#### Summary Explanation/Background

This item relates to activities in the Broward Municipal Services District (BMSD). The BMSD consists of 11.4 square miles with an estimated population of 15,304 in 2019. The Board of County Commissioners is the governing body of the BMSD and the provider of its municipal services that

include, but are not limited to, business development, building permitting and housing development, libraries and parks facilities, roadway maintenance, street enhancements, and zoning and code enforcement.

Chapter 39 of the Code of Ordinances "Zoning" regulates zoning in the Broward Municipal Services District (BMSD). The Design Standard in the Code are intended to enhance and improve commercial buildings in the BMSD. However, as written, the Code does not differentiate between new construction and reuse of existing buildings, which often have significant constraints. The proposed amendment would support commercial redevelopment in BMSD, and facilitate projects being funded by the OESBD program.
