Re: Woodlands development proposal before Planning Council, May 4,2021

Please distribute to all Planning Council members.

Dear Planning Council Member-

IT DOES NOT MATTER WHETHER THE DEVELOPMENT PLAN REQUIRES 3 DWELLING UNITS PER ACRE OR 5 UNITS PER ACRE- THE COMMUNITY INFRASTRUCTURE- ESPECIALLY THE ROADWAYS AND WATER DELIVERY SYSTEM OF THE WOODLANDS- ARE NOT DESIGNED TO HANDLE THE INCREASED USAGE WHICH WILL OCCUR IF THE PROPOSAL IS IMPLEMENTED- THE DEVELOPMENT PLAN AS PRESENTED DOES NOT ADDRESS THIS BASIC FACT IN ANY MEANINGFUL WAY.

I am sure you have heard many arguments for and against allowing this project to proceed, but I think that **THERE IS ONE REASON THAT STANDS OUT ABOVE THE MANY OTHERS NOT TO ALLOW THIS DEVELOPMENT TO GO FORWARD**, which is as follows:

The plan submitted by the developer ENDANGERS THE HEALTH AND WELL-BEING of the thousands of people that already reside in the Woodlands Community.

The development plan as it stands seeks to **CLOSE OFF ALMOST ALL OF THE ROADS LEADING IN AND OUT OF THE ALREADY POPULATED LIVING AREAS OF THE WOODLANDS COMMUNITY. THE PLAN THEN SEEKS TO DOUBLE THE POPULATION OF THE AREA.**

By limiting entrance and egress from the community and basically closing it off from its surrounding area under the guise of increasing security for its residents, the plan put forward by the developers actually jeopardizes the security of those residents by **significantly increasing the response time of ambulance, fire and police services.**

In addition, THE ROADS THROUGHOUT THE WOODLANDS COMMUNITY CANNOT HANDLE THE ADDITIONAL TRAFFIC BURDEN OF THE VEHICLES ASSOCIATED WITH THE PROPOSED NEW UNITS. NOR CAN THE UTILITY, WATER, AND SEWAGE INFRASTRUCTURE COPE WITH THE ADDITIONAL

USAGE REQUIRED IF THE PROPOSAL IS ADOPTED AS PRESENTED. It is that simple.

At this stage of the approval process, I can only reiterate the Main Reasons for Opposition to this project, as voiced by an overwhelming number of community residents-

(1) Worsened Traffic- The developer has already added hundreds of new homes to the area contributing many more vehicles to already gridlocked traffic at rush hours and beyond on Commercial Boulevard, Rock Island Road, in Tamarac and N.W. 44th Street in Lauderhill. The developer's plan will only exacerbate this problem and offers no way to mitigate this dire situation.

(2) Restricted Emergency Services- The developer's plan for the Woodlands Country Club community limits access and egress to the area in what the developer believes would enhance the attractiveness of the community by adding what would seem to be an air of exclusivity and additional safety. The area already has limited ways in and out and any further restrictions- including the addition of gatehouses , either manned or with keypad access- would severely reduce access time for ambulance, fire or police services, causing a very negative impact for residents' safety and security.

(3) Strained Utilities- The developer offers no plan to enhance the delivery of water and sewer services for the additional proposed homes, piggy-backing their needs onto the already strained resources of water and sewer services. Like traffic which is already problematic at peak times, water service in the area is severely strained at peak hours as well. In addition, the existing roadway structure of the Woodlands consisted of narrow barely two-lane roadways. These roads, barely accommodating to existing traffic, will be overburdened with the addition of almost 400 new homes and the traffic associated with that increase.

(4) Damage to Natural Areas and Wildlife- The developer will be destroying the balance of the present eco-system of the Woodlands and will cause the displacement of the many unique species in the area. The development plan, as it exists, does not adequately address this important issue.

As it stands, the developer's plan, as approved by the Tamarac City Commission, and against overwhelming opposition by the public, creates more problems than it solves, and should not be allowed to proceed in its present form.

Please exercise some common sense and do not let the greed of a few (developers and politicians) destroy the well-being of the many (the residents of Broward County).

Thank You,
R. A. Messinger
5203 Sago Palm Blvd.
Tamarac, FL

EXHIBIT C

April 29, 2021

For: Broward County Commissioners and Broward County Planning Council

Re: May 04, 2021 Commission Meeting – Item 30 (PC20-2 / Woodlands)

To all the Broward County Commissioners,

My name is Jeffrey Shapiro and reside at 6104 Orchard Tree Lane, Tamarac, FL 33319. This is located in the Woodlands Community, Section 8.

I have provided the Broward County Commissioners and Broward County Planning Council with information concerning the proposed Re-Zoning from Recreational to Residential on the Woodlands County Club golf courses (two 18 hole courses). The home I reside at is a direct affected party to this RE-Zoning, and since the last Broward County Commission Meeting on October 20, 2020 some new things have come to light and that what I would like to bring forward now! I am still against the Re-Zoning.

Just as a point of reference, 6104 Orchard Tree Lane (is Lot 8, Block 47, WOODLANDS SECTION EIGHT, according to the plat thereof, as recorded in Plat Book 67, Page 42, of the Public Records of Broward County, Florida). The back of the house is on a waterway and the other side of the waterway is the golf course property, which is known as the 10th hole on the West Course. The south side of this 10th fairway and 10th hole is NW 44th Street in Lauderhill.

When the home site at 6104 Orchard Tree Lane was built 50 years ago, there was the house, the two property line metal pins, and then a 10 foot land property easement with grass planted on it, and then the waterway itself. Over the span of 50 years the underpinning that held property easement in place eroded taking away all the underpinning and the land fell into the waterway. The property line metal pins where on land, but now they are both in the waterway along with the entire 10 foot property easement. Just go back to the original Developer Broward County Site Plan Survey Records and you will see that all this land with the property easement was there, and it also shows the complete design of how that waterway was originally. (There are another 8 to 9 homes on my side of the street the land fell into the waterway.) There was never a seawall there.

- 1) Since October 20, 2020 we a tropical storm November 2020 that lasted 4 days, and the waterways completely over flowed to the highest points I ever seen in my over 22 years living the Woodlands Community, and the road flooding was the worst I ever seen in the community. My residence lost any additional 3 feet of the property falling into the waterway almost the entire 100 foot length of the rear property. My neighbors where affected as well.

Global Warming is here, we are going to have more extreme weather and nothing is being done about, as of now there is no future planning be done about in Tamarac.

New home development by Broward County Code and City of Tamarac Code states that the land elevation has to be higher than it was 50 years ago, and this will cause flooding of the Woodlands Community. As for the waterway behind my home, 13th Floor Homes has stated at the City of Tamarac Planning Council Meetings and the City of Tamarac Commission Hearings that the current waterway would be made narrower by filling it in on the golf course side giving the Developer more land space to put in a street behind my house and number of new homes to be built, all at a higher elevation than mine with a smaller waterway for the new home drainage to flow to. If the Developer is allowed to do that then they are directly using my land to do that, because my property and 10 foot property easement are already in the waterway. This is also going to cause flooding all the time. If there is not enough room on the current parcel of West Course 10th hole fairway to fitting a street and homes, then this parcel of West Course 10th hole fairway should NOT be Re-Zoned to Residential. It should remain Recreational, and be used for only recreational purposes.

The Woodlands County Club golf courses have been used for absorption for over 50 years and by allowing this to be developed as home sites totally takes away this absorption ability and cause massive flooding in the community. The current sewer pipes can't hold anymore waste flow, they are already at full capacity since the existing sewer pipes were re-lined in PVC which reduced the inside diameter of these pipes by 1 inch circumference.

- 2) Next thing that has taken place since October 20, 2020 is that Club Link sold their Heron Bay Golf Course Property to the Cities of Coral Springs and Parkland, where both cities are looking for the future and looking to handle their future problems with Global Warming. Their plans are to use a majority of the land for water retention, a place where all the water from heavy rain falls, tropical storms, hurricanes, can be pumped to, to prevent flooding in the Cities of Parkland and Coral Springs, it's a joint venture plan that will benefit both cities for the future and Global Warming. This is great thinking and planning of both cities for their residence. It will also act as a Nature Preserve with walking trails and other activities. Only a small portion of the land is going to be developed for like business, shops and restaurant.

Why can't something like this be done with the Woodlands Country Club property? These golf courses were developed for absorption. It is certainly needed with all the flooding that here, and the City of Lauderhill has a lot of flooding issues of their own. This could be a solution only for Tamarac, Lauderhill, and maybe another neighboring city. This would be forward thinking for the future.

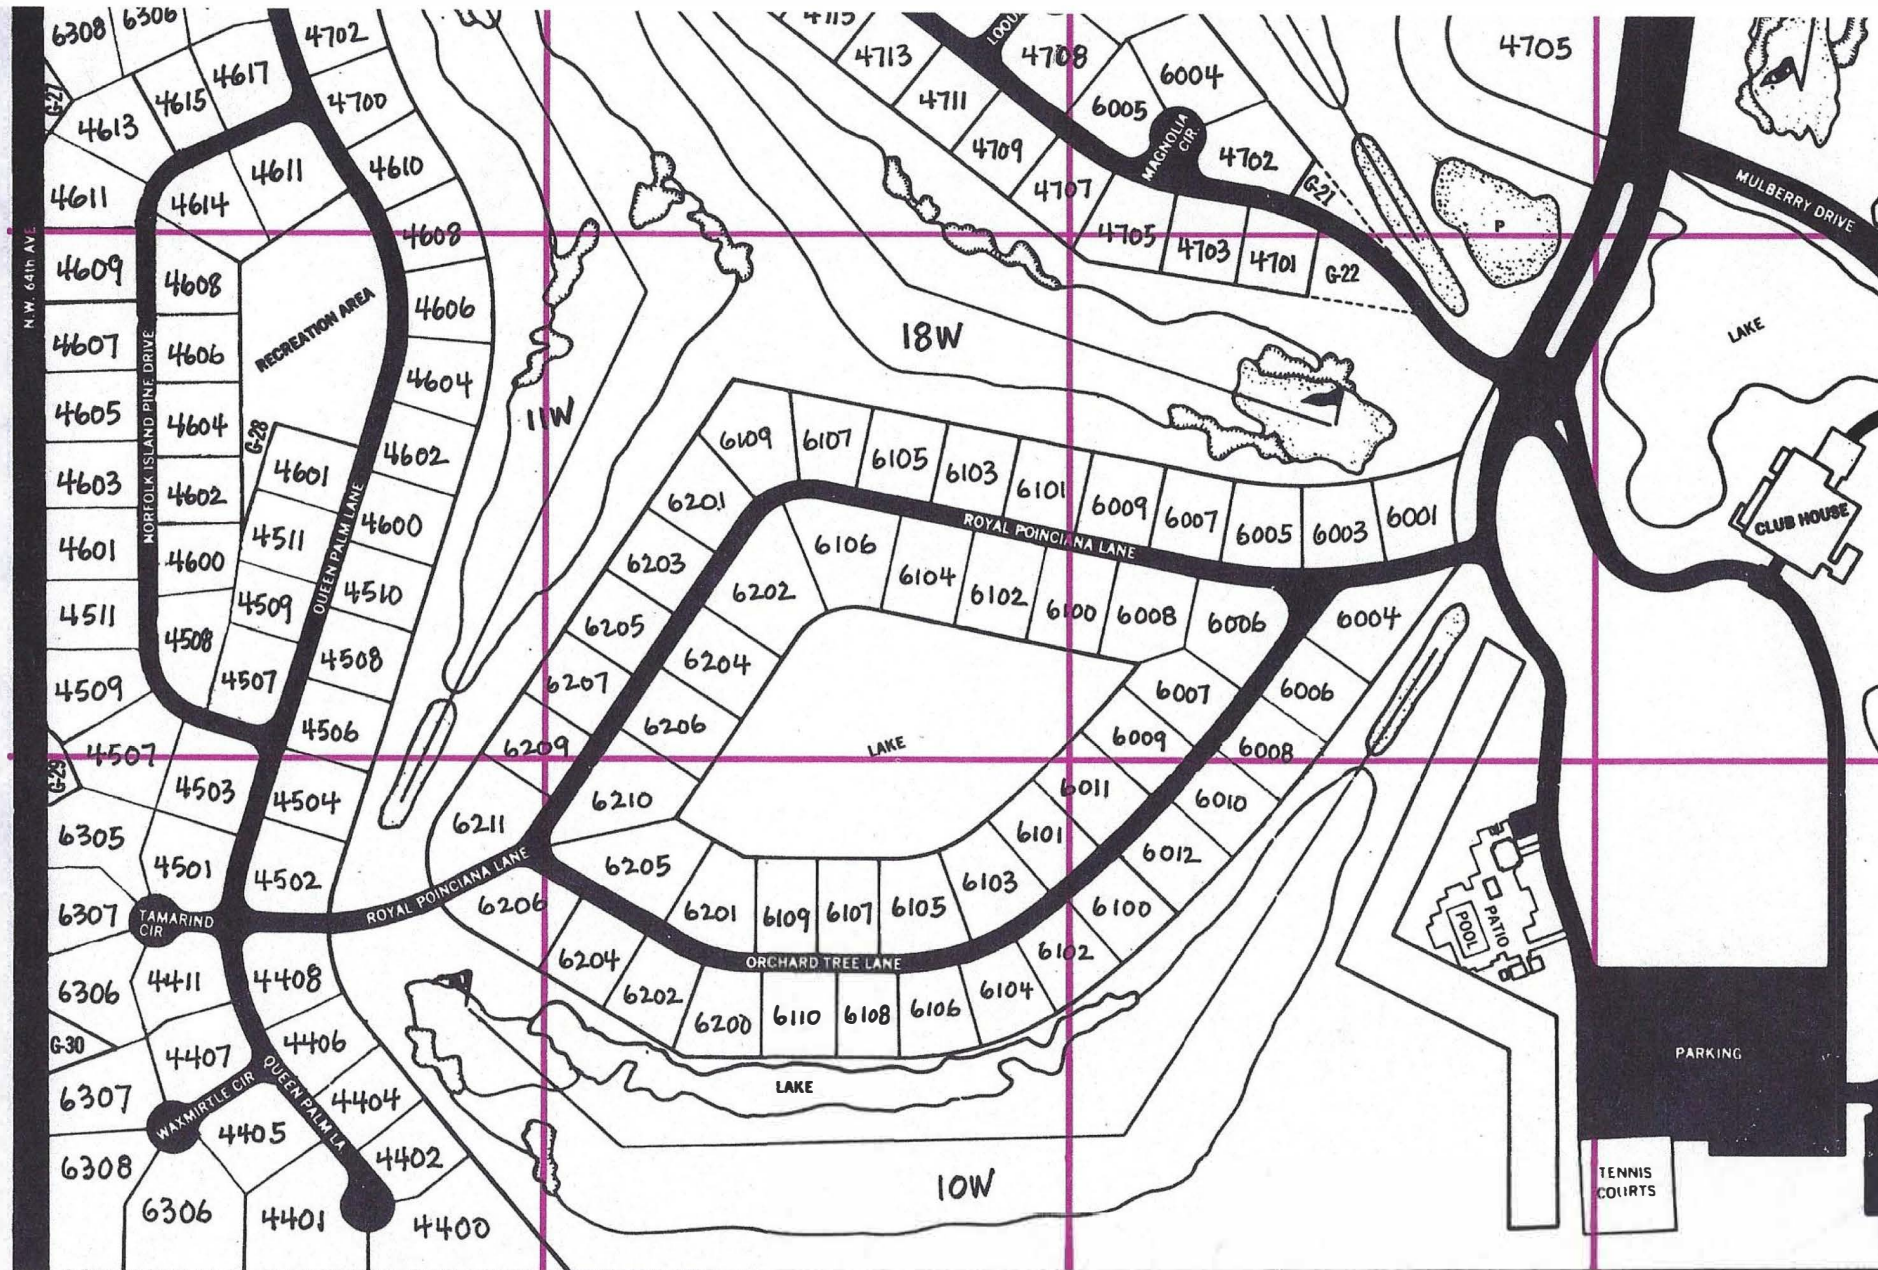

- 3) Another thing the Broward County Commissioners should be aware of is that there is no stated sales price that 13th Floor Homes is going to pay Club Link for the Woodlands Country Club golf course property. Every time the attorneys for 13th Floor Home have been asked this question they have answered that there is no price to purchase, that 13th Floor Homes is working with Club Link to acquire the Re-Zoning of the property from Recreational to Residential. In other words Club Link has an agreement for 13th Floor Homes to do all their dirty work for them in acquiring Re-Zoning. Club Link is also a development firm and reports to its parent company.

I want to thank you all for taking the time to read this letter.

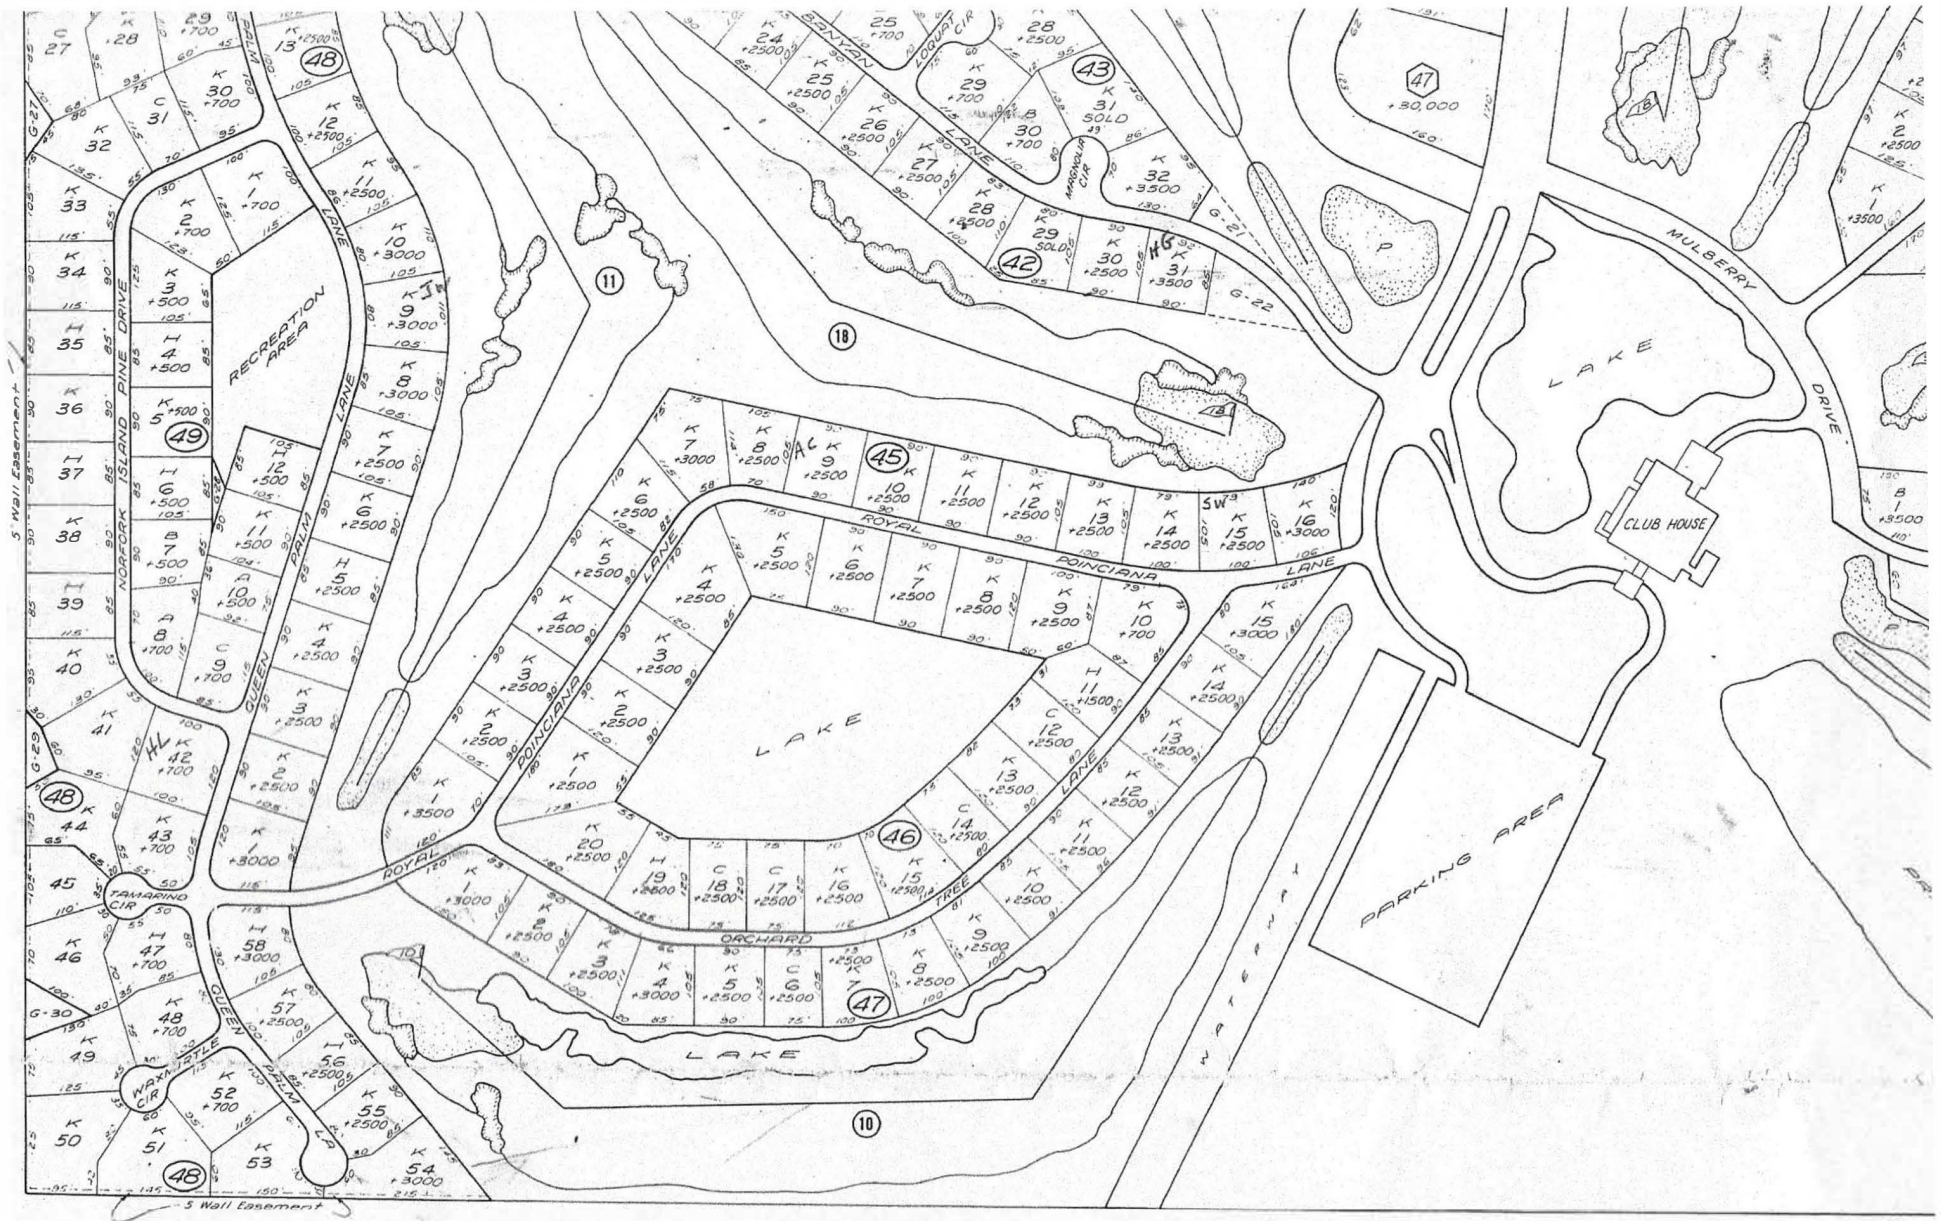

Please see 4 original site plan attachments.

In closing, I am against the Re-Zoning on the May 04, 2021 Item 30 (PC 20-2 / Woodlands).

Jeffrey Shapiro

The Oaks

NOTES:

Woodlands

moderate models as listed below.

HOLLY (2 Bedroom)
 HOLLY (3 Bedroom)
 BANYAN
 MAGNOLIA (2 Bedroom)
 MAGNOLIA (3 Bedroom)
 COTTONWOOD

48.00 Per Month.

NOTES:

1. Prices as listed.
2. Price subject to change without notice.
3. Sales Plat subject to modifications which may be required to entitle said plat to be recorded in the Public Records of Broward County, Florida.
4. Lot dimensions are approximate. For exact dimensions contact sales office.
5. Sales Plat subject to Utility Easements necessary to provide electrical, sanitary sewer, water and telephone service to all lots.
6. Utility Easement on rear lot lines: no fences, hedges, trees etc. shall be allowed in rear easements, except optional where wall easements are shown.
7. Wall Easements as shown are not meant to imply that the builder or developer intend or plan to install a fence or wall.

The Woodlands

MODEL LEGEND

The following lots will accommodate models as listed below

Lots A, D, E, H, K	THE HUBBET (2 Bedroom)
Lots B, G, J, L, M	THE HOLLY (2 Bedroom)
Lots F, I, C, N, O	THE BARNWOOD (2 Bedroom)
Lots P, Q, R, S, T, U	THE WINDMILL (2 Bedroom)
Lots V, W, X, Y, Z	THE CATBROOKWOOD (2 Bedroom)

Maintenance on all lots - \$8.00 Per Month

NOTES

1. Easement in office
2. Lots subject to change without notice
3. Lots not subject to subdivision but may be included in future subdivision to be shown on the subdivision plan
4. The dimensions are approximate for exact dimensions contact sales office
5. Lots that subject to utility easements necessary to provide electrical, sanitary sewer, water and telephone service to all lots
6. Utility easement on rear lot lines in Block 10000. These are shall be allowed to enter any other lot in the subdivision when the subdivision is shown
7. All Easements as shown are not subject to change until the building of the subdivision is shown on the subdivision plan

Dear Mayor and Commissioners of the Broward County,

The Woodlands is the largest natural area remaining in the East of Tamarac with all the characteristics of an urban wilderness area. Contains ecosystems with a variety of living species, there are many mature trees that have thrived since the foundation more than 50 years ago. The open green space in The Woodlands provides housing to the threatened burrowing owl, also hosts coyotes, otters, ospreys, Egyptian geese, egrets, carpenters, and anhinga among many others.

The redevelopment project of The Woodlands will drench with water over 50 acres of habitats to build new water retention ponds. Will also destroy 169 acres of a century long scenic designed with a unique architectural character.

Please help us protect this irreplaceable natural jewel. In this email I want to share a petition that has attracted close to 1,500 supporters. I am also attaching a pdf with the names of the people that signed it online.

The amendment to the land use of The Woodlands will give green light to a project that is already available and will kill long lived botanical treasures that enrich our quality of life.

I will video document each of the kills, already planned, of older than 50 years old trees and score them to your legacy if you approve this project. The petition can be found in the following link:

<http://chng.it/FQR2gJvY>

Defend The Woodlands

Recipient: Nan Rich, Beam Furr, Tim Ryan, Dr. Barbara Sharief, Barbara Blake, Bertha Henry, Ken Thurston, Khya Lawrence-Cummings

Letter: Greetings,

Help us protect the invaluable open green space in The Woodlands Country Club - Tamarac FL.

The Woodlands is the largest natural area remaining in the East of Tamarac with all the characteristics of an urban wilderness area. Contains ecosystems with a variety of living species, there are many mature trees that have thrived since the foundation more than 50 years ago. The open green space in The Woodlands provides housing to the threatened burrowing owl, also hosts coyotes, otters, ospreys, Egyptian geese, egrets, carpenters and snake birds (anhinga) between many others.

The redevelopment project of The Woodlands will drench with water over 50 acres of habitats to build new water retention ponds. Will also destroy 169 acres of a century long scenic designed with a unique architectural character.

Please help us protect this irreplaceable natural jewel.

Report any suspicious emails to ETSSecurity@broward.org.

Here is my presentation and documentation:

The present designation of recreation land should remain for the Woodlands in the Land Use Plan (LUPA). There is no solution to the increased traffic that will be created by this project, and this will affect the state turnpike. Even if the developer funds an Advanced Transportation Management System (ATMS), this would create a management system for the volume of traffic. The ATMS information for the existing system neighboring the Woodlands project is present on page 4.

The following pages provide a reference to the following ideas:

-Instead of the developer funding Tamarac's future projects for creating low-income housing, the city could use existing resources to assist senior citizens and children in the community living in poverty. If the Woodlands keeps its recreation designation, property values should go up in the area which can create more property tax revenue, which can create funding for services for low-income residents.

- The deficit in low-income housing will likely be aided in the present surplus a residential rental properties and future residential rental properties being proposed for development. This is presented by means of the Median Appraisal Group Model on page 3 of this document.

-As is shown in the later pages, residential rental is challenging to track. People can rent their homes, and the size of such data tends to be small, giving low reliability due to margin error affecting these numbers. This is presented in the lower half of page 2 in the enclosed Esri ACS Housing Summary which is based upon the data from the US Census.

-The gap in supply to demand for low-income housing totals 1,762. However, the total number of low-income residents over 65 is 2,635 or 13% of the population. Assisting this community could serve for the goal for providing for the low-income residential market, as well encourage residents to stay in Tamarac.

This type of logic is already being funded by federal grants to the city, as presented below:

"Over the last five years, U.S Department of Housing and Urban Development (HUD) funds (CDBG & HOME) have assisted with the following:

- Provided home rehabilitation for over 45 owner-occupied homes.
- Installed 2 handicap accessibility doors at Public Facilities.
- Installed and/or repaired sidewalks and accessibility pads at 5 neighborhood locations.
- Provided a full-time temporary social worker that assisted over 420 residents in obtaining referrals, counseling and other social service needs.
- Provided arthritis meditation/tai chi classes to over 270 seniors.

- Provided fitness/jazzercise classes for over 280 seniors.
- Provided nutritional cooking class to over 270 seniors.
- Provided over 170 sessions of individual and group counseling.
- Provided low-flow toilet rebates to 36 households.

Although the City of Tamarac's demographics have changed, specifically with regard to the median age, seniors remain the population that utilizes the City's activities and assistance programs. The City's social services staff continually analyzes classes and activities to be provided based on turn out and response. Decent and affordable housing remains in high demand although with limited funds to meet the need of addressing the age of the City's housing stock."

Source: **An Affordable Housing Market Assessment in the City of Tamarac, Florida**

According to census data for Tamarac, 1,190 of people over 75 earn less than 15,000 a year. In terms of residents over 55, the total number is 2,436.

This number is expected to decline to 1,275 and 2,336 respectively by 2025.

In terms of low income housing, the need could be met by city programs serving low income elderly residents of the city.

The largest percentage of poverty, with the exception of children, is the community of residents 60 and older (12.3-13%). A program assisting children and seniors could alleviate poverty with greater efficacy and in a shorter time than would a low income rental housing project:

POVERTY STATUS IN THE PAST 12 MONTHS

dealing with.

Summer 2012

ADVANCED TRANSPORTATION MANAGEMENT SYSTEM (ATMS)

Installation begins in July 2012

The Florida Department of Transportation (FDOT), in cooperation with Broward County Traffic Engineering Division and Broward County Transit, is expanding the Advanced Transportation Management System (ATMS) to include the central Broward County area. This project is the pilot project for the FDOT and Broward County Transportation System Management and Operations (TSM&O) program on arterial roadways. Through TSM&O strategies, such as incident management and traffic demand management, the travel time reliability along these streets will improve for all users. When completed, this project will allow traffic on these arterials to be more effectively managed thereby reducing delays and travel times.

PROJECT OVERVIEW

The current project encompasses almost 32 miles of arterial roadways in Fort Lauderdale, Sunrise, Oakland Park, Wilton Manors, Lauderdale Lakes, Lauderhill, and Plantation. The contractor, World Fiber Technologies, will install the following types of devices:

- 22 miles of fiber optic communications infrastructure
- Closed Circuit TV (CCTV) Cameras
- Arterial Dynamic Message Signs (ADMS)
- Opticom devices for emergency pre-emption and Transit Signal Priority (TSP) system devices
- Microwave Vehicle Detection System (MVDS)
- Travel Time System (TTS) readers

The MVDS and TTS devices will be used by the staff at the Traffic Management Center (TMC) to collect data related to travel time and speeds. In combination with the traffic monitoring cameras, TMC staff will be able to identify and respond to the causes of congestion in real time. The TMC staff will use this information to coordinate with emergency responders on incidents and optimize the signal system's operations. The ADMS will be used to display travel times to major destinations within the project limits and any delays due to traffic incidents as well as Amber Alerts, Silver Alerts and motorist safety messages. FDOT and our partners expect that this ATMS will decrease incident response time and improve travel time on these roadways.

PROJECT BENEFITS INCLUDE:

- Increased motorist awareness through the use of ADMS to provide travel times. The signs will provide travel times and incident information in real time empowering the motorists to alter their travel routes, if desired.
- Emergency Pre-Emption and transit signal priority will allow emergency vehicles and buses to travel faster and more safely through intersections.
- Improved incident response time through earlier detection through the use of the MVDS, TTS and traffic monitoring cameras. Incidents can be cleared up to 30% faster preventing secondary incidents and reducing "rubbernecking."
- Data collected can also be used to adjust traffic signals to improve the timing and flow of traffic.

PROJECT AREA

- Oakland Park Boulevard from University Drive to US 1
- Sunrise Boulevard from US 441 to US 1
- Broward Boulevard from University Drive to US 1
- US 441 from SW 6 Street to Commercial Boulevard
- University Drive from Broward Boulevard to Oakland Park Boulevard
- US 1 from Broward Boulevard to Oakland Park Boulevard

CONSTRUCTION OPENHOUSE

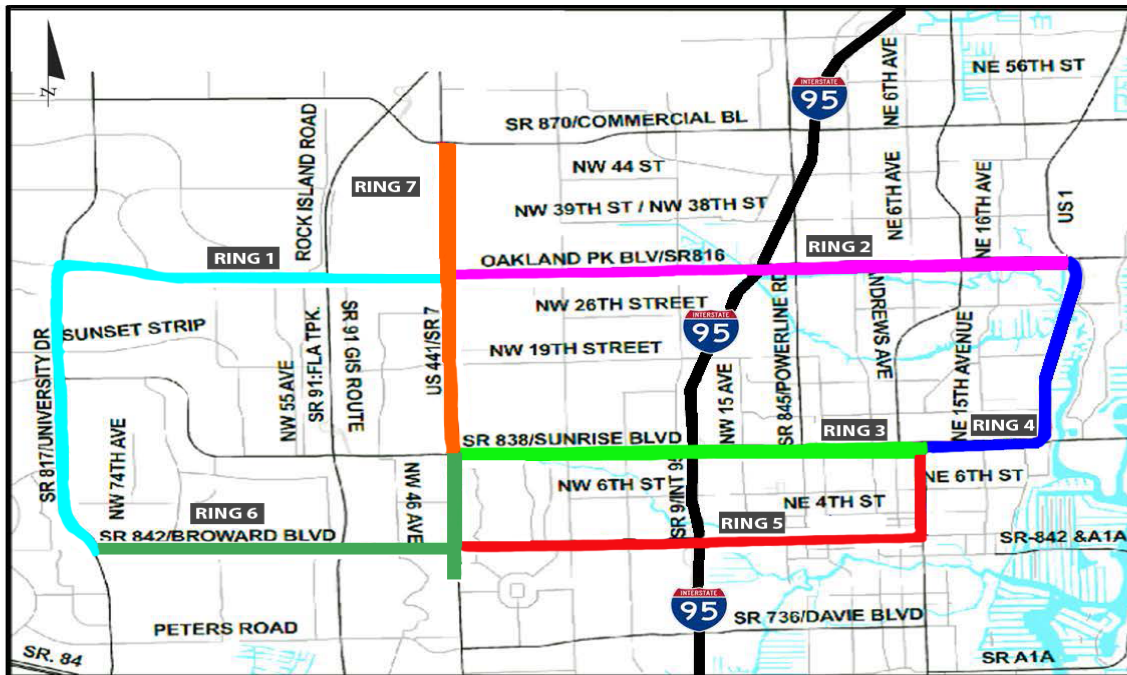

An open house will be held for the cities impacted by rings 2, 3, 4, 5, and 7.

Wednesday, June 27, 2012
6:00 p.m. to 8:00 p.m.

Jaco Pastorius Community Center
1098 NE 40 Court
Oakland Park, FL 33334

A second open house will be scheduled in the spring for rings 1 and 6.

BROWARD COUNTY ATMS NETWORK RING DESIGN

LEGEND:		RING 1	March 2013		RING 5	January 2013
		RING 2	July 2012		RING 6	March 2013
		RING 3	May 2013		RING 7	September 2012
		RING 4	November 2012			

CONSTRUCTION INFORMATION

Construction is scheduled to begin in July 2012 and last through summer 2013. Access to businesses will be maintained with minimal disruption throughout the project. The construction will not affect driveways. There will be no lane closures between 7:00 a.m. to 9:00 a.m. and 4:00 p.m. to 6:00 p.m., morning and afternoon rush hours, respectively.

Average Daily Number of Vehicles/Day
For Commercial Blvd at the Woodlands Country Club:

 **esri** Traffic Count Map

As can be seen, traffic entering the turnpike is presently averaging 74,500 vehicles/day.

An increase in the housing population at the Woodlands will, in all likelihood, increase this number, affecting State of Florida transportation in terms of the ability for people to enter and exit the turnpike

Dear Members of the Broward County Commission,

Further to my correspondence of October 2020, I remain opposed to the development of the two woodlands golf courses proposed by 13th floor homes. Mayor Geller asked the question what would we propose for the site. If homes are to be built on this property, they should not be zero lot line structures. Instead, larger homes with yards and a park should be considered. Before any homes are built, I suggest that all infrastructure issues must be addressed to include water, sewer systems, schools, electrical improvements, internet expansion and traffic issues. The proposal from 13th floor seems to be changing as they encounter unexpected problems. Ex. Last year we had 29 inches of additional rain in this area according to the meteorologists from channel ten,

Now 13th floor proposes to dig four lakes to accommodate the water. We need to consider the serious issue of climate change and sea level rise, which could produce hazardous flooding. Additionally, presently, unfortunately, we have no Congressman to represent us to secure needed infrastructure funding. This is a 50 year old neighborhood with many aging systems.

I recommend that the Commission table this proposal and send it back to the city of Tamarac for further work to include planning and public input. Thank you for your consideration reading my correspondence.

Respectfully Submitted,
Maryanne Masterson
