

July 29, 2021

Mr. Sandy-Michael McDonald
Director
Broward County Office of Economic and Small Business Development
115 South Andrews Avenue, Room A-680
Fort Lauderdale, FL 33301

Dear Sandy,

Please find below the Alliance's fiscal year 2021 third quarter report to Broward County. During the past few months, since the onset of the COVID-19 crisis, the Alliance has remained committed to our top priority, which is growing and diversifying our economy through an emphasis on high-value, high wage jobs. However, at the same time, we have continued to focus on providing business assistance and information to help companies and residents of Broward navigate through the social and economic effects of the pandemic. Below is a recap of results and actions in the third quarter:

1. We were pleased to finalize the following company projects and continue to work with 28 companies that are in the project pipeline. Examples of completed projects were:

Amazon will be creating 200 jobs and making a \$32 million capital investment in Tamarac, for a last-mile facility for Amazon product deliveries.

DNA Labs International, a company providing forensic DNA analysis, will be creating 40 jobs and making a \$200,000 capital investment at a 50,000-square-foot facility in Deerfield Beach.

Sincerus Pharmaceuticals, an FDA-Registered 503B outsourcing facility providing leading dermatologists with custom medicines, will be creating 50 jobs, retaining 56 jobs and making a \$1 million capital investment in Pompano Beach and Fort Lauderdale.

2. As always, a primary focus of the Alliance is assisting local companies through our BRAVO (Business Retention and Visitation Outreach) program. 29 Broward County companies were visited by the Alliance during the third quarter, as we assisted in areas such as access to capital, workforce training opportunities, permitting and site location.
3. The Alliance continued to provide assistance and information regarding local business preservation and recovery during the COVID-19 crisis. This was done through the Alliance website, including the use of BizHelpBroward.com, social media and other means of electronic communications. Examples of information included a calendar of webinars and calls covering various topics including business loan programs; local, state and federal executive orders; health information for companies' employees and customers; safety net information for employees who were laid off or furloughed; information about ways to serve customers during a time of social distancing; how to communicate with employees virtually, and other trusted sources of information.
4. The Alliance continued its FY21 economic development marketing campaign targeting C-Level executives and company location decision makers through print, digital, search engine and B2B digital in publications such as *Area Development*, *Business Facilities*, *Chief Executive*, *Aviation Week*, *JetTrader*, *Fierce BioTech*, *Fierce Pharma*, *CIO*, and *CSO*. In this campaign, direct emails are also sent to C-Level executives in aviation, financial services, life sciences, technology and headquarters industries and paid social media is utilized through Facebook

ALLIANCE: PARTNERSHIP FOR ECONOMIC GROWTH

Broward County's Official Economic Development Partnership

110 E. Broward Boulevard, Suite 1990, Fort Lauderdale, FL 33301 • Phone: 954/524-3113, 800/41-1420 • Fax: 954/524-3167

www.gflalliance.org

and Google paid search. From October to April, the campaign has generated 12.4 million impressions resulting in 583,082 video views and 192,803 clicks to the Alliance website.

In addition to the company outreach campaign, new advertising and outreach campaigns have been developed and launched to attract talent to Greater Fort Lauderdale/ Broward County. These include the CEO Council's talent attraction campaign - Live Where you Vacation, a new talent recruiting guide called "Welcome Home" which is in print and digital formats, a partnership with Livability Media to promote our area as a top location for talent, and an out-of-state advertising campaign featuring the TechGateway initiative.

5. The Alliance's Port Everglades Action Team, a partnership with Broward County and numerous community organizations, continued its work to support Port Everglades expansion projects.
6. The Alliance continued work to implement Version 2.0 of Six Pillars Broward, which has been rebranded and relaunched as *The Prosperity Partnership*, with a focus on the following community priorities: Target Industry Growth, Education, Talent Attraction & Retention, Community Branding, Social Justice & Racial Equity, Economic Mobility, Entrepreneurship, Transportation, Resiliency, Affordable Housing, and Homelessness. Additionally, The Prosperity Partnership's Economic Mobility initiative (Prosperity Broward) continues to convene community stakeholders to expand economic mobility in the six Broward County zip codes with the highest unemployment and poverty levels. A launch event was held for The Prosperity Partnership during the quarter.
7. The Alliance continued to hold its virtual Leadership Speaker Series featuring local and national C-level executives who share life, business and leadership lessons. The sessions can be viewed on the Alliance website and YouTube channel and the content will be shared through a forthcoming podcast.

Throughout the third quarter, the Alliance continued its work to strengthen and diversify our economy as well as helping businesses to navigate through a time of tremendous economic challenge. Our goal remains to create jobs for the residents of Broward County and build the county's tax base, working with Broward County and our other partners.

With warm personal regards, I remain

Sincerely,

Bob Swindell
President and CEO

FY 2021 Market Measures

Administrative Objectives

- A.** Continue to promote and support the Port Everglades Master Plan through the Port Everglades Action Team. PEAT has successfully partnered with Port administration and the County to advocate for federal and state funds for capital projects such as the ICTF, Turning Notch and the Widening and Deepening of the Port channel.

With the long-sought-after goal of authorization by the Army Corps of Engineers for the widening and deepening of Port Everglades, the first step of which we received in 1Q/17, we were focused on the second authorization phase to get approval and selection into the ACOE “New Start” budget. At our January 2020 PEAT meeting, we developed a plan to blanket elected officials and Congressional decision-makers. In February 2020, the Port was notified that after more than 20 years, Port Everglades was successful in being designated as a new start in the ACOE Budget and the first phase of actual construction – relocating the Coast Guard Station – was approved. In addition, they were awarded \$29 million towards the approximately \$39 million project. In 4Q20 we sent letters to MARAD within the U.S. Department of Transportation supporting the “Marine Highway” designation for Port Everglades and the Port of Houston. This will allow the Ports to apply for federal funding which can be used to modernize vessels, purchase, lease or modify equipment and enhance infrastructure at Terminals. We were pleased when Port Everglades was granted / awarded this designation just this month, January of 2021.

In 2Q21, three new low-rise Post Panamax cranes were delivered and installed at Port Everglades, a ceremony in which several of our PEAT members were in attendance. In April, we asked our members to submit letters of support to the ACOE as they hear comments regarding the updated environmental surveys which will allow us to proceed with the relocation of the US Coast Guard Station, Phase One of the overall Widening and Deepening Project. Then in June, we asked our members to send letters of support to the U.S. Sec. of Transportation as part of a grant proposal for the Port’s Berth and Modernization project. Our goal is to continue to show the huge importance this Port has to the success of Broward County, South Florida, the United States and especially all of our local businesses.

- B.** Research, write and develop the final report for the Alliance bi-annual Leadership Trip to Charlotte, N.C., a competitive region for our business leaders with which to review best practices. This report will allow the team to identify and develop benchmarks for improvement to enhance Broward’s business climate. In 2016 and 2018, business and elected leaders traveled to Austin, TX, and Nashville, TN, respectively. The team will begin the process of planning for a 2022 trip to a region to be determined.

In 2019, a group of Alliance community leaders voted to select Charlotte, NC as our next Leadership Trip location. On March 1, 2020, close to 90 business leaders, municipal staffers, non-profits and elected officials traveled to Charlotte and spent the next four days meeting with leaders from all six of our chosen study teams (Business Best Practices, Quality of Life, Education/Workforce/Talent, Transportation, Housing and Healthcare/Life Sciences).

The goal was to study the Charlotte / Mecklenburg County metropolitan area and compare it to Greater Fort Lauderdale / Broward County.

FY 2021 Market Measures

In Q3 2020, we created a “Thank you City of Charlotte / Mecklenburg County” ad which ran in their local business journal as a way of showing our gratitude for putting out the welcome mat and sharing best practices. We also met virtually with the chairs to discuss the trip. At our Annual Luncheon – virtual for the first time – an update on lessons learned and overall observations was included in our Annual Program Book. We will be looking for additional opportunities to share overall impressions.

In 3Q21, we will begin the process to select a new city to visit for 2022 and will hold our first planning meeting in 4Q21.

- C.** Continue to implement Version 2.0 of Six Pillars Broward (which has been rebranded to *The Prosperity Partnership*) with a focus on the following community priorities: Target Industry Growth, Education, Talent Attraction & Retention, Community Branding, Social Justice & Racial Equity, Economic Mobility, Entrepreneurship, Transportation, Resiliency, Affordable Housing and Homelessness.

THE PROSPERITY PARTNERSHIP

Six Pillars Version 2.0, now called *The Prosperity Partnership* is continuing to shape up to be a powerful and effective collective impact initiative.

- Thirty-Eight Co-Chairs have been recruited.
- Orientation meetings have been completed.
- Draft goals have been established.
- A new website is being built.
- Rebranding is in process.
- Education has been added as an eleventh pillar.
- The Prosperity Partnership Community Launch event was held April 14.

The Prosperity Pillars are as follow:

- Target Industry Growth
- Education
- Talent Attraction & Retention
- Community Branding
- Social Justice & Racial Equity
- Economic Mobility
- Entrepreneurship
- Transportation
- Resiliency
- Affordable Housing
- Homelessness

PROSPERITY BROWARD

The Prosperity Partnership’s Economic Mobility initiative (Prosperity Broward) continues to convene community stakeholders to expand economic mobility in the six Broward County zip codes with the highest unemployment and poverty levels.

FY 2021 Market Measures

- Prosperity Broward partnered with Commissioner Dunn from the City of Lauderhill on a “Return to Work” event from May 9-14. This initiative helped connect residents to job training, employers, and support services. It will feature several events, including job resume workshops, an education fair, a job fair, and a town hall event with elected officials from the 12 Prosperity Broward municipalities.
- Prosperity Broward worked with CareerSource Broward and Fassmer America on the launch of an on-the-job training program for residents from the surrounding Prosperity Broward zip codes. Fassmer produces lifeboats, rescue boats, and other deck equipment.

Business Intelligence Administrative Objectives

- A.** Develop and maintain a new template marketing presentation that clearly and factually states the business case for establishing or growing specific target industry niches of strength and opportunity for Broward County (i.e., Aviation Maintenance, Repair and Overhaul; Pharmaceutical Manufacturing; IT Software Design).

The template marketing presentation has been developed and the presentations for the target industry niche segments are updated on a continual basis.

- B.** Complete a database highlighting Broward County’s competencies (leading employers, average salary by selected occupation, education data, etc.) to attract target industry niche sectors and post online for access by Alliance partners and prospects.

The database was developed and posted online. It is updated on a continual basis.

- C.** Report on target industries niche subsets in its prospects and leads reports to develop a baseline and subsequent measurements indicating success in growing the niche markets.

Of the total 39 prospects and leads in the 3rd quarter, 7 were in the target niche industries of Aviation Maintenance, Repair and Overhaul; International and Regional Headquarters; Pharmaceutical Manufacturing; Medical Equipment/Device Development and Manufacturing; Custom Computer Programming; and Software Publishers. Develop and utilize an expanded internship program with area universities for undergraduates and MBA candidates to assist with research projects designed to help grow jobs in Broward County.

This program has been created and the Alliance is utilizing interns to assist with research projects.

- D.** Prepare ongoing annual and updated data that will be used in the Six Pillars (*rebranded to The Prosperity Partnership*) strategic planning process to grow high paying jobs in Broward County and engage community leaders in enhancing Broward County’s business and economic climate.

Updated data is prepared on an ongoing basis.

Key Broward County Economic Indicators

Following are key Broward County economic statistics
that are indicators of Broward's overall economic health and trends
(2021 numbers are as of June 2021)

Years	Number Employed	Number in Labor Force	Number Unemployed	Unemployment Rate
2013	973,289	1,026,442	53,153	5.2%
2014	1,017,456	1,065,335	47,879	4.5%
2015	956,378	999,633	43,255	4.3%
2016	980,719	1,025,431	44,712	4.4%
2017	991,883	1,026,696	34,813	3.4%
2018	1,011,564	1,041,177	29,613	2.8%
2019	1,023,100	1,049,805	26,705	2.5%
2020	941,123	1,007,605	66,482	6.6%
2021	995,012	1,055,676	60,664	5.7%
