No

Previous Action Taken

None.

Summary Explanation/Background

The Broward Sheriff's Office operates a Real-Time Crime Center (RTCC). BSO desires to obtain access to certain real-time video feeds at County facilities for use at the RTCC when active circumstances at the County facility present an immediate need for law enforcement or fire safety personnel to respond to that facility to protect the health or safety of Broward County residents and visitors.

The MOU addresses the understanding by both parties in connection with access to the real-time live video feeds and describes the terms under which BSO may access the videos and the limited permitted uses of such videos. The MOU allows for the inclusion of additional County sites by amendment, which the County Administrator would be authorized to approve and execute.
