Summary Explanation/Background

This item supports the Board's Value of consistently delivering responsive, efficient, quality services to the public and internal customers and Goal 4: Build into every process and service effective checks and balances that do not cause inefficiency, but rather ensure consistency, continuity, and quality.

The proposed Ordinance amends Article XI of Chapter 9 of the Broward County Code of Ordinances to provide for licensure of tree trimming contractors consistent with the regulations and processes for building contractors. Currently, the Building Code Services Division (BCSD) of the Environmental Protection and Growth Management Department processes applications and issues licenses for tree trimming to sole proprietors, business organizations, and governmental agencies. The proposed Ordinance provides for licensure of those performing tree trimming work, rather than the entity, and would require business organizations to have a licensed individual serve as qualifying agent in order for the organization to contract for or perform tree trimming work. The requirements for governmental agencies performing tree trimming work would remain unchanged but governmental agencies would be issued a certificate of authority, rather than a tree trimmer license.

The proposed Ordinance is not expected to have an impact on existing tree trimming contractors because the requirements for obtaining licensure remain unchanged. BCSD intends to implement the proposed Ordinance for current tree trimming contractors upon renewal of the licenses.

The Environmental Protection and Growth Management Department and the BCSD recommend approval of the proposed Ordinance.
