

June 6, 2018

The National Joint Powers Alliance (NJPA) will formally be known as Sourcewell beginning June 6, 2018.

The NJPA Board of Directors on May 15, 2018 voted to approve changing the organization's name to Sourcewell. Documentation has been formally submitted for Sourcewell to be registered and trademarked, both federally and in Minnesota, with the appropriate agencies.

Sourcewell has worked intentionally to mitigate the implications of this change to current and potential members, currently awarded vendors, and other existing partners. After June 6th, 2018, Sourcewell will maintain and continue to recognize the National Joint Powers Alliance name. Membership agreements, contracts, and agreements entered into with the National Joint Powers Alliance will remain valid and continue in effect without impact. This will ensure contractual continuity and safeguard any disruptions to engagement with Sourcewell. This includes membership, use of cooperative purchasing contracts, or other contractual engagements.

Sincerely,

A handwritten signature in blue ink, appearing to be "M. Miller", written over the word "Sincerely,".

3.26 Contract Term: At NJPA's option, a Contract resulting from this RFP will become effective either on the date awarded by the NJPA Board of Directors or on the day following the expiration date of an existing NJPA procurement contract for the same or similar product/equipment and services.

3.26.1 NJPA is seeking a Contract base term of four years as allowed by Minnesota Contracting Law. Full term is expected. However, one additional one-year renewal/extension may be offered by NJPA to Vendor beyond the original four year term if NJPA deems such action to be in the best interests of NJPA and its Members. NJPA reserves the right to conduct periodic business reviews throughout the term of the contract.

3.27 Minimum Contract Value: NJPA anticipates considerable activity resulting from this RFP and subsequent award; however, no commitment of any kind is made concerning actual quantities to be acquired. NJPA does not guarantee usage. Usage will depend on the actual needs of the NJPA Members and the value of the awarded contract.

3.28 [This section is intentionally blank.]

3.29 Contract Availability: This Contract must be available to all current and potential NJPA Members who choose to utilize this NJPA Contract to include all governmental and public agencies, public and private primary and secondary education agencies, and all non-profit organizations nationally.

3.30 Proposer's Commitment Period: In order to allow NJPA the opportunity to evaluate each proposal thoroughly, NJPA requires any response to this solicitation be valid and irrevocable for ninety (90) days after the date proposals are opened.

F. EXPECTATIONS FOR EQUIPMENT/PRODUCTS AND SERVICES BEING PROPOSED

3.31 Industry Standards: Except as contained herein, the specifications or solutions for this RFP shall be those accepted guidelines set forth by the GROUNDS MAINTENANCE EQUIPMENT, ATTACHMENTS, ACCESSORIES, AND RELATED SERVICES industry, as they are generally understood and accepted within that industry across the nation. Submitted products/equipment, related services and accessories, and their warranties and assurances are required to meet and/or exceed all current, traditional and anticipated standards, needs, expectations, and requirements of NJPA and its Members.

3.31.1 Deviations from industry standards must be identified by the Proposer and explained how, in their opinion, the equipment/products and services they propose will render equivalent functionality, coverage, performance, and/or related services. Failure to detail all such deviations may comprise sufficient grounds for rejection of the entire proposal.

3.31.2 Technical Descriptions/Specifications. Excessive technical descriptions and specifications that unduly enlarge the proposal response may cause NJPA to reduce the evaluation points awarded on Form G. Proposers must supply sufficient information to:

3.31.2.1 demonstrate the Proposer's knowledge of industry standards and Member agency needs and expectations;

3.31.2.2 identify the equipment/products and services being proposed as applicable to the needs and expectations of NJPA Member agencies; and

3.31.2.3 differentiate equipment/products and services from other industry manufacturers and providers.

3.32 New Current Model Equipment/Products: Proposals submitted shall be for new, current model equipment/products and services with the exception of certain close-out products allowed to be offered on the Proposer's "Hot List" described herein.
