#### **Is this Action Goal Related**

No

#### **Previous Action Taken**

None taken.

#### **Summary Explanation/Background**

THE RESILIENT ENVIRONMENT DEPARTMENT AND THE URBAN PLANNING DIVISION RECOMMEND APPROVAL OF THE ABOVE MOTION.

The applicant, 4211 SP, LLC, is requesting to rezone a property within the Broward Municipal Services District (BMSD) from A-1 Agricultural Estate to PDD Planned Development District to allow up to 15 single family residential units. The Project Site is located at 4211 NW 74 Street in an unincorporated enclave near the City of Coconut Creek of approximately 5.01 net acres (Exhibit 4). The Project Site's Future Land Use designation of Estate (1) Residential on both the BMSD and Broward County Land Use Plan (BCLUP) maps allows up to five dwelling units. The proposed rezoning seeks to add ten more units through the allocation of Residential Flexibility.

The BCLUP Policy 2.10.1 provides for the Board to make a compatibility determination at the request of an adjacent municipality. The Project Site abuts properties in the City of Coconut Creek (City). Staff notified the City of the application, and on August 23, 2022, the City requested a Compatibility Determination. Consideration of the Compatibility Determination and Residential Flexibility allocation is provided for under a separate companion item to this rezoning request.

Staff finds that the proposed rezoning is consistent with the Broward County Comprehensive Plan and advises the applicant that a wetland determination is required from the Water and Environmental Licensing Section prior to any land clearing or filling, a Broward County Tree Removal License will be required for any tree removal, and any public-school facilities impacts must be mitigated during the platting and site planning processes (Exhibit 3). On August 16, 2022, the Local Planning Agency (LPA) found the proposed rezoning consistent with the Broward County Comprehensive Plan.
