Re: Nat Jack Plat No. 016-MP-19

Per your request, FPL has no objection to the proposed plat report for : Nat Jack Plat No. 016-MP-19 with these stipulations.

It appears FPL does have several locations with existing facilities that serve or are adjacent to the existing site.

Should any FPL facilities need to be removed or relocated, then the applicant will pay for the total costs of any relocation or replacement of those FPL facilities as deemed necessary by FPL or requested by the applicant. Additionally, the applicant will pay for any costs associated with any relocation of FPL facilities due to requests to relocate any overhead facilities to underground, new turn lanes, de-acceleration lanes, road right-of-way vacations etc.

FPL will require a complete set of plans prior to construction. These would include site, civil, landscape, and electrical. As the FPL engineering, design, and construction process encompasses about a six to eight month schedule it is imperative that complete plans be provided well in advance of construction.

For the new construction project planned for this site the customer will need to provide any additional easement requirements needed by FPL. These easements will be provided by instrument and will be provided prior to construction or installation of FPL facilities.

If I can be of assistance feel free to contact me at 954-956-2022 my fax is 954-956-2020.

Sincerely,

Nicholas Panzo
