Summary Explanation/Background

Florida law authorizes certain fees and charges for the production of requested public records. The authorized fees and charges include duplication charges on a per-page basis and special service fees for extensive use of information technology resources or agency personnel.

The current provisions of the Administrative Code impose the authorized duplication charges at the statutory rates, but impose the special service fee for extensive information technology or personnel time at a rate that is significantly less than the statutorily permitted rate. The special service fee

currently charged is imposed only after the first fifteen (15) minutes of time incurred, and then is imposed at the rate of \$2.50 for each quarter hour.

The amendments in the proposed Resolution would increase the special service fee to the actual hourly rate, inclusive of benefits, of the County personnel performing the work, which is permissible under Florida law.

Records requested by the public must be timely produced under Florida law, and that timely production requires the availability of adequate County staff resources. The proposed amendment seeks to more substantially recover the actual costs incurred by the County in responding to public records requests.
