

Our Canadians, the majority of residents with
20 to 30 years of residency
at Lake Trinity Estates / Lakeside Park Estates
crushed without being addressed..

Only offered \$200 for even the
most expensive of homes. They were
given a virtual two week notice and, after
paying rent continually during the pandemic
years as well; without, being able to be
here!

Many invested thousands of dollar
into their residential property in 2022
just prior to receiving the info regarding
the park closing. (March 19, 2022)

Serious case of elder abuse
bases on time restraints and gross
devaluation of their homes.
