Summary Explanation/Background

THE ENVIRONMENTAL PROTECTION AND GROWTH MANAGEMENT DEPARTMENT AND THE PLANNING AND DEVELOPMENT MANAGEMENT DIVISION RECOMMEND APPROVAL OF THE ABOVE MOTIONS.

In 2004, the developer of Comrock plat (Plat Book 95 Page 47) entered into a Security/Lien Agreement for Installation of Required Improvements (Official Records Book 37034, Page 1243). The developer posted security, in the amount of \$14,514, for the construction of the improvements. However, the property was not developed as planned, and the improvements were not constructed.

On November 15, 2019, the Board approved a replat of "Tract A" of the Comrock plat as the Tamarac Circle plat (Plat Book 183, Page 406). A new Security/Lien Agreement for Installation of Required Improvements for the Tamarac Circle plat has replaced and superseded the prior plat requirements (Instrument No. 116644671). Therefore, Gaddis Properties, LLC, the current owner, is requesting that the Board terminate the agreement associated with Comrock plat and release the cash bond security.

The Highway Construction and Engineering Division has reviewed the Termination of Installation of Required Improvements Agreement (Exhibit 3) and has no objection to this request; it has also been reviewed and approved as to form by the Office of the County Attorney.

Fiscal Impact

Fiscal Impact/Cost Summary

There is no fiscal impact to releasing the \$14,514 cash bond (because it secures improvements that are no longer required to be constructed).
