

Our Canadians, the majority of residents with 20 to 30 years of residency at Lake Trinity Estates / Lakeside Park Estates crushed without being addressed.

Only offered \$200 for even the most expensive of homes. They were given a virtual two week notice and, after paying rent continually during the pandemic years as well; without, being able to be here!

Many invested thousands of dollar into their residential property in 2022 just prior to receiving the info regarding the park closing. (March 19, 2022)

Serious case of elder abuse bases on time restraints and gross devaluation of their homes.
