Broward County, Florida

Notes to Statement of County Funded Court-Related Functions, Section 29.0085, Florida Statutes

Note 1. Reporting Entity

Broward County, Florida, (the County) is a political subdivision of the State of Florida. It is governed by an elected Board of County Commissioners.

The Broward County, Florida, Statement of County Funded Court-Related Functions, Section 29.0085, *Florida Statutes* (the Statement), is prepared and submitted to the State of Florida's Chief Financial Officer in accordance with Sections 29.008 and 29.0085, *Florida Statutes* (the Statutes). The Statement includes the revenues and expenditures as required in the Statutes and does not purport to, and does not, present fairly the changes in financial position of the County for the year ended September 30, 2021, in conformity with accounting principles generally accepted in the United States of America.

Note 2. Basis of Presentation and Significant Accounting Policies

Section 29.008, *Florida Statutes*, County Funding of Court-Related Functions, requires the County to fund the cost of communication services, existing radio systems, existing multi-agency criminal justice information systems and the cost of construction or lease, maintenance, utilities and security of facilities and offices for the circuit and county courts, public defenders' offices, state attorneys' offices, guardian ad litem offices and the offices of the clerks of the circuit and county courts performing court-related functions.

The accompanying Statement is presented using the modified accrual basis of accounting as defined for governmental funds under governmental accounting standards. Under the modified accrual basis, revenues are recognized when they become both measurable and available for use during the year. For this purpose, revenue is considered to be available if they are collected within 60 days of the end of the fiscal year. Expenditures generally are recorded when a liability is incurred, however debt service expenditures, as well as expenditures related to compensated absence, claims and judgment, pension and other post-employment benefits, are recorded only when the liability matures.

The presentation of the Statement is based on instructions provided by the Florida Department of Financial Services. These instructions specify that the Statement include the County's total revenues and expenditures on County funded court-related functions, provided by each of the categories listed.

Note 3. Related-Party Transactions

The County provides certain administrative and maintenance service, information technology support and facility space to the court system. Charges for these services are determined using direct and indirect cost allocation methods. Charges for administrative and maintenance service, information technology support and facility space to the court system by the County, which are included in the accompanying Statement, amounted to approximately \$50,000,000 for the year ended September 30, 2021.
