SECTION I
AMENDMENT REPORT
BROWARD COUNTY LAND USE PLAN
PROPOSED AMENDMENT PC 21-10
(POMPANO BEACH)

RECOMMENDATIONS/ACTIONS

DATE

I. Planning Council Staff Recommendation

August 17, 2021

Planning Council staff finds the proposed amendment is corrective in nature and generally consistent with the policies of the BrowardNext – Broward County Land Use Plan. Therefore, it is recommended that the proposed amendment be approved.

If adopted, this ordinance shall not preclude the reconstruction of the existing 198 dwelling units, subject to the City of Pompano Beach’s effective land development code and regulations.

Effectiveness of the approval of the land use plan amendment shall not occur until the municipal recertification of the local amendment is complete.

As the Planning Council is aware, the Broward County Charter requires at least one Planning Council public hearing and Article 1.2(A) of the *Administrative Rules Document: BrowardNext* outlines the following circumstances in which a second Planning Council public hearing may be recommended or required:

- (1) At its initial public hearing, the Planning Council takes an action to recommend denial of a proposed amendment; or
- (2) At its initial public hearing, the Planning Council takes an action to recommend approval subject to meeting specific criteria or policy prior to a second Planning Council public hearing; or
- (3) At its initial public hearing, the Planning Council votes by a majority of the members present with a minimum of six (6) affirmative votes for a second Planning Council public hearing; or
- (4) If the County Commission requests by a vote of the majority of members present to request a second Planning Council public hearing; or
- (5) If an objection or comment on adverse impacts to important state resources or facilities is issued during the State of Florida Chapter 163 review process; or
- (6) If State of Florida Chapter 163 requires or is modified to require a second local planning agency public hearing.

If the Planning Council chooses to require a second Planning Council public hearing per Article 1.2(A)(1)(2) or (3), such recommendation must be made as part of its motion.

RECOMMENDATIONS/ACTIONS (continued)

DATE

I. Planning Council Staff Recommendation (continued)

August 17, 2021

In addition, if the Planning Council does not require a second Planning Council public hearing and the Broward County Land Use Plan amendment is adopted by the County Commission, this action by the Planning Council shall be considered the “conditional” recertification of the municipal land use plan amendment, which directly correlates to the referenced BCLUP amendment. The recertification will not be deemed effective until such time as the Planning Council Executive Director and Attorney determine that the municipality has fulfilled all application requirements for recertification of local land use plans, as outlined in the *Administrative Rules Document: BrowardNext*. The Planning Council Executive Director will issue a written letter of effectiveness to the municipality upon satisfaction of the same.

II. Planning Council Public Hearing Recommendation

August 26, 2021

Approval per Planning Council staff recommendation, including not requiring a second Planning Council public hearing. (Vote of the board; 13-3; Yes: Breslau, Brunson, Castillo, Fernandez, Gomez, Good, Hardin, Maxey, Parness, Romaner, Rosenof, Williams and DiGiorgio. No: Blackwelder, Grosso and Rich.)

PROPOSED AMENDMENT PC 21-10

INTRODUCTION AND APPLICANT'S RATIONALE (continued)

V. Existing Uses and BCLUP Designations Adjacent to the Amendment Site

- | | | |
|----|-----------------------|---|
| A. | <i>Existing Uses:</i> | <i>North:</i> Multi-family residential
<i>East:</i> Atlantic Ocean
<i>South:</i> Vacant
<i>West:</i> Multi-family residential and hotel |
| B. | <i>Planned Uses:</i> | <i>North:</i> Medium-High (25) Residential
<i>East:</i> Water (Atlantic Ocean)
<i>South:</i> Irregular (46) Residential
<i>West:</i> Irregular (46) Residential and Commerce |

VI. Applicant/Petitioner

- | | | |
|----|-------------------------|---|
| A. | <i>Applicant/Agent:</i> | City of Pompano Beach |
| B. | <i>Property Owner:</i> | There are multiple property owners within the subject area. |

VII. Recommendation of Local Governing Body:

The City of Pompano Beach recommends approval of the proposed amendment.

VIII. Applicant's Rationale

The applicant states: "The City of Pompano Beach is using the small-scale amendment process to correct the underlying land use for these two condominiums built in 1972-73 in an underlying commercial land use category. Hillsboro Light Towers is located at 2639 North Riverside Drive and The Claridge Condominium is located at 1340 South Ocean Boulevard. Neither the City nor County have been able to identify how these residential buildings were built in the commercial land use category which has been these properties' designation for as far back as the records are available (1977). Since this incorrect land use designation is causing problems for the property owners when transferring and insuring their condo units, the City is moving forward to correct the erroneous land use designation on both the City and County Land Use Plans.

The Claridge Condominium has 198 units on approximately 3.2 gross acres for a gross density of 62 du/acre and Hillsboro Light Towers has 72 units on approximately 1.1 gross acres for a gross density of 71 du/acre. The City intends to propose a fixed number of units in a dashed line to allow only the number of units that exist to be entitled via the corrected residential land use designation."

SECTION III
AMENDMENT REPORT
PROPOSED AMENDMENT PC 21-10

REVIEW OF PUBLIC FACILITIES AND SERVICES

I. Potable Water/Sanitary Sewer/Solid Waste/Drainage/Parks & Open Space

Adequate potable water facility capacity and supply, sanitary sewer facility capacity, drainage and solid waste services, and park and open space acreage will be available to serve the proposed land use. See Attachment 1.

Regarding the long-range planning horizon for potable water supply, it is noted that the City of Pompano Beach adopted its 10-year Water Supply Facilities Work Plan on October 27, 2020.

II. Transportation & Mobility

The proposed amendment is projected to **decrease** the number of p.m. peak hour vehicle trips on the regional transportation network at the long-term planning horizon by approximately 177 p.m. peak hour trips. See Attachment 2.A.

Planning Council staff prepared an alternative traffic analysis, as this is a corrective amendment to reflect the existing 198 dwelling units. Therefore, the proposed amendment will have **no net impact** on the operating conditions of the regional transportation network. See Attachment 2.B.

The Broward County Transit Division (BCT) report states that current and planned transit fixed-route county service, as well as community shuttle service, is provided within a quarter mile of the proposed amendment site. In addition, the BCT Mobility Advancement Program (MAP) identifies planned transit improvements to the county routes serving the amendment site, including shorter headways, increased span of service and route realignment. Further, the BCT staff recommends that any proposed development be designed to provide safe movement for pedestrians and bicycles, including transit connectivity to the existing sidewalk/bicycle network and bus stops. See Attachment 3.

III. Public Schools

The School Board of Broward County staff report states that the proposed amendment does not add any new dwelling units to the BCLUP, and therefore, will not generate any additional students for Broward County Public Schools. See Attachment 4.

SECTION IV
AMENDMENT REPORT
PROPOSED AMENDMENT PC 21-10

REVIEW OF NATURAL RESOURCES

I. Designated Protected/Regulated Areas

The Broward County Environmental Protection and Growth Management Department (EPGMD) report indicates that the proposed amendment site does not contain Natural Resource Areas, Local Areas of Particular Concern, Urban Wilderness Inventory sites, or Protected Natural Lands within its boundaries. See Attachment 5.

II. Wetlands

The EPGMD report indicates that the proposed amendment site does not contain wetlands within its boundaries. Therefore, the proposed amendment is not expected to have a negative impact on wetland resources. The EPGMD report also identifies that surface disturbing activities may require an Environmental Resource License. See Attachment 5.

III. Sea Level Rise

The EPGMD report indicates that the proposed amendment site does not contain, fall within, or overlap with an area for planning consideration, as indicated on the Priority Planning Areas for Sea Level Rise Map. The report notes that the property is on the Atlantic Coast and may have additional hazards associated with storm waves and storm surge during a storm. See Attachment 5. As previously indicated, the amendment is corrective in nature to reflect the existing residential development as constructed prior to the adoption the 1977 Broward County Land Use Plan (BCLUP).

IV. Other Natural Resources

The EPGMD report indicates that the subject site contains mature tree canopy. Development of the site must comply with the Tree Preservation Regulations of the City of Pompano Beach. The applicant is required to minimize the number of trees to be removed by incorporating suitable existing trees in the site plan design. If trees cannot be incorporated into the site plan in their current location, the applicant is required to relocate suitable trees. Any trees permitted for removal must be replaced. If the above requirements are adhered to, the proposed land use plan amendment is not expected to have a negative impact on upland resources. The EPGMD report also notes that invasive exotic vegetation is encouraged to be removed during the development process and a management plan may be necessary to control reinvasion of same, nor should landscape material include any plants considered to be invasive. It is further noted that development

REVIEW OF NATURAL RESOURCES (continued)

V. Other Natural Resources (continued)

of the proposed amendment site should be coordinated with the NatureScape Broward Program for guidance in development of any related landscaping plans. See Attachment 5.

VI. Historical/Cultural Resources

The Broward County Planning and Development Management Division (PDMD) report states that the proposed amendment will not have an adverse effect on any known historical or archaeological resources or areas of archaeological or paleontological sensitivity. See Attachment 6.

VII. Emergency Management

The Broward County Emergency Management Division (EMD) staff report indicates that the proposed amendment is located within a Broward County Hurricane Evacuation Zone for a Category 1 or higher storm. In addition, the report indicates that since the amendment is corrective in nature without adding additional residential units, it is not anticipated that the amendment would significantly diminish the level of service for the designated hurricane evacuation routes nor the shelter capacity at this time. Further, the EMD strongly recommend that a suitable hurricane evacuation and reentry plan for the possible guests, and tenants of this property be developed. See Attachment 7.A. The City of Pompano Beach has stated that the condominium association develops and maintains its own hurricane evacuation plan for the private property. In addition, the City follows all County policies and procedures regarding hurricane evacuation and reentry. See Attachment 7.B.

SECTION V
AMENDMENT REPORT
PROPOSED AMENDMENT PC 21-10

OTHER PLANNING CONSIDERATIONS/INFORMATION

I. Affordable Housing

The land use plan amendment is not subject to Broward County Land Use Plan (BCLUP) Policy 2.16.2, as it does not propose any additional residential units to the BCLUP. The dwelling units proposed under the corrective residential designation have been in existence since circa 1972. See Attachment 6.

II. BrowardNext - Broward County Land Use Plan Policies

The proposed amendment is corrective in nature and found to be generally consistent with the policies of the BrowardNext - Broward County Land Use Plan.

III. Other Pertinent Information

This is a small scale amendment pursuant to Chapter 163.3187, Florida Statutes. Therefore, the amendment review process includes up to two (2) Planning Council public hearings and only one (1) subsequent County Commission adoption hearing. The small scale amendment is not subject to Florida Department of Economic Opportunity (DEO) review; therefore, no report will be issued by the DEO, or other State review agencies.

The City of Pompano Beach is proposing an amendment from the Commerce land use designation to High (50) Residential land use designation to reflect an existing multi-family residential development constructed in 1972. The City has indicated that the condominium owners are having issues selling, refinancing and insuring their property due to the incorrect land use designation. There are currently 198 dwelling units existing on 3.2 gross acres of land for a density of 61.9 dwelling units per acre. The current Commerce designation does not allow residential development. High (50) Residential is the maximum residential density permitted by the BCLUP. The existing building pre-dated the adoption of the 1977 Countywide Plan. The adoption of the High (50) Residential designation will not preclude or inhibit the existing density of 61.9 dwelling units per acre.

Regarding notification of the public, the *Administrative Rules Document: BrowardNext* requires courtesy notification to the amendment site property owners and surrounding property owners within a 300-foot radius of the amendment site. Broward County Planning Council staff sent courtesy notices to all property owners and/or registered condominium associations within the land use plan amendment boundaries, as well as within 300 feet of the boundaries. It is noted that notice to a registered condominium association is considered notice to all individual unit owners of that condominium.

SECTION VI
AMENDMENT REPORT
PROPOSED AMENDMENT PC 21-10

PLANNING ANALYSIS

Planning Council staff notes that this is a corrective amendment to reflect the existing multi-family residential development. The proposed High (50) Residential designation is generally compatible with the surrounding existing land uses, including multi-family residential and hotel.

The existing multi-family residential development was constructed at a density of 61.9 dwelling units per acre in 1972, prior to the adoption of the 1977 Broward County Land Use Plan (BCLUP). The maximum residential density permitted by the BCLUP is High (50) Residential (i.e. 50 dwelling units per acre). The adoption of the High (50) Residential designation will not preclude or inhibit the existing density of the residential development (i.e. 61.9 dwelling units per acre).

Planning Council staff's analysis also finds that adequate **potable water plant capacity and supply, sanitary sewer, drainage, solid waste capacity and park acreage** will be available to serve the proposed land use. In addition, our analysis finds that the proposed amendment is not projected to impact the operating condition of the **regional transportation network**. See Attachments 2.A. and 2.B. Further, no adverse impacts to **natural or cultural resources** were identified.

Concerning impacts to **public schools**, the Broward County School Board staff report states that the proposed amendment would not generate any additional students into Broward County Public Schools. See Attachment 4.

Regarding **hurricane evacuation**, the Emergency Management Division (EMD) staff has indicated that the proposed amendment site is located within a Broward County Hurricane Evacuation Zone for a Category 1 or higher storm. Since the amendment is corrective in nature without adding additional residential units, it is not anticipated that the amendment would significantly diminish the level of service for the designated hurricane evacuation routes nor the shelter capacity at this time. Further, the EMD strongly recommend that a suitable hurricane evacuation and reentry plan for the possible guests, and tenants of this property be developed. See Attachment 7.A. The City of Pompano Beach has stated that the condominium association maintains its own hurricane evacuation plan for the private property. In addition, the City follows all County policies and procedures regarding hurricane evacuation and reentry. See Attachment 7.B.

Concerning **affordable housing**, the proposed land use plan amendment would not be subject to BCLUP Policy 2.16.2, as it does not propose any additional residential units to the BCLUP. The additional number of dwelling units under the corrective residential designation are already existing. See Attachment 6.

PLANNING ANALYSIS (continued)

In conclusion, Planning Council staff finds that the proposed amendment is corrective in nature and generally consistent with the policies of the BrowardNext - Broward County Land Use Plan. Therefore, it is recommended that the proposed amendment be approved.

BROWARD COUNTY PLANNING COUNCIL SUPPLEMENTAL REPORT PUBLIC SERVICES AND FACILITIES

BROWARD COUNTY LAND USE PLAN AMENDMENT NUMBER PC 21-10

Prepared: July 2021

POTABLE WATER

The proposed amendment site will be served by the Pompano Beach Water Treatment Plants, which have a current combined capacity of 50 million gallons per day (mgd). The current and committed demand on the treatment plants is 13.4 mgd, with 36.6 mgd available. The wellfield serving the amendment site has a permitted withdrawal of 18.39 mgd, with 4.99 mgd available for water withdrawal, which expires on December 8, 2040. Planning Council staff utilized a level of service of 0.1 gallons per day (gpd) per square foot for commerce uses and 161 gpd per capita (2.27 persons per household) for residential uses. The amendment will result in a net increase in demand of 0.06 mgd. However, since the dwelling units are already existing, there will be no net impact on the projected demand for potable water. Sufficient potable water supply and treatment capacity will be available to serve the proposed amendment site.

SANITARY SEWER

The proposed amendment site will be served by the Broward County North Regional Wastewater Treatment Plant, which has a current capacity of 95 mgd. The City of Pompano Beach has an allocated capacity of 17 mgd. The current and committed demand on Pompano Beach's portion of the treatment plant is 15.33 mgd, with 1.67 mgd available. Planning Council staff utilized a level of service of 0.1 gpd per square foot for commerce uses and 300 gpd per dwelling unit for residential uses. The amendment will result in a net increase in demand of 0.04 mgd. However, since the dwelling units are already existing, there will be no net impact on the projected demand for sanitary sewer. Sufficient sanitary sewer capacity will be available to serve the proposed amendment site.

SOLID WASTE

The proposed amendment site will be served by Waste Management for solid waste disposal service. Waste Management collects and transports the City's solid waste to the Monarch Hill landfill, which has a capacity of 41,096 tons per day (tpd) and a demand of 4,110 tpd, with 36,986 tpd available. Planning Council staff utilized a level of service of 4 pounds (lbs.) per 100 square feet per day for commerce uses and 8.9 lbs. per dwelling unit per day for residential uses. The amendment will result in a net increase in demand of 0.07 tpd. However, since the dwelling units are already existing, there will be no net impact on the projected demand for solid waste. Sufficient solid waste capacity will be available to serve the proposed amendment site.

DRAINAGE

The proposed amendment site is located within the jurisdiction of the Broward County Environmental Protection and Growth Management Department (EPGMD).

PARKS AND OPEN SPACE

The City of Pompano Beach has 643 acres in its parks and open space inventory. The projected 2045 population (139,760) requires approximately 419.28 acres to meet the community parks acreage requirement of 3 acres per one thousand persons population. The proposed amendment will result in a net increase of 1.09 acres. However, since the dwelling units are already existing, there will be no net impact on the projected demand for local parks. The City of Pompano Beach continues to meet the community parks acreage requirement of the Broward County Land Use Plan of 3 acres per one thousand persons population.

ATTACHMENT 2.A.

TRAFFIC ANALYSIS PC 21-10

Prepared: June 17, 2021

INTRODUCTORY INFORMATION

Jurisdiction: City of Pompano Beach

Size: Approximately 3.2 acres

TRIPS ANALYSIS

Potential Trips - Current Land Use Designation

Current Designation:	Commerce
Potential Development:	32,000 square feet of commerce use
Trip Generation Rate:	"ITE Equation (820) Shopping Center"*
Total P.M. Peak Hour Trips:	248 peak hour trips

Potential Trips - Proposed Land Use Designation

Proposed Designation:	High (50) Residential
Potential Development:	160 dwelling units
Trip Generation Rate:	"ITE Equation (222) Multifamily Housing (High-Rise)"
Total P.M. Peak Hour Trips:	71 peak hour trips

<u>Net P.M. Peak Hour Trips</u>	<u>- 177 peak hour trips</u>
--	-------------------------------------

PLANNING COMMENTS

This traffic analysis is based on the change in peak hour trips between the maximum allowable dwelling units under the current land designation, Commerce, and under the proposed land use designation of High (50) Residential. Therefore, the proposed amendment is projected to decrease traffic on the regional transportation network by approximately 177 p.m. peak hour trips at the long-range planning horizon.

The amendment is needed to reflect the existing residential development. There are currently 198 dwelling units existing. The current Commerce designation does not allow residential development.

*Institute of Transportation Engineers (ITE) traffic generation equations from "Trip Generation Manual - Tenth Edition," the professionally accepted methodology for estimating the number of vehicle trips likely to be generated by a particular land use.

ATTACHMENT 2.B.

ALTERNATIVE TRAFFIC ANALYSIS PC 21-10

Prepared: June 17, 2021

INTRODUCTORY INFORMATION

Jurisdiction: City of Pompano Beach

Size: Approximately 3.2 acres

TRIPS ANALYSIS

Potential Trips - Current Land Use Designation

Current Designation:	Commerce
Potential Development:	198 dwelling units*
Trip Generation Rate:	"ITE Equation (222) Multifamily Housing (High-Rise)"**
Total P.M. Peak Hour Trips:	85 peak hour trips

Potential Trips - Proposed Land Use Designation

Proposed Designation:	High (50) Residential***
Potential Development:	198 dwelling units* ***
Trip Generation Rate:	"ITE Equation (222) Multifamily Housing (High-Rise)"
Total P.M. Peak Hour Trips:	85 peak hour trips

<u>Net P.M. Peak Hour Trips</u>	<u>+ 0 peak hour trips</u>
--	-----------------------------------

PLANNING COMMENTS

This traffic analysis is based on the knowledge that this is a corrective amendment to reflect the existing multi-family residential development and it does not propose any additional residential units to the BCLUP. The additional number of dwelling units under the proposed residential density are already existing. Therefore, the proposed amendment is not projected to increase traffic on the regional roadway network for p.m. peak hour trips at the long-range planning horizon.

* There are currently 198 dwelling units existing.

**Institute of Transportation Engineers (ITE) traffic generation equations from "Trip Generation Manual - Tenth Edition," the professionally accepted methodology for estimating the number of vehicle trips likely to be generated by a particular land use.

*** High (50) Residential is the maximum residential density permitted by the BCLUP. The existing building predated the adoption of the 1977 Countywide Plan. The adoption of the High (50) Residential designation will not preclude or inhibit the existing density (61.9 dwelling units per acre).

RE: Transit Verification Letter – PC 21-10 (Claridge Condominium)

Dear Ms. Evans:

Broward County Transit (BCT) has reviewed your correspondence dated June 17, 2021, regarding The Claridge Condominium Land Use Plan Amendment (LUPA) located at 1340 South Ocean Boulevard in the City of Pompano Beach for current and planned transit service. The current transit service provided within a quarter mile of the amendment site is limited to BCT Routes 11 and the Pompano Beach Green Community Shuttle Route. Please refer to the following table for detailed information.

BUS ROUTE	DAYS OF SERVICE	SERVICE SPAN A.M. – P.M	SERVICE FREQUENCY
BCT 11	Weekday Saturday Sunday	5:00a – 11:21p 5:00a – 11:21p 7:00a – 9:23p	45 minutes 45 minutes 57 minutes
Pompano Beach Green Community Shuttle Route (BCT 708)	Weekday	9:00a – 4:52p	68 minutes

As part of the 30 year [Mobility Advancement Program](#), BCT plans to implement several fixed route bus improvements, including shorter headways, increased span of service, and route realignment to better meet passenger needs.

Transportation Department

Service and Strategic Planning Division

1 N. University Drive, Suite 3100A • Plantation, Florida 33324 • 954-357-8340 • FAX 954-357-8482

Please be advised that the needs of any existing or future bus stops located adjacent or within the amendment site will be addressed during the project's development review process.

BCT has adequate capacity for current and planned services to meet additional service demand as described in this proposed LUPA. BCT recommends that any proposed (re)development on the amendment site be designed to provide safe movement for pedestrians and bicycles including transit connectivity between the existing sidewalk / bicycle network and proposed future bus stops.

Please feel free to call me at 954-357-8387 or email me at Dimunoz@broward.org if you require any additional information or clarification on this matter.

Sincerely,

Diego B. Munoz

Re: Opinion Letter – SBBC-3099-2021 – The Claridge (1340 S. Ocean Blvd.) and Hillsboro Light Towers (2639 N. Riverside Drive) Condominiums.

Dear Ms. Dolan,

This correspondence is in response to your letter dated June 7, 2021, regarding the issuance of an "Opinion Letter" by the School District on the above-referenced project. Based on the information you provided, the current land use designations for the subject condominium parcels are Commercial. Additionally, you indicated that both the City and the County are unable to verify how these two residential buildings were built on Commercial Land Use category. As such, the City is moving forward with correcting these errors by keeping the two existing condominiums as is, which will designate the Claridge parcel (3.2-acre with 198 existing high-rise residential units) 62 du/acre residential within dashed line and Hillsborough Light Towers parcel (1.1-acre with 72 existing high-rise residential units) 71 du/acre residential within dashed line. Therefore, these corrective land use changes as proposed will not result in any additional students into Broward County Public Schools and current students (if any) from these two condominiums are already accounted for in the District's enrollment count.

Schools serving the Claridge Condominium in the 2020-21 school year are McNab Elementary, Pompano Beach Middle, and Blanche Ely High. Schools serving Hillsboro Light Towers Condominium in the 2020-21 school year are Cresthaven Elementary, Crystal Lake Middle, and Deerfield Beach High. All cited schools serving both condominiums are operating within the Level of Service Standard (LOS) and are anticipated to remain so for the next five years. Please be advised that the LOS is established as the higher of: 100% gross capacity or 110% permanent capacity. Detailed information regarding the school capacity for schools serving this corrective land use change can be obtained from the District's Planning Tool, which can be accessed via the following link:

<https://webapp.browardschools.com/schoolenrollment/splash1.aspx>

Additionally, the subject parcels are within School District Long Range Planning Areas 3 and 7, which currently have sufficient excess capacity. It should be noted that the information contained herein regarding the available capacity for impacted schools for the subject parcels does not anticipate the impact of future development not yet reviewed by District staff. Please be advised that this correspondence does not constitute a concurrency determination. A public school concurrency determination shall be required if there are any future plans by the City to develop the subject parcels at a higher density than cited herein.

Sincerely,

Mohammed Rasheduzzaman

ENVIRONMENTAL PROTECTION &
GROWTH MANAGEMENT DEPARTMENT
REVIEW AND COMMENTS ON
PROPOSED BROWARD COUNTY LAND USE PLAN MAP AMENDMENT

For: Broward County Planning Council
Applicant: City of Pompano Beach; multiple property owners
Amendment No.: PC 21-10
Jurisdiction: Pompano Beach, FL
Size: Approximately 3.2 acres
Existing Use: Multi-family residential
Current Land Use Designation: Commerce
Proposed Land Use Designation: High (50) Residential

**The existing residential development is built at a
density of 61.9 dwelling units per acre.**

Estimated Net Effect: Reduction of 3.2 acres of commerce use
Addition of 3.2 acres of residential use

**No additional dwelling units proposed to the Broward County
Land Use Plan as the proposed amendment is corrective in
nature to reflect the existing residential development. There
are currently 198 dwelling units existing. The current
Commerce land use designation does not allow residential
development.**

Location: In Section 5, Township 49 South, Range 43 East; generally located on the east
side of State Road A1A/Ocean Boulevard, between Southeast 13 Street and Terra Mar Drive.

Note: Findings and Recommendations do not constitute waivers from any federal, state or local law.

ANALYSIS AND FINDINGS

ENVIRONMENTAL ENGINEERING AND PERMITTING DIVISION

Wetlands - [CP: Objectives C8 and C9 Policies; BCLUP Strategy EP-2 and Policies 2.22.1,
2.22.2, 2.22.3]

Review of available information by staff of the Water and Environmental Licensing Section of the Broward County Environmental Engineering and Permitting Division determined that, at this time, there are no indications of wetlands within the boundaries of the plat.

The Water and Environmental Licensing Section of the Environmental Engineering and Permitting Division encourages all invasive exotic vegetation including Melaleuca, Brazilian pepper, Australian pine and others as listed in the Exotic Pest Plant Council's List of Florida's Most Invasive Species to be removed during the development process, and a management plan may be necessary to control re-invasion of same. In addition, landscape material should not include any plants considered to be invasive of South Florida's native plant communities. The Exotic Pest Plant Council's List of Florida's Most Invasive Species is available at <https://www.fleppc.org/list/list.htm>.

Other activities regulated under Chapter 27, Article XI of the Natural Resource Protection Code (e.g., lake or canal excavation, installation of headwalls, end walls, or outfalls) may require an Environmental Resource License. Prior to undertaking surface disturbing activities, contact the Environmental Engineering and Permitting Division at 954-519-1483 or AWRLicense@broward.org for specific code requirements.

Upland Resources (including Tree Preservation and Greenways) - [CP Objective C6 and Policies C6.1, C6.7, C6.10, C6.11; BCLUP Strategy CCR-2 and EP-3 and Policies 2.5.5, 2.23.3, 3.3.1]

Review of aerial photographs indicates that the subject site contains mature tree canopy. Development of the site must comply with the tree preservation regulations of the City of Pompano Beach. The applicant is required to minimize the number of trees to be removed by incorporating suitable existing trees in the site plan design. If trees cannot be incorporated into the site plan in their current location, the applicant is required to relocate suitable trees. Any trees permitted for removal must be replaced. If the above requirements are adhered to, the proposed land use plan amendment is not expected to have a negative impact on upland resources.

Contaminated Sites - [CP Policies C1.6, C2.1, C2.4, C2.5, C2.7, WM3.6; BCLUP Strategy EP-3 and Policy 2.5.5]

The list of known contaminated sites (from EPGMD's GIS Database of Contaminated Locations in Broward County) has been reviewed. There **are no** listed contaminated sites were found within one-quarter mile of the proposed amendment location. (MO 7/6/2021)

Solid Waste - [CP Policies (SW) 6.1.2, 6.1.3, 6.2.6, 6.2.7, 6.2.10, WM3.18; BCLUP Policies 2.11.8, 2.20.3, 2.20.13, 2.34.1, 3.4.3 and Implementation Regulations and Procedures – 1. Development Review Requirements]

There **are no** active or inactive solid waste facilities located within one mile of the proposed amendment location. (MO 7/6/2021)

ENVIRONMENTAL AND CONSUMER PROTECTION DIVISION

Wellfield Protection - [CP Policies (SW) 6.2.7, WM3.6, WM3.8, WM3.18; BCLUP Policies 2.26.1, 2.26.2, 2.26.3]

The proposed amendment site is not currently within a wellfield zone of influence. No special restrictions apply under Broward County's Wellfield Protection regulations. (SC 07/01/2021)

SARA TITLE III (Community Right to Know) - [CP Policy C2.5, (SW) 6.2.10, 6.2.12, WM3.18; BCLUP Strategy EP-3 and Policy 2.5.5, 2.26.1]

The list of known SARA Title III Facilities in Broward County has been reviewed. There are no known SARA Title III Facilities on, adjacent to, or within ¼ mile of the proposed amendment site. (SC 07/01/2021)

Hazardous Material Facilities - [CP Policies C2.2, (SW) 6.2.6, 6.2.7, WM3.18; BCLUP Strategy EP-3 and Policy 2.26.21]

The list of known hazardous material facilities and storage tank facilities (from ECPD's GIS Database of hazardous material facilities in Broward County) has been reviewed. There are seven (7) known hazardous material/storage tank facilities on, adjacent to, or within ¼ mile of the amendment site. Of the seven (7) facilities, six (6) are hazardous material facilities and one (1) is a storage tank facility. (SC 07/01/2021)

ENVIRONMENTAL PLANNING & COMMUNITY RESILIENCE DIVISION

Air Quality - [CP Objective C1 and C2, and Policy C2.5, C2.6, C2.9, C2.10, (SW) 6.2.10; BCLUP Strategy EP-3 and Policies 2.9.2, 2.25.1]

The preliminary traffic analysis indicates that the proposed amendment would result in **0 PM** peak hour trips per day compared to trips associated with the current designation. Based upon the trips generated and the projected levels of service on surrounding roadways, an amendment to the proposed land use designation can reasonably be assumed to have a **minimal impact** on air quality. There **are no** air permitted facilities located within half a mile of the proposed amendment site. (MO 7/6/2021)

Specially Designated Areas - [CP Objective C6 and policies C6.1, C6.3, C6.5, C6.6, C7.2, C7.4; BCLUP Strategies EP-3, IG-3 and Policies 2.5., 2.12.4, 2.23.1, 2.23.2, 2.23.3, 2.29.1, 3.3.7, 3.3.9, 3.3.10, Implementation Regulations And Procedures - 7. Criteria and Procedures For Environmentally Sensitive Lands And Local Areas of Particular Concern]

County specially designated areas, e.g. Natural Resource Areas, Native Vegetative Communities Category Local Areas of Particular Concern, Urban Wilderness Inventory sites, do not exist within the boundaries of the proposed amendment site.

Protected Natural Lands – The project site is not included, nor is it adjacent to any site in the Protected Natural Lands Inventory. The Protected Natural Lands Inventory is a comprehensive

database of public and private native vegetative communities that have been protected through acquisition or regulatory mechanisms and are managed for conservation purposes. The Inventory provides information regarding the ownership and management for each of the Protected Natural Lands and may be accessed at: <http://www.broward.org/NaturalResources/LandStewardship/Pages/NaturalLands.aspx>

Marine and Riverine Resources - [CP Objectives CM1, CM4 and Policies C.7.7 C7.6, C7.8; BCLUP Strategy EP-1 and Policies 2.7.1, 2.11.7, 2.20.3, 2.24.2, 2.27.1, 2.27.2, 2.27.3, 2.27.4, 2.27.5, 2.28.1, 3.3.4, 3.3.7, 3.3.9, 3.3.12]

The proposed land use designation is not expected to have an impact on marine or riverine resources. Impacts to resources require review and licensing under Article XI of Chapter 27, Broward County Code of Ordinances.

Priority Planning Areas for Sea Level Rise – [CP Policies CC1.7, CC2.1, CC2.9, CC2.10, CC2.12, CC2.14, CC2.15, CC3.6, CM2.6; BCLUP Strategy CCR-2 and Policies 2.21.1, 2.21.2, 2.21.3, 2.21.5, 2.21.6, 2.21.7]

The Priority Planning Areas for Sea Level Rise Map identifies areas that are at increased risk of flooding due to, or exacerbated by, sea level rise by the year 2060. In review of land use plan amendments, the County requires the applicant to demonstrate that the project will not increase saltwater intrusion or areawide flooding, not adversely affect groundwater quality or environmentally sensitive lands, and that subsequent development will be served by adequate stormwater management and drainage facilities.

The County also strongly discourages those amendments which would place additional residential and non-residential development at risk of flooding from sea level rise. The County will take into consideration sea level rise and flood protection mitigation strategies and requirements included within the city's local comprehensive plans and/or development regulations, or improvements committed to by the applicant which would mitigate or enhance flood protection and adaptation from rising sea levels.

While the County encourages applicants to consider these and other impacts from climate change during the site planning process, the proposed amendment site does not contain, fall within, or overlap with an area for planning consideration, as indicated on the Priority Planning Areas for Sea Level Rise Map. However, the property is on the Atlantic Coast in an area that may have additional hazards associated with storm waves and storm surge during a storm. The County encourages applicants to consider these and other impacts from climate change during the site planning process, in conformance with Broward County Land Use Plan Strategy CCR-2 and policies 2.21.1, 2.21.5 and 2.21.7 and Comprehensive Plan Policies CC2.1, CC2.12, and CC2.14. Please see the attached PPA map zoomed to the proposed amendment site for more information.

NatureScape Program – [CP Policies C6.8, CC3.9, WM3.33, WM4.17; BCLUP 2.20.14, 2.20.17]

NatureScape is about creating Florida-friendly landscapes that conserve water, protect water quality, and create wildlife habitat. Development of the proposed amendment site should be coordinated with the NatureScape Broward Program for guidance in development of any related

landscaping plans. Information regarding Naturescape can be accessed at:
<http://www.broward.org/NatureScape/Pages/Default.aspx>

Surface Water Management - - [CP Policies BMSD1.2.2, BMSD1.1.3, BMSD1.2.3, IC7.4, WM2.4, WM2.5, WM3.4, WM3.5, WM3.9, WM3.10, WM3.15, WM3.23, WM3.34, WM4.6, CM6; BCLUP Strategy CCR-2, EP-2, DP-2, and Policies 2.12.5, 2.21.1, 2.21.3, 2.21.5, 2.21.7, 2.24.1, 2.24.2, 2.24.4, 2.24.5, 2.26.5]

The proposed amendment site is located within the jurisdiction of the South Florida Water Management District (SFWMD), the City of Pompano Beach and Broward County. Development within the site will be required to meet the drainage standards of Broward County and the South Florida Water Management District. Successful compliance with the criteria established should result in reducing the potential danger from flooding and maintaining the quality of surface waters. A surface water management permit may be needed prior to any construction on the site.

Tracts within the proposed amendment site are located within the Federal Emergency Management Agency (FEMA) flood insurance zone VE, flood insurance rate zone that corresponds to coastal areas that have additional hazards associated with storm waves. Mandatory flood insurance requirements apply.

Water Recharge - [CP Policies WM1.15, WM2.2, WM3.8, WM3.9, WM3.32, WM4.3; BCLUP Policies 2.5.5, 2.26.1]

The proposed land use designation would involve a major percentage of impervious area. The development resulting from the proposed land use designation could potentially result in a net increase in the volume of water available for recharge. Based solely on land use designations, the change in recharge capacity resulting from development under the proposed designation is expected to be the equivalent of 0.5 acres, which is considered minor. The aerial of the property shows that the property is currently almost entirely built on/impervious. Therefore, based on current development, the change in recharge capacity would be insignificant on the subject site.

This impact level is determined by factoring the size of the site with the percent change of impervious area from the current designation to the proposed designation.

We suggest that if there are any significant improvements of the residential project that the design seek to maximize open space or provide other alternatives to offset negative impacts on recharge capacity on the property. Open space can include but not be limited to parks and open space, stormwater retention, ponds, drainage easements, landscaped areas, and other pervious areas fulfilling the goal of water recharge into the aquifer.

Please see attached Water Recharge Questionnaire.

BROWARD COUNTY PLANNING COUNCIL
WETLAND RESOURCE QUESTIONNAIRE
as completed by the
ENVIRONMENTAL PROTECTION & GROWTH MANAGEMENT
DEPARTMENT

I. Description of the Site and Proposed Amendment

Applicant: City of Pompano Beach; multiple property owners
Amendment No.: PC 21-10
Jurisdiction: Pompano Beach, FL
Size: Approximately 3.2 acres
Existing Use: Multi-family residential
Current Land Use Designation: Commerce
Proposed Land Use Designation: High (50) Residential
The existing residential development is built at a density of 61.9 dwelling units per acre.
Estimated Net Effect: Reduction of 3.2 acres of commerce use
Addition of 3.2 acres of residential use
No additional dwelling units proposed to the Broward County Land Use Plan as the proposed amendment is corrective in nature to reflect the existing residential development. There are currently 198 dwelling units existing. The current Commerce land use designation does not allow residential development.

Location: In Section 5, Township 49 South, Range 43 East; generally located on the east side of State Road A1A/Ocean Boulevard, between Southeast 13 Street and Terra Mar Drive.

Note: Findings and Recommendations do not constitute waivers from any federal, state or local law.

II. Wetland Review

A. Are wetlands present on subject property? No

B. Describe extent (i.e. percent) of wetlands present on subject property.

C. Describe the characteristics and quality of wetlands present on subject property.

D. Is the property under review for an Environmental Resource License? No

E. Has the applicant demonstrated that should the proposed Land Use designation be approved, the proposed project will be consistent with the requirements of Article XI, Chapter 27 of the Broward County Code of Ordinances?

III Comments:

Other activities regulated under Chapter 27, Article XI of the Natural Resource Protection Code (e.g., lake or canal excavation, installation of headwalls, end walls, or outfalls) may require an Environmental Resource License. Prior to undertaking surface disturbing activities, contact the Environmental Engineering and Permitting Division at 954-519-1483 or AWRLicense@broward.org for specific code requirements.

BROWARD COUNTY PLANNING COUNCIL

WATER RECHARGE QUESTIONNAIRE

as completed by

ENVIRONMENTAL PROTECTION & GROWTH MANAGEMENT DEPARTMENT

I. Introductory Information

- A. *Amendment No.:*** PC 21-10
- B. *Municipality:*** City of Pompano Beach, FL
- C. *Applicant:*** City of Pompano Beach; multiple property owners

II. Site Characteristics

- A. *Size:*** Approximately 3.2 acres
- B. *Location:*** In Section 5, Township 49 South, Range 43 East; generally located on the east side of State Road A1A/Ocean Boulevard, between Southeast 13 Street and Terra Mar Drive.
- C. *Existing Use:*** Multi-family residential

III. Water Recharge Review based on Broward County Land Use Plan Designations

A. Describe the general impacts of the current land use designation on water recharge:

Current Land Use Designation: Commerce

A typical value for an impervious area produced by this type of development is approximately 70.0 percent.

B. Describe the general impacts of the proposed land use designation on water recharge:

Proposed Land Use Designation: High (50) Residential

A typical value for an impervious area produced by this type of development is potentially 85.0 percent.

C. Describe the general impacts of the proposed land use change on water recharge:

Estimated Net Effect:

Reduction of 3.2 acres of commerce use

Addition of 3.2 acres of residential use

No additional dwelling units proposed to the Broward County Land Use Plan as the proposed amendment is corrective in nature to reflect the existing residential development. There are currently 198 dwelling units existing. The current Commerce land use designation does not allow residential development.

V. Analysis of Impact of Change in Land Use Designation

The purpose of this review is to consider County policies regarding water recharge. Aquifer recharge is one of several significant methods that will aid in the protection and conservation of the Surficial Aquifer System. Therefore, the County will continue to promote the development of alternative water supply strategies, including Aquifer recharge, and protect the quality of our potable water supply sources. [Applicable County Policies include: CP WM1.15, WM2.2, WM3.8, WM3.9, WM3.32, WM4.3; BCLUP Strategy CCR-3; Policies 2.5.5, 2.26.1, 2.26.2]

The proposed land use designation would involve a major percentage of impervious area. The development resulting from the proposed land use designation could potentially result in a net increase in the volume of water available for recharge. Based solely on land use designations, the change in recharge capacity resulting from development under the proposed designation is expected to be the equivalent of 0.5 acres, which is considered minor. The aerial of the property shows that the property is currently almost entirely built on/impervious. Therefore, based on current development, the change in recharge capacity would be insignificant on the subject site.

This impact level is determined by factoring the size of the site with the percent change of impervious area from the current designation to the proposed designation.

VI. Comments

We suggest that if there are any significant improvements of the residential project that the design seek to maximize open space or provide other alternatives to offset negative impacts on recharge capacity on the property. Open space can include but not be limited to parks and open space, stormwater retention, ponds, drainage easements, landscaped areas, and other pervious areas fulfilling the goal of water recharge into the aquifer.

SUBJECT: Broward County Land Use Plan
Review of Proposed Amendment – Pompano Beach PC 21-10

The Broward County Planning and Development Management Division (PDMD) staff has reviewed proposed amendment PC 21-10. The subject site is located in Pompano Beach involving approximately 3.2 acres. The amendment proposes:

Current Designations: Commerce

Proposed Designation: High (50) Residential

Estimated Net Effect: Reduction of 3.2 acres of commerce use
Addition of 3.2 acres of residential use

Item 7 – Analysis of Natural and Historic Resources

- A. The County's archaeological consultant reviewed the application, and based on the available information including archival documents, maps, the Broward County Land Use Plan and the Florida Master Site File (FMSF), determined that the proposed project will have no adverse effect on any known historical or archaeological resources or areas of archaeological or paleontological sensitivity.
- B. Comments and recommendations pertaining to this land use plan amendment for historic/archaeological resources:
1. The subject property is located within the City of Pompano Beach, outside the jurisdiction of the Broward County historic preservation ordinance (B.C. Ord. 2014-32). The property owner/agent is advised to contact the municipality to seek project review for compliance with municipal historic preservation regulations.

Contact: Attn: Historic Preservation
Development Services Department
City of Pompano Beach
100 W. Atlantic Boulevard, #3

Pompano Beach, Florida 33060
Telephone: (954) 786-7921

2. If, in the event that unmarked burials are discovered, then, pursuant to Florida State Statutes, Chapter 872.05, "all activity that may disturb the unmarked burial shall cease immediately, and the district medical examiner shall be notified. Such activity shall not resume unless specifically authorized by the district medical examiner or State Archaeologist."

Contact: Broward County Medical Examiner
5301 S.W. 31st Avenue
Fort Lauderdale, Florida 33312
Telephone: (954) 357-5200
Fax: (954) 327-6580
Email: Med_Exam_Trauma@broward.org
Website: <http://www.broward.org/MedicalExaminer>

Item 8 - Affordable Housing

The Planning and Development Management Division (PDMD) staff reviewed this application and determined that it is not subject to BCLUP Policy 2.16.2 and Article 5 of the Administrative Rules Document.

Amendments that propose to add 100 or more residential dwelling units to the existing densities approved by the Broward County Land Use Plan (BCLUP) are subject to the requirements of BCLUP Policy 2.16.2 and Article 5 of the Administrative Rules Document. The site includes existing residential units that were constructed in the 1970s, prior to initial adoption of the BCLUP and its affordable housing policies. The City of Pompano Beach (Applicant) proposes to restrict the site to its current density through a residential future land use designation. The proposed amendment is corrective in nature and does not propose or allow additional residential units.

Item 11 – Redevelopment Analysis

The proposed amendment site is not located within an identified redevelopment area.

Item 12 – Intergovernmental Coordination

The proposed amendment site is not adjacent to or in close proximity to any Broward County Unincorporated Area lands or County-owned facilities/property. It is not adjacent to any municipality; however, it is located less than ¼ mile from the Town of Lauderdale-by-the-Sea, separated by State Road A1A/Ocean Boulevard and the Spanish River Canal.

Ms. Barbara Blake Boy, Executive Director
Broward County Planning Council
115 S. Andrews Ave., Room 307
Fort Lauderdale, FL 33301

RE: PC 21-10 Pompano Beach

Dear Ms. Blake Boy:

We are in receipt of the proposal for the amendment as a corrective action to reflect existing residential development in the City of Pompano Beach. It is our understanding that the current designated land use is Commerce and the proposed designation is to High (50) Residential. No additional dwelling units are proposed to the Broward County Land Use Plan. There are currently 198 dwelling units existing.

Hurricane Evacuation Analysis

Policy 2.12.8 of the BCLUP states that "Broward County shall discourage land use plan amendments which negatively impact hurricane evacuation clearance times and/or emergency shelter capacities".

We recognize that the proposed designation is corrective in nature without adding additional residential units. The proposed Project is located in a designated Broward County Hurricane Evacuation Zone for typically a Category 1 or higher storm. Currently, it is not anticipated that the project would significantly diminish the level of service for the designated hurricane evacuation routes nor the shelter capacity at this time. However, it is strongly recommended that a suitable hurricane evacuation and reentry plan for the possible guests, and tenants of this property be developed.

Sincerely,

Tracy L. Jackson
Director

for TRACY L. JACKSON

Broward County Board of County Commissioners

Broward.org

City of Pompano Beach response to comments from the Broward County Emergency Management Division regarding PC 21-10 and PC 21-11 (Land Use Map Correction for Hillsboro Light Towers and The Claridge Condominium).

BCEMD Comment: "...It is strongly recommended that a suitable hurricane evacuation and reentry plan for the possible guests, and tenants of this property be developed."

Response: The condominium associations for these two buildings develop and maintain the hurricane evacuation plans for their private properties. The City follows County policies and procedures for hurricane evacuation and reentry as summarized on the County's website as follows:

EVACUATION INFORMATION

What You Need to Know

Hurricane evacuations are ordered by the County Administrator to protect coastal residents from the dangerous storm surge. Broward County has two types of evacuation plans. The type of evacuation ordered will be based upon the severity of the storm.

EVACUATION PLAN A - for Hurricane Category 1 or 2

- Storm surge is 4-7 feet above sea level with winds from 74-110 miles per hour.
- All mobile home residents, residents beside tidal bodies of water and in low-lying areas, and residents east of the Intracoastal Waterway should evacuate.

EVACUATION PLAN B - for Hurricane 3 or higher

- Storm surge is 7-11 feet above sea level with winds of 111 miles per hour or greater.
- In addition to those required to evacuate under Plan A, all residents east of U.S. 1 (Federal Highway) should evacuate.

What You Should Do

Check the [Evacuation Map](#) to determine if you are in an Evacuation Zone. If you are NOT told to evacuate, it does not mean you are safe in your home. While the sea may not flood your home, hurricane winds can be very destructive.

If you plan on evacuating to a shelter, listen to local radio and television stations for shelter openings, or call the Broward County Emergency Hotline at 311 (954-831-4000). Shelters open approximately four hours after an evacuation is ordered. For a list of

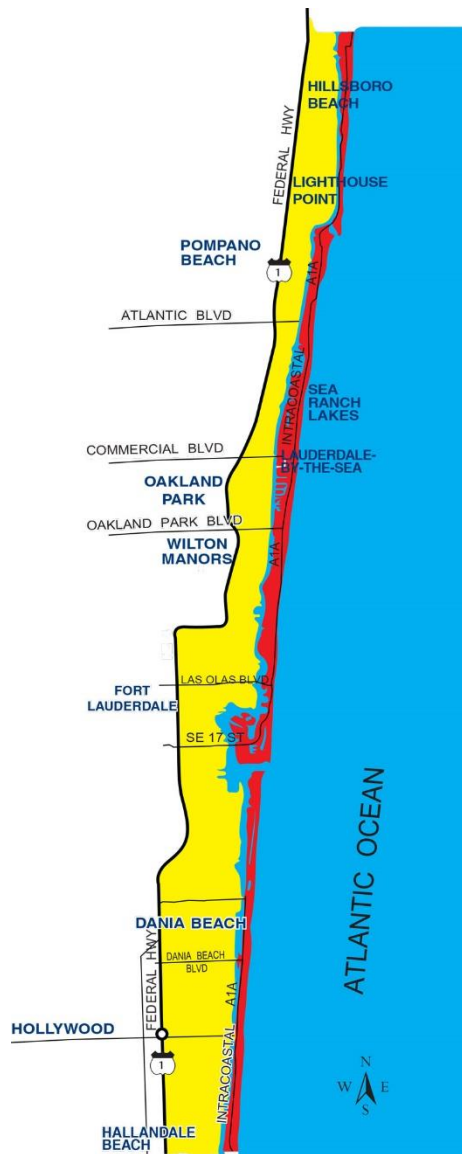

items you should take with you to a General Population Shelter, view the [Emergency Checklist](#).

If you evacuate outside Broward County:

- Plan your evacuation route and make necessary hotel reservations in advance. Avoid routes along the seashore, lakes and canals.
- Get gas at least one or two days before an approaching storm. As the storm gets closer, lines at the gas station will get longer.
- Gather your important papers, including homeowner's and car insurance documents.
- Leave early, while the weather is still nice.
- Make sure the vehicle you plan to take is in good mechanical condition. Keep oil changes up to date and make sure the fluid levels are topped off. Check your tires, as excessively worn tires could make driving conditions even more treacherous.
- Have cash on you when you travel.
- Be aware that Florida Department of Transportation (FDOT) may announce [Emergency Shoulder Use](#) to increase traffic capacity during hurricane evacuations.

Returning Home

If you are attempting to return to an area impacted by an emergency, listen to media reports for information that lets you know that roads are passable and that it is safe to return. If Broward County experiences high winds or a storm surge, bridge re-openings may be delayed while the Florida Department of Transportation or the Army Corps of Engineers (depending on bridge location) conducts a mandatory structural survey to determine safety of the bridges.

■ PLAN A Evacuation - Areas east of Intracoastal Waterway Typically a Category 1-2 hurricane

■ PLAN B Evacuation - Areas east of U.S. 1 (Federal Highway) Typically a Category 3 or higher hurricane

[View Emergency Evacuation Map](#)

Persons located in low lying areas or beside tidal bodies of water should seek shelter elsewhere if conditions warrant. ALL mobile home residents must evacuate in PLAN A and PLAN B and may be ordered to evacuate if tropical storm conditions warrant.

The Claridge of Pompano and Hillsboro Light Towers
Land Use Plan Amendment – Drainage Analysis

Dear Ms. Evans:

The information in the above-captioned land use plan amendment (LUPA) is essentially correct. Our office has no objection to this LUPA.

Sincerely,

A handwritten signature in blue ink that reads "Susan Juncosa".
