#### Summary Explanation/Background

In 2014, Tutor Perini Fort Lauderdale Hollywood Venture ("TPFLHV") performed work on the Terminal 4 Apron Project ("Apron") which included the demolition and removal of the existing concrete apron and other unsuitable material from the site. TPFLHV transported some of these materials off-site to Trails End Yard site ("TEY") to be sorted and reused.

Around the end of 2014 or early 2015, it was determined that asbestos originating from the apron was present in the materials placed at TEY and had been commingled with other materials. Using an Emergency Quotation, the County disposed of the contaminated materials, incurring costs of over \$4,000,000.

The County had an environmental insurance policy (Policy # G24880163 001), issued by Illinois Union Insurance Company ("Insurer"), in place during the relevant time period. While the County has contractual remedies available against TPFLHV, not all of the costs may be recoverable under the contract. Accordingly, the County submitted an insurance claim (Claim # JY15J0063756) to the Insurer requesting coverage for these costs. The Insurer has taken the position that it is responsible for only a portion of the claim.

This item would authorize the County Attorney to initiate litigation against the Insurer to seek to recover these costs.
