Summary Explanation/Background

THE OFFICE OF ECONOMIC AND SMALL BUSINESS DEVELOPMENT RECOMMENDS APPROVAL OF THE ABOVE MOTION.

Traditionally, Broward County has relied on Florida's Qualified Targeted Industry Tax Refund (QTI) program for the vast majority of business attraction and retention projects with positive results, albeit some limitations. Unfortunately, the QTI program sunsetted in June 30, 2020, leaving Broward County with only the Direct Cash Job Creation program, which is based primarily on capital investment of the company, not economic impact of the payroll from job creation. The proposed ordinance will expand the County's current economic development incentives to also consider a performance-based incentive driven by job creation. The incentive will have pre-determined criteria to qualify and allocated only after a stringent verification process conducted by an independent entity concludes that job creation commitments and capital expenditures have been met and maintained.
