5). Depending on restrictions encountered at the intersections, the Consultant will be requested to provide concepts/alternatives and cost estimates for both short term and long term solutions. The number of intersections per group is identified in the project schedule.

To achieve this goal, the Consultant efforts will include, but not be limited to the following:

- Research and develop a shortlisting and prioritization methodology strategy.
 - Perform research on the data that is needed and available.
 - Determine the most efficient data collection practice for the remaining data needed.
- Coordinate with the Florida Department of Transportation, Broward County (multiple Divisions), local agencies and municipalities to identify relevant

information such as: recently completed construction projects, planned future improvements, planned developments, and any available data needed.

- Perform data collection and analysis.
- Perform Travel Demand Forecasting and Modeling (if applicable).
- Provide feasible intersection improvement alternative/concept recommendations. Recommendations may include more than a single alternative, such as an immediate and future recommendation or phased deployments of improvements.
- Establish long range project construction cost estimates
- Provide renderings and traffic simulation videos as requested.
- Conduct presentations at public meeting and workshops at any task of the project.

The Consultant must provide recommendations and alternatives including concepts/layouts and cost estimates of the proposed improvements. In accordance with the project schedule, the Consultant shall provide task reports and a final study report signed and sealed in accordance with Florida law regulating professional engineering services, including, but not limited to, Chapter 471, Florida Statutes (“Engineering”) and Florida Administrative Code, Division No. 61G15 (“Board of Professional Engineers”). The final study report, at a minimum, shall include the following:

1. Executive Summary

 - a. Background Information
 - b. Data collection
 - c. Data analysis

Request for Proposals, Request for Qualifications, or Request for Letters of Interest

The following forms and supporting information (if applicable) should be returned with Vendor's submittal. If not provided with submittal, the Vendor must submit within three business days of County's request. Failure to timely submit may affect Vendor's evaluation.

- A. The Vendor shall submit a listing of all subcontractors, subconsultants and major material suppliers (firms), if any, and the portion of the contract they will perform. A major material supplier is considered any firm that provides construction material for construction contracts, or commodities for service contracts in excess of \$50,000, to the Vendor.

Summary of Vendor Rights Regarding Broward County Competitive Solicitations

The purpose of this document is to provide vendors with a summary of their rights to object to or protest a proposed award or recommended ranking of vendors in connection with Broward County competitive solicitations. These rights are fully set forth in the Broward County Procurement Code, which is available here: <https://www.broward.org/purchasing>.

1. Right to Object

The right to object is available for solicitations conducted through Requests for Proposals ("RFPs") or Requests for Letters of Interest ("RLIs"). In such solicitations, vendors may object in writing to a proposed recommendation of ranking made by a Selection or Evaluation Committee. Objections must be filed within three (3) business days after the proposed recommendation is posted on the Purchasing Division's website. The contents of an objection must comply with the requirements set forth in Section 21.84 of the Procurement Code. Failure to timely and fully meet any requirement will result in a loss of the right to object.

2. Right to Protest

The right to protest is available for RFPs and RLIs and in solicitations conducted through Invitations to Bid ("ITBs"). In RFPs and RLIs, vendors may protest a final recommendation of ranking made by a Selection or Evaluation Committee. In ITBs, vendors may protest a final recommendation for award made by the Broward County Purchasing Division.

In all cases, protests must be filed in writing within three (3) or five (5) business days after a recommended ranking or recommendation for award is posted on Purchasing Division's website. The timeframe for filing (*i.e.*, 3 or 5 business days) depends on the monetary value of the procurement. Additional requirements for a protest are set forth in Section 21.118 of the Procurement Code. Failure to timely and fully meet any requirement will result in a loss of protest rights.

Vendors may appeal the denial of a protest. Appeals may require payment of an appeal bond. Additional requirements for an appeal are set forth in Section 21.120 of the Procurement Code. Failure to timely and fully meet any requirement will result in a loss of appeal rights.

3. Cone of Silence; Right to Contact OESBD

Please be aware that a Cone of Silence remains in effect for competitive solicitations until a solicitation is completed or a contract is awarded. During that time period, vendors may not contact certain County officials and employees regarding a solicitation. Substantial penalties may result from even an unintentional violation. For further information, please contact the Purchasing Division at 954-357-6066 or refer to the Cone of Silence Ordinance which is available here: <https://www.broward.org/Purchasing/Documents/ConeOfSilence.pdf>.

However, vendors may communicate with a representative of the Office of Economic and Small Business Development ("OESBD") at any time regarding a solicitation or regarding participation of Small Business Enterprises or County Business Enterprises in a solicitation. OESBD may be contacted at (954) 357-6400. The Cone of Silence also permits communication with certain other County employees (please see the Cone of Silence Ordinance at the above link for further details).
