Summary Explanation/Background

THE PORT EVERGLADES DEPARTMENT RECOMMENDS APPROVAL.

This action supports the Broward County Board of County Commissioners' ("Board") Value of "Ensuring economic opportunities for Broward's diverse population and businesses" and the Goal to "Increase the economic strength and impact of revenue-generating County enterprises balancing economic, environmental, and community needs."

Port Everglades Tariff No. 12 ("Tariff") provides the rules, regulations, and fees that govern the use of the facilities and services at the Port that are not otherwise provided for in separate contractual agreements with Port Everglades port users. As required by the Federal Maritime Commission, the Tariff is published on the Internet.

Requested rate increases include approximately 3.0% for cargo, container, and petroleum dockage and wharfage; 3.5% for cruise dockage and wharfage; 3.0% for container crane rental; and 3.0% for other marine services. Staff also proposes an increase of 10% for Grid Yard Areas in Tariff Item No. 1140 for temporary assignment of land not covered by a lease or minimum guarantees. This increase reflects recent land appraisals and negotiated lease rates to ensure that grid rates better reflect the land value. No rate increases are proposed for cargo security fees and garage and surface lot hourly and daily parking rates.

In addition to the proposed rate increases, the Tariff includes minor changes to a number of Items to reflect current information or practice, or to delete outdated language. New language is proposed in Tariff Item No. 205 - Access to Port Everglades, that would authorize the Port Everglades Department to require a vessel to provide a copy of the Maritime Declaration of Health (MDOH) or Maritime Conveyance Illness or Death Investigation Form to the Port Everglades Harbormaster along with the vessel's Berth Application during the period of a declared emergency. The intent of this new language is to allow the Port to obtain information directly from the vessel concerning the health status of passengers or crew aboard, but only during the period of a declared emergency. Tariff Item No. 700 would also be revised to include a description of the three new rail mounted container gantry cranes manufactured by Shanghai Zhenhua Heavy Industries Co., Ltd. (ZPMC) scheduled for delivery to Port Everglades later this year.

All of the proposed revisions to the Tariff would be effective as of October 1, 2020.
