Summary Explanation/Background

In 2017, Chapter 22½ of the Code was amended to provide for the one-time issuance of 50 certificates of public convenience and necessity for wheelchair accessible vehicles ("WAV Certificates"), and of 50 associated bonus regular taxicab certificates of public convenience and

necessity. These WAV Certificates were only available to active Broward County taxicab drivers. The wheelchair accessible vehicles associated with the WAV Certificates were prohibited from picking up passengers at the Fort Lauderdale-Hollywood International Airport ("Airport") or at Port Everglades ("Port").

The taxicab drivers who were issued the 50 WAV Certificates incurred substantial expense to equip the wheelchair accessible vehicles, which are significantly more costly than a conventional taxicab. Even before the COVID-19 pandemic, the prohibition on operating at the Airport and Port cut off a valuable revenue stream to these drivers and left them struggling financially. The COVID-19 pandemic has made their circumstances even more dire.

This item would direct the Office of the County Attorney to draft an Ordinance to amend the Code to remove the prohibition on vehicles associated with the WAV Certificates picking up passengers at the Airport and Port, putting them on equal footing with other Broward County taxicabs.
