

FGMP AMENDMENT NO. 8C
TO
AGREEMENT FOR MANAGING GENERAL CONTRACTOR SERVICES
BROWARD COUNTY JUDICIAL PROJECTS RFP/RLI # PNC2119163P1

This FGMP AMENDMENT NO. 8C to Agreement for Managing General Contractor Services for Broward County Judicial Projects ("FGMP Amendment No. 8C") is made and entered into on this____ day of _____, 2025, by and between Broward County, Florida, a political subdivision of the State of Florida ("County"), and Stiles Pirtle Joint Venture ("Contractor").

RECITALS

- A. County and Contractor (collectively "Parties") entered into an Agreement for Managing General Contractor Services for Broward County Judicial Projects RFP/RLI #PNC2119163P1 on the 22nd day of September 2020 (the "Agreement"), wherein County engaged Contractor to provide managing general contractor services for certain County judicial projects identified in County's solicitation PNC2119163P1.
- B. In response to pandemic induced fluctuations in the availability and pricing of goods and materials and in subcontractor pricing, on September 22, 2021, the Parties entered into the First Amendment to the Agreement ("First Amendment") to increase the Owner's Allowance Account for certain Judicial Facilities projects.
- C. On October 11, 2022, the Parties entered in the Second Amendment to the Agreement ("Second Amendment") that established an Estimated Guaranteed Maximum Price for the South Regional Courthouse Replacement Project (the "SRCR Project") and an amount for the Owner's Allowance Account for the SRCR Project.
- D. On April 16, 2024, the Parties entered into the Third Amendment to the Agreement ("Third Amendment") adding Enabling Projects for the Five Hundred (500) Car Secure Parking Garage and Plaza ("Garage Enabling Projects") to the Projects covered by the Agreement and established an Estimated Guaranteed Maximum Price in the amount of Fourteen Million Seven Hundred Eight Thousand Nine Hundred Ten Dollars (\$14,708,910) for the Garage Enabling Projects. The Agreement, First Amendment, Second Amendment, Third Amendment, and each FGMP Amendment are collectively referred to as the "Current Agreement."
- E. On May 1, 2024, the Parties entered into FGMP Amendment No. 8A for commencement of the Garage Enabling Projects in the amount of Two Million Five Hundred Ten Thousand Four Hundred Thirteen Dollars (\$2,510,413) for the FGMP No. 8A Work.
- F. On July 9, 2024, the Parties entered into FGMP Amendment No. 8B for additional Work for the Garage Enabling Projects in the amount of Eight Million One Hundred Thirty Thousand Three Hundred Ninety Dollars (\$8,130,390) for the FGMP No. 8B Work.

- G. Contractor has submitted a FGMP to County for additional Work for the Garage Enabling Projects (“FGMP No. 8C”) as described in Attachment A attached hereto and made a part hereof (the “FGMP No. 8C Work”), which shall be treated as Project Work for all purposes under the Current Agreement.
 - H. The Parties desire to enter into this FGMP Amendment No. 8C to establish the FGMP for the full and complete performance of FGMP No. 8C Work, the Project Construction Schedule for the FGMP No. 8C Work, the amount of liquidated damages, and insurance requirements, and to allow for the issuance of a Notice to Proceed to allow for the performance and construction of the FGMP No. 8C Work.
 - I. FGMP Amendments No. 8A, No. 8B, and No. 8C collectively provide for the complete FGMP No. 8 Work and the total FGMP for the Garage Enabling Projects.
 - J. All capitalized terms herein shall have the same meaning as set forth in the Current Agreement.
 - K. NOW, THEREFORE, in consideration of the mutual promises, commitments and representations contained herein and in the Current Agreement, the Parties hereby agree to amend the Current Agreement as follows:
- I. **Amendments.**
 - 1. **FGMP No. 8C.** In accordance with Article 7 of the Current Agreement, the Parties agree to a final and total FGMP of Seventeen Million Five Hundred Ninety-Seven Thousand Seven Hundred Forty-Three Dollars (\$17,597,743) for the FGMP No. 8C Work further described in the Elements of FGMP No. 8C attached as Attachment A. All FGMP No. 8 Work is subject to the Special Conditions attached hereto and made a part hereof as Attachment B.
 - 2. **Substantial Completion Date.** For all FGMP No. 8C Work, Contractor must (i) achieve Substantial Completion within Five Hundred Thirty-Nine (539) calendar days from the FGMP No. 8C Initiation Date specified in the FGMP No. 8C Notice to Proceed, and (ii) achieve Final Completion of the FGMP No. 8C Work within sixty (60) calendar days from the date of Substantial Completion of the FGMP No. 8C Work. In the event Contractor is permitted to perform the FGMP No. 8C Work concurrently with a portion of the FGMP No. 8B Work, Contractor must (i) achieve Substantial Completion within Four Hundred Twenty Seven (427) calendar days from the FGMP No. 8C Initiation Date specified in the FGMP No. 8C Notice to Proceed, and (ii) achieve Final Completion of the FGMP No. 8C Work within sixty (60) calendar days from the date of Substantial Completion of the FGMP No. 8C Work. The final and total FGMP set forth in Section 1 above shall apply regardless of which date of Substantial Completion applies.

3. **Liquidated Damages.** Upon failure of Contractor to achieve Substantial Completion of the FGMP No. 8C Work within the applicable deadline stated in Section 2 above, as extended by any approved time extensions, Contractor shall pay to County the sum of One Thousand Five Hundred Dollars (\$1,500.00) for each day after the applicable deadline for Substantial Completion set forth in Section 2, as extended by any approved time extensions, until Substantial Completion is obtained. After Substantial Completion, should Contractor fail to complete the remaining FGMP No. 8C Work, as extended by approved time extensions thereof, Contractor shall pay to County the sum of Five Hundred Dollars (\$500.00) for each day after the deadline for Final Completion, as extended by any approved time extensions, until Final Completion is obtained. These amounts are not penalties but are liquidated damages to County for its inability to obtain full beneficial occupancy and/or use of the Garage Enabling Projects. Liquidated damages are hereby fixed and agreed upon between the Parties based on (1) a mutual recognition of the impossibility of precisely ascertaining the amount of damages that will be sustained by County as a consequence of Contractor's failure to timely obtain Substantial Completion or Final Completion, as applicable; and (2) both Parties' desire to obviate any question or dispute concerning the amount of said damages and the cost and effect of the failure of Contractor to complete the Work on time. These liquidated damages shall apply separately to each portion of the FGMP No. 8 Work for which a deadline for completion is given. County may deduct liquidated damages from monies due to Contractor for the Work under the Agreement and FGMP Amendment No. 8C, or may deduct as much thereof as County may, in its sole discretion, deem just and reasonable. Contractor shall reimburse County, in addition to liquidated damages, for all costs incurred by Consultant and OCPM in administering the construction of the FGMP No. 8C Work beyond the completion dates specified above, as extended by any approved time extensions. Consultant and OCPM construction administration costs shall be in the amounts set forth in the contracts between County and Consultant and between County and OCPM, copies of which are available upon request to the Contract Administrator. All such costs shall be deducted from the monies due Contractor for performance of Work under FGMP No. 8C, as authorized by FGMP Amendment No. 8C, by means of unilateral credit Change Orders issued by County as costs are incurred by Consultant and OCPM and agreed to by County.
4. **Project Schedule.** Attached hereto as part of Attachment A is the FGMP No. 8C Project Schedule that has been accepted by the Contract Administrator.
5. **Compensable Excusable Delay.** Indirect costs recoverable by Contractor shall be liquidated on a daily basis in the amount of Five Hundred Dollars (\$500.00) per day for each day the FGMP No. 8C Work is delayed due to a Compensable Excusable Delay. Contractor shall neither seek nor be entitled to receive any compensation for any indirect costs in excess of this liquidated daily amount.

6. **Insurance Requirements.** The insurance requirements for the FGMP No. 8C Work are set forth on Attachment C.
- II. **Special Exceptions.** This FGMP Amendment No. 8C addresses all aspects of the Contractor services and FGMP No. 8C Work except as otherwise set forth in the clarifications, qualifications, assumptions, and exclusions included in Attachment A to this FGMP Amendment No. 8C. In no event shall any clarification, qualification, assumption, or exclusion modify or supersede the Current Agreement or this FGMP Amendment No. 8C, and in the event of a conflict between the Current Agreement and any clarifications, qualifications, assumptions, or exclusions, the Current Agreement shall control.
- III. **Representations and Warranties.** Subject to Article 5 of the Current Agreement, Contractor expressly represents and warrants to County that: (i) it has reviewed the drawings and specifications listed in Attachment A to this FGMP Amendment No. 8C and that they are sufficient to construct the Garage Enabling Projects, (ii) all materials, furnishings, and equipment utilized or procured in connection with this FGMP Amendment No. 8C will be new unless otherwise specified, and (iii) that all the FGMP No. 8C Work, and any furniture, fixtures, and equipment furnished in connection with this FGMP Amendment No. 8C will be of good quality, free from faults and material defects, and in conformance with the Contract Documents. All Project Work not conforming to these requirements, including substitutions not approved by the Contract Administrator in accordance with the terms hereof, may be considered defective by the Contract Administrator and subject to correction in accordance with Section 24.1 of the Current Agreement. If required by the Contract Administrator, Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.
- IV. **Full and Final Satisfaction.** Except as specifically described above, below, or as otherwise allowed under the Current Agreement, Contractor accepts, as of the effective date hereof, the terms of this FGMP Amendment No. 8C as full and final satisfaction to all submitted claims, adjustments, and contract revisions associated with this FGMP Amendment No. 8C, and acknowledges, subject to the foregoing, that no further adjustment to the Contractor's compensation or time for performance shall be allowed in connection with this FGMP Amendment No. 8C.
- V. **Assumption of Risk.** Contractor assumes the risk of any Preconstruction Services Costs, Direct Construction Costs, and General Conditions Cost in excess of the FGMP No. 8C established by this FGMP Amendment No. 8C, as adjusted by County-Approved Change Orders, Construction Change Directives, or CPEAMs, to the extent such additional Garage Enabling Projects' costs should have been included in FGMP No. 8C.
- VI. Except as hereby modified, amended, or changed herein, all of the terms and conditions of the Current Agreement shall remain in full force and effect.
- VII. This FGMP Amendment No. 8C may be executed in multiple originals, and may be executed

in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same amendment.

- VIII. The Current Agreement, as amended herein, incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein, and the Parties agree that there are no commitments, agreements, or understandings concerning the subject matter hereof that are not contained in the Current Agreement and this FGMP Amendment No. 8C. Accordingly, the Parties agree that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.
- XIV. Preparation of this FGMP Amendment No. 8C has been a joint effort of the Parties and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the Parties than any other.
- XV. Attachments A, B, and C are incorporated in this FGMP Amendment No. 8C and made a part hereof. Any and all Recital clauses stated above are true and correct and are incorporated herein by reference.

Section 5 A-5 Element A-5 List of Allowances, Exclusions, and
Clarifications

ELEMENT A-5 LIST OF ALLOWANCES, EXCLUSIONS AND CLARIFICATIONS

BROWARD COUNTY JUDICIAL COMPLEX

Central and West Wing Demolition And East Wing West Wall Reconstruction

Revised
March 11, 2025

I. ITEMS INCLUDED IN FGMP WITH CLARIFICATION:

A. General:

1. The schedule included in Element A-3 is inclusive to the entirety of the project. The schedule is provided as a summary critical path schedule for the project and will be updated as the project progresses.
2. Plans and specifications listed in Element A-4 are inclusive to the entirety of the project.
3. General Conditions costs, including Site Payroll, will be billed on a reimbursable basis as part of the Reconciled FGMP, and are not a lump sum.

B. Total Project Clarifications

1. Construction duration from NTP to substantial completion is anticipated to be five hundred thirty nine (539) calendar days plus sixty (60) days from substantial to final completion from the later of:
 - a. Recorded Notice of Commencement (NOC).
 - b. Written Notice to Proceed (NTP).
 - c. All permits in place require to perform the work in an uninterrupted, critical path manner.
 - d. All insurances in place required of both the Owner and Contractor.
 - e. Fully executed, mutually agreed to Agreement between the County and Contractor.
2. The construction duration listed in item 1 above is based upon a project duration for this scope of work that does not allow for concurrent abatement and demolition activities in the building. This duration is also reflected in the construction schedule included in this package. As per 2/28/25 final negotiation meeting with County, project duration shall be adjusted to 427

ELEMENT A-5 FGMP LIST OF ALLOWANCES, EXCLUSIONS, AND CLARIFICATIONS

2/25/25

Calendar Days between NTP and Substantial Completion via change order, if County's environmental consultant and building department approves SPJV's plan of action for concurrent abatement and interior demolition activities. The acceptance of concurrent asbestos abatement and demolition by the County and/or its consultants must be confirmed no later than April 15, 2025; otherwise, the alternative project duration will require reconsideration and recalculation.

3. For purposes of staffing discussions/calculations, SPJV acknowledges that there may be staffing overlap between abatement (FGMP 8b) and interior demolition (FGMP 8c) activities if that concurrency is approved by Airquest, and that the associated concurrency is 4 months. We also identify that the project duration has a potential risk of 4 months of extended duration from the best case scenario if concurrency of that work is not allowed. The extended duration of four (4) months has been factored into the staffing plan in this package.
4. The concurrency of the Parking Garage Preconstruction efforts by the SPJV Field Operations team is acknowledged. The reduction of those overlapping hours is reflected in the staffing plan in this package.
5. All work to be done during regular working hours.
6. Contractor shall use an in-building office area within the Judicial Complex for use as a construction office during building construction as well as utilize existing water and power for the office space at no cost to the Contractor. We shall also utilize the existing ADA restroom in the space during construction.

C. Trade Specific Clarification:

1. All final site restoration of landscape, hardscape, milling and repaving of existing roads is excluded from this phase. Any temporary restoration necessary outside of the construction fence for safety or accessibility concerns are included. Any permanent repairs of these scopes will be included in the garage construction GMP.
2. The County shall consider paying for stored materials for the following 2 trades:
 - a. Metal Wall Panels
 - b. Curtain Wall Materials
3. Protection and repairs to the East Tower roof are included in accordance with the contract documents. SPJV excludes any responsibility for the condition or water tightness of the existing roof outside of the areas disturbed by construction/demolition activities. SPJV warrants the

ELEMENT A-5 FGMP LIST OF ALLOWANCES, EXCLUSIONS, AND CLARIFICATIONS

2/25/25

modifications to the roof affected by our work but does not offer any additional warranty on the existing roof.

4. Structural steel reinforcement of the wall opening at the knockout panel for future connection to the parking garage is included as an allowance of \$50,000 to enable the specialty engineer to review and design a solution prior to steel subcontractors providing a firm price.
5. Doors, frames, and hardware are included to match the new doors shown on the floor plans (8 doors) and not the door schedule. There are additional new doors shown on the floor plans.
6. Metal wall panels are included with a 10 year finish warranty and 2 year installer's warranty. Subcontractors were unable to provide a 5 year installer's warranty as specified and therefore is not included.
7. The curtain wall system is included with a 10 year finish warranty for Kynar and/or 5 year finish warranty for Anodized. The glass warranty is included as a 10 year warranty. The installer's warranty is included as a 2 year labor and material warranty. The subcontractor is unable to provide a 10 year special assembly warranty as specified and therefore is not included.
8. The curtain wall system is included with a 2 coat Kynar finish system. There is a conflict within the specification between the number of finish coats required and warranty period. A 2 coat system (specified in 08 44 18.2.8.B.1) corresponds to a 10 year warranty.
9. Due to the distance between the new curtain wall and the existing East Wing structure, the plans depict special attachments of the curtain wall system to the structure. Until the existing systems are demolished and the structure exposed, the existing structure cannot be fully assessed (i.e. strength of concrete, condition of structure, etc.) for these special attachments to be engineered and designed. It is assumed that 4,000 psi structurally stable concrete exists at each floor level. An Owner's Allowance is included for unforeseen conditions if something other than 4,000 psi structurally stable concrete, or other conditions that will require specialty engineering are found. This includes the assessment of existing conditions and modification to the support method. Usage of this allowance shall be subject to the review and verification by the engineer of record and threshold inspector.
10. Mock-ups of *exterior* finishes are included in the FGMP as an Owner's Allowance to provide a mock-up of finishes requested. We propose the installation of a mock-up that facilitates the interaction between all the elements of the overall curtain wall systems. The scale and scope

ELEMENT A-5 FGMP LIST OF ALLOWANCES, EXCLUSIONS, AND CLARIFICATIONS

2/25/25

of this mock-up should be reviewed in collaboration with the design team to ensure accurate pricing from all relevant subcontractors and will be applied to the mock-up allowance.

11. The curtainwall system is included with a Kynar finish to match the existing building.
 - a. NOTE: SPJV will endeavor to match the existing curtainwall/glazing system aluminum finish (clear anodized). However, due to time, weathering, damage, and other factors, SPJV cannot guarantee an exact finish.
12. Glazing is included per specification section 08 81 00 Glazing.
13. Construction Specialties louvers are provided by Crawford Tracey. Greenheck Louvers EVH-501D would be provided by Perspective Glass in the case where their substitution request is accepted. Both with full blank off panels in manufacturer's standard finishes and colors.
14. No fire sprinklers are shown in the renovated elevator shafts but we have included new fire sprinklers in these areas and in renovated areas as shown.
15. Cast iron roof drains with cast iron domes and cast iron floor drains with heel proof brass covers behind the curtain wall are included. No specification was provided for the floor drains. A full submittal will be provided during the submittal phase of the project.
16. HVAC demolition, new ductwork, and relocation of 1 thermostat is included as shown. No reprogramming or new BAS controls are included. Test and Balance as noted on the drawings is included.
17. Fire alarm demolition and new fire alarm devices by JCI are included in the FGMP.
18. An allowance to safe off MEPF systems in the West and Central Towers floor by floor if required by the Authority Having Jurisdiction (AHJ) to accommodate early demolition is included. These allowances shall be used in the event the Contract Administrator determines the scope of work is valid.
19. West Wall Concrete Sill Condition Change: In order to facilitate what will become the new Plaza grades, which is part of the Garage/Plaza project, the sill condition at grade will need to be revised to accommodate an anticipated grade differential. The Design JV will be issuing revised plans that address this issue. An Owner's Allowance item has been added to address this future revision. The allowances was developed based on +/- 200 LF of affected sill condition.

II. ITEMS NOT INCLUDED IN FGMP:

ELEMENT A-5 FGMP LIST OF ALLOWANCES, EXCLUSIONS, AND CLARIFICATIONS

2/25/25

1. General Building Permit fees at City of Fort Lauderdale are approximately 1.9% of the overall job costs (Paid directly by the County).
2. Builder's Risk Insurance shall be purchased and paid by the County and is not included in the GMP.
3. Construction materials testing (CMT) program, special/threshold inspectors.
4. Specification sections which are applicable to the new, West Courthouse Tower and/or not applicable to the East Wing/West Wall work.
5. Testing of glazing system mock-ups and/or in-place testing of the glazing systems. By Owner's consultant(s).
6. For the purposes of providing mock-ups, the following specifications are excluded:
 - 03 30 00 Selective Structure Demolition
 - 03 35 43 Bonded Abrasive Polished Concrete Floors
 - 08 44 16 Glazed Aluminum Curtain Wall – This relates to the West Courthouse Tower
 - 08 71 11 Door Hardware
 - 08 80 00 Glazing – This relates to the West Courthouse Tower
 - 09 51 00 Acoustical Ceilings
 - 09 65 00 Resilient Flooring
 - 09 96 00 High Performance Coatings
 - 23 07 13 Duct Insulation
 - 23 31 13 Metal Ducts

III. OWNER'S ALLOWANCES INCLUDED IN FGMP:

1. General Owner's Allowance: \$200,000
2. Miscellaneous Temporary Waterproofing and Protection: \$100,000
3. Construction of Mock-ups: \$100,000
4. Structural Frame at Knockout Panel: \$50,000
5. Curtainwall Structural Connections: \$150,000
6. *MEPF System Safe Off for Early Demo (if AHJ Requirement): \$25,000
7. *Logistical Requirements for Concurrent Abatement & Demolition: \$50,000
8. Future West Wall Sill/Curb Condition Revision \$210,000

* These allowances shall be used in the event the Contract Administrator determines the scope of work is valid.

IV. ALTERNATES TO THE FGMP:

ELEMENT A-5 FGMP LIST OF ALLOWANCES, EXCLUSIONS, AND CLARIFICATIONS

2/25/25

1. **Eliminate Additional Glazing on South Elevation (Crawford Tracey):** Crawford Tracey has included additional glazing replacement at the South elevation in order for them to provide the warranties they proposed. Should further investigation bear out that the additional glazing replacement on the South elevation, and Crawford Tracey is comfortable warranting their work (according to their proposed warranties) without the additional glazing replacement, eliminate the additional glazing replacement on the South elevation. **DEDUCT <\$270,280>**
2. **Perspective Glass Glazing System in lieu of Crawford Tracey:** Provide the glazing system as proposed by Perspective Glass and as submitted in the Substitution Request in lieu of the Crawford Tracey glazing system. The louvers provided by Perspective Glass would be by Greenheck in lieu of Construction Specialties. **DEDUCT <\$1,898,913>**

V. COST SAVING SUGGESTIONS FOR CONSIDERATION:

All cost saving suggestions listed below are intended to help the Owner meet project goals. All amounts shown are approximate and shall be treated as an allowance until such time as they are accepted by the Owner and incorporated into the drawings and revised plans. All suggestions are to be evaluated and approved by the design professionals from a design, structural and quality standpoint prior to incorporation into project. The cost savings values are subject to change pending Subcontractor selections, timeliness of selections, final design implementation and coordination, and any cost escalations.

A cost saving alternative for an alternate curtainwall system has been submitted for review by the design team.

Section 6 Element A-6 Summary of FGMP Work

Complete demolition of the Central and West Wings including disconnection of all utilities and protection of adjacent structures. Reconstruction of the West Wall of the East Tower includes concrete and masonry work for the construction of a new lobby and infills to the existing elevator shaft walls, new curtain wall system, metal wall panel and stucco exterior wall finishes, and minor mechanical, plumbing, and electrical work.
