Group 21 - Per Special Instructions, awards will be made to all responsive and responsible bidders who are awarded any of the preceding groups (1 thru 19). Percentage difference was not compared to pervious contract as it is percent off list price.

Pricing for previous contract were based on bid amounts December 2021, and did not include a price escalation clause. Since 2021, price increases are attributable to inflation, increased labor and fuel costs, supply chain disruptions, material shortages, tariff increases, and higher equipment and maintenance expenses; all have contributed to rising market costs.

The Producer Price Index (PPI) for Pump and Compressor Manufacturing has increased 34.1% since December 2021.
