Summary Explanation/Background

Broward County provides water and wastewater services to many residents of the County. Certain residents have delinquent accounts. In accordance with Section 34-9 of the Broward County Code of Ordinances ("Code"), notices of default were provided to the delinquent account holders. The accounts listed in Attachment 1 to the proposed Resolution remain unpaid more than thirty (30) days after the notices of default. The total unpaid amount (not including late fees) of the delinquent accounts listed in Attachment 1 is \$352,400.96.

Pursuant to Section 153.67, Florida Statutes, and Section 34-9 of the Code, after adoption of an appropriate Resolution, the County may assess liens against the affected real property of the account holders in the amount of the unpaid balances and all accrued interest if the balances remain unpaid for thirty (30) days after notice of default.

This item, if approved, would adopt the Resolution contemplated by Section 34-9 of the Code authorizing the County to assess liens in the amount of the unpaid commodity charges (not including late fees) against the affected real property owned by the delinquent account holders. This item would also authorize the Office of the County Attorney to commence litigation to recover the total unpaid balances (including both commodity charges and late fees), plus attorneys' fees and costs, negotiate and settle claims for the unpaid balances, and execute any associated settlement agreements, subject to approval by the County Administrator of any reduction of total charges that exceeds \$25,000. The County Administrator's settlement authority would specifically include authority to settle the unpaid accounts of residential properties for de minimis amounts in exchange for connection of the property to the County's system.
