Summary Explanation/Background

THE AVIATION DEPARTMENT RECOMMENDS APPROVAL OF THE ABOVE MOTION.

This action allows the County to accept Letter of Intent ("LOI") Payment No. 11 of phased grant funding from the FAA in support of the South Runway at FLL.

On October 27, 2009 (Item No. 57), the Broward County Aviation Department ("BCAD") received Board approval to apply for a LOI to receive funding for the extension of the South Runway at FLL. The LOI Program assists in the funding of large-scale capacity projects by the FAA at primary airports such as FLL. An LOI establishes a phased schedule of discretionary Airport Improvement Program ("AIP") funding for multi-year projects, subject to annual Federal appropriations. The proposed FAA

grant LOI Payment No. 11, in the amount of \$26,666,666, provides reimbursement to the County for the redevelopment and extension of the South Runway at FLL. The Federal grant funding for the South Runway project at FLL represents a total of \$250,000,000, with phased payments starting in Fiscal Year ("FY") 2011 and scheduled to continue through Fiscal Year 2022.

The Office of the County Attorney has reviewed the document, approved it as to form, and will be signing after the Director of Aviation signs. The FAA requires that the Board provide authority to execute the grant agreement to the sponsor's authorized representative (Director of Aviation). The grant agreement must be digitally signed first by the sponsor's legal signatory authority and then the grant agreement will be routed via email by the FAA to the sponsor's attorney for execution.

This Grant Agreement does not include the County's standard agreement provisions because the FAA requires the County to execute its standard FAA Grant Agreement to accept this grant.
