PROJECT TITLE: E911 South & Central PSAP Workstation Replacement

REQUISITION NO.

SOURCE/BRAND NAME: Russ Bassett Corp.

SOLE SOURCE/SOLE BRAND/ONLY ONE REASONABLE SOURCE REQUEST

SOLE SOURCE

SOLE BRAND

ONLY ONE REASONABLE SOURCE

I. REQUEST: Provide a description of the features of the product/service or Scope of Work.

The Office of Regional Communications and Technology (ORCAT) requests a sole brand designation to purchase new PSAP furniture equipment for the Regional Communications South and Central Public Safety Answering Points (PSAPs).

A project to relocate the Broward County North PSAP to a new County facility is underway. This is part of the CMD construction project for a new Property Appraiser's facility. The scope of CMD Division's construction project for the building that will house the new North PSAP includes the purchase and installation of the Russ Bassett PSAP furniture system through their general contractor. To standardize PSAP furniture equipment across all County PSAPs, we are requesting to purchase the Russ Bassett furniture equipment system for the project to replace existing end of life PSAP furniture equipment at the County Regional South and Central PSAPs. The Russ Bassett PSAP furniture system is currently operational at the County

II. JUSTIFICATION: Please check all boxes that describe your reason(s) for determining that only one source or brand is reasonably available.

Sole Source/Uniqueness

- Proprietary Item - this vendor/source has the only rights to provide this service or commodity. A letter from the manufacturer or authorizing entity is included in this request.
- Technology Improvements - updates or upgrades to an existing system, software, software as a service (SaaS), hardware purchases.
- Engineering Direction - engineering drawing or specification identifies product; "no substitutes or equivalents will be acceptable."
- Only qualified supplier - reliability and maintainability of the product or service would be degraded unless specified supplier is used; may void warranty. This request includes a copy of the current warranty information.

- Other/or Additional information - the County requires this sole source purchase for the following reasons.

A sole source for a standardized PSAP furniture provider across County's Regional PSAPs presents a strategic opportunity to streamline operations, reduce ongoing costs, and improve service quality. Standardizing on a single provider offers significant benefits that support the continuity, reliability, and efficiency of critical emergency response services, as outlined below:

Business Case (Only One Reasonable-Source¹ or Only One Reasonable Brand)

- Operational Compatibility - replacement parts from alternate suppliers are not interchangeable with original part and causes equipment incompatibility. Previous findings and/or documentation is included with this request.
- Ease of Maintenance - maintenance or retooling prohibits competition. Section III, Comparative Market Research includes estimated costs associated with changing current source and/or brand.
- Follow-On - potential for continued development or enhancement with same supplier and eliminates costs incurred by using different supplier. Section III, Comparative Market Research includes estimated costs for replacing current or existing system.
- Complies with existing community and safety standards, and/or laws, rules, and regulations.
- Other/or additional information - using this only one reasonable source, only one reasonable brand purchase benefits the County for the following reasons:

A sole source for a standardized PSAP furniture provider across County's Regional PSAPs presents a strategic opportunity to streamline operations, reduce ongoing costs, and improve service quality. Standardizing on a single provider offers significant benefits that support the continuity, reliability, and efficiency of critical emergency response services, as outlined below:

1. Simplified Maintenance and Support

A single provider solution enables a unified maintenance agreement covering all three Regional PSAPs. This provides a consistent and simplified approach to managing and scheduling repairs, upgrades, and

III. COMPARATIVE MARKET RESEARCH: Provide a detailed source or market analysis for justification of sole source/brand or most reasonable source (attach extra sheets as needed).

Estimated project value: 2,506,000.00 Contract length (if applicable): 2years

Has this commodity or service been previously provided to the County? Yes No

If yes, provide the following and attach any supporting documentation (e.g., previous approved memoranda):

Vendor name and date Russ Bassett Method of Procurement CMD/contractor

What is the current contract (Procurement Catalog) or purchase order number? N/A

Expenditures to date: _____

Will this procurement utilize any local/state/federal grant funding? Yes No

If yes, attach any supporting documentation (e.g., grant agreement).

If this is a sole brand, is there an "authorized" dealers/resellers list? Yes No

If yes, provide the manufacturer's "authorized" dealers/resellers list.

¹ Commonly known as Most Reasonable Source

Cost/Benefit Analysis: What would the cost be to utilize an alternate vendor or source? This explanation should include the savings and/or additional costs to the County by not using the preferred vendor or source. Attach additional sheets if needed.

Using alternate disparate providers or sources for PSAP furniture across County's three Regional PSAPs would incur increased direct and indirect costs, as well as lost opportunities for cost avoidance, as demonstrated in the following analysis.

Implementation Costs

- Installation and Setup Fees: An alternate provider would require additional installation and setup fees, as this process involves custom design and configuration, compatibility adjustments, and technical consultation and the complexity of coordinating with multiple providers, adding estimated increased setup costs of approximately 20%–30% compared to a single-source setup.

CERTIFICATION: I have thoroughly researched the sole source, sole brand, only one reasonable source, or only one reasonable brand justification and fully understand the implications of Section 838.22 of the Florida Statutes:

(2) "It is unlawful for a public servant or a public contractor who has contracted with a governmental entity to assist in a competitive procurement to knowingly and intentionally obtain a benefit for any person or to cause unlawful harm to another by circumventing a competitive solicitation process required by law or rule through the use of a sole-source contract for commodities or services".

(5) "Any person who violates this section commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084".

Expanded Sections – Sole Source/Sole Brand Memo

I. **REQUEST: Provide a description of the features of the product/service or Scope of Work**

The Office of Regional Communications and Technology (ORCAT) requests a sole brand designation to purchase new PSAP furniture equipment for the Regional Communications South and Central Public Safety Answering Points (PSAPs).

A project to relocate the Broward County North PSAP to a new County facility is underway. This is part of the CMD construction project for a new Property Appraiser's facility. The scope of CMD Division's construction project for the building that will house the new North PSAP includes the purchase and installation of the Russ Bassett PSAP furniture system through their general contractor. To standardize PSAP furniture equipment across all County PSAPs, we are requesting to purchase the Russ Bassett furniture equipment system for the project to replace existing end of life PSAP furniture equipment at the County Regional South and Central PSAPs. The Russ Bassett PSAP furniture system is currently operational at the County Non-Regional PSAPs (Coral Springs & Plantation).

II. **JUSTIFICATION: Please check all boxes that describe your reason(s) for determining that only one source or brand is reasonably available.**

A sole source for a standardized PSAP furniture provider across County's Regional PSAPs presents a strategic opportunity to streamline operations, reduce ongoing costs, and improve service quality. Standardizing on a single provider offers significant benefits that support the continuity, reliability, and efficiency of critical emergency response services, as outlined below:

1. Simplified Maintenance and Support:

A single provider solution enables a unified maintenance agreement covering all three Regional PSAPs. This provides a consistent and simplified approach to managing and scheduling repairs, upgrades, and routine maintenance. With one provider as the single point of contact, the complexity of coordinating with multiple providers, each with disparate SOPs, response times, and maintenance requirements, is eliminated.

2. Reduction in Repair Time and Minimized Downtime:

Standardizing on a sole source provider enhances the speed and efficiency of repairs. The sole provider will have in-depth knowledge of the system across all PSAPs, enabling faster diagnosis and resolution of issues. This reduction in repair time is critical in minimizing downtime for emergency response systems, directly supporting uninterrupted service and public safety.

3. Elimination of Inventory Stocking Costs:

By working with a sole provider, there is no longer a need to maintain a diverse inventory of replacement material from multiple sources. Instead, the vendor can maintain and provide any necessary inventory on an as-needed basis, reducing our storage needs and associated costs.

4. Enhanced System and Operational Compatibility:

A standardized provider solution ensures that all three PSAPs utilize PSAP furniture that is fully compatible. This operational standard will facilitate easier data sharing, system integration, and communication across regions, enhancing the coordinated response capabilities and efficiency of all involved PSAPs.

5. Training and Operational Consistency:

Using one provider allows for standardized training and operational procedures across all PSAPs. Operators will be familiar with the same interface and functionality regardless of their location, which simplifies training requirements, minimizes user error, and fosters an adaptable workforce capable of assisting at any regional PSAP without needing retraining on different systems.

6. Enhanced Vendor Accountability and Quality Assurance:

With a sole source provider, performance expectations and accountability are centralized (as opposed to distributed among disparate providers). The sole provider will have a clear mandate to deliver consistent service quality across all County Regional PSAPs, and any issues that arise are more easily monitored and resolved due to the single provider relationship. This arrangement also provides leverage to negotiate favorable terms, including response times, warranties, and service levels.

In summary, a sole source provider for PSAP furniture across County's Regional PSAPs offers substantial operational, logistical, and financial leverage. It strengthens our infrastructure, enhances the reliability of emergency response systems, and provides a scalable and efficient solution that meets the high standards necessary for public safety communications. This approach ensures long-term sustainability, reduced complexity, and superior support, ultimately benefiting the community we serve.

III. Cost/Benefit Analysis: What would the cost be to utilize an alternate vendor or source? This explanation should include the savings and/or additional costs to the County by not using the preferred vendor or source. Attach additional sheets if needed.

Using alternate disparate providers or sources for PSAP furniture across County's three Regional PSAPs would incur increased direct and indirect costs, as well as lost opportunities for cost avoidance, as demonstrated in the following analysis.

Implementation Costs

- Installation and Setup Fees: An alternate provider would require additional installation and setup fees, as this process involves custom design and configuration, compatibility adjustments, and technical consultation and the complexity of coordinating with multiple providers, adding estimated increased setup costs of approximately 20%–30% compared to a single-source setup.
- Training Costs: Each PSAP would need tailored training for PSAP personnel to become proficient with the new disparate providers' PSAP furniture, which would also vary based on each provider's unique interface and operations. This additional training potentially increases initial training costs by approximately 10%–15% per PSAP.
- Transition Downtime Costs: Switching to multiple disparate providers may result in downtime during transition phases, which can increase costs due to delayed emergency response operations. This downtime is estimated to increase implementation costs by an approximately 5%–10%.

Ongoing Operational Costs

- Maintenance contracts and multiple service agreements: Each alternate provider would require their own maintenance contract and service agreement. This would increase administrative efforts and thereby costs associated with managing separate PSAP furniture provider agreements, administering invoices,

and processing service calls. In aggregate, the increased cost is estimated to be approximately 25%–35% greater than a unified, standard sole-source provider agreement.

- **Repair and Replacement Part Inventory Costs:** With multiple providers, the County would need to maintain a diverse inventory of parts and material specific to each disparate PSAP furniture system, which increases costs for substantial storage and inventory management. This cost is estimated to increment by approximately 15% on an annual basis, as the County would have to stock multiple variations of components.
- **Extended Repair Time and Potential Downtime Costs:** With multiple providers, response times for repairs may vary significantly, leading to longer repair times and potential system downtimes.

Lost Savings Opportunities

- **Volume Discounts and Negotiation Leverage:** Working with a single, standardized provider enables the County to leverage economies of scale and volume discounts that would not be available with multiple providers. A savings of approximately 10%–15% is expected with a sole provider for hardware, software, and service costs when compared to using disparate providers.
- **Reduced Training and Standardization Costs:** A sole provider's standardized PSAP furniture across all County's PSAPs would provide consistent user interfaces and operational processes, reducing training costs. This consistency allows for cross-location operations without additional training, leading to a reduction in training expenses.
- **Streamlined Administrative and Management Costs:** A single-vendor solution reduces administrative complexity and streamlines coordination, saving an estimated 5%–7% per year on management expenses related to vendor oversight, coordination, and contract management.

Utilizing multiple, disparate providers instead of a sole source provider would result in an estimated 25%–35% increase in overall costs for initial setup, ongoing operations, and lost savings opportunities. Additionally, the County would incur operational inefficiencies, longer repair times, and potential downtime risks, all of which impact public safety response quality and reliability.

For these reasons, it benefits the county to proceed with a sole provider for the procurement of PSAP furniture equipment and maintenance across the Regional PSAPs.

Purchasing Agent Analysis

Russ Bassett 9-1-1 Dispatch Flex Console Workstations for Central and South Public Safety Answering Points

Overview:

The Office of Regional Communications and Technology (ORCAT) is seeking approval for the sole brand designation of 9-1-1 dispatch flex console workstation furniture products and services for the Central and South Public Safety Answering Point (PSAP) locations, which will be utilized by Broward County Sheriff's Office (BSO) personnel. This recommendation is based on the need for operational consistency, compatibility, and cost efficiency across all PSAP response centers.

Background:

On October 20, 2020, the Board awarded the managing general contract role to Pirtle Construction Company (Pirtle) which selected Russ Bassett furniture for the new North PSAP facility. The North PSAP is currently under renovation and will share space with the Property Appraiser's Office and Value Adjustment Board.

To explore alternatives, a Request for Information (RFI No. GEN2130004F1) was posted from July 1-9, 2025, to identify alternative vendors. No responses were received.

On July 16, 2025, the Purchasing Division contacted Russ Bassett Corp. to confirm whether they work with authorized resellers, distributors, or installers. The company confirmed that they do not sell products or services directly to public safety agencies, nor do they sell through resellers or distributors. Instead, their products and services are available exclusively through two cooperative contracts: HGACBuy and NASPO Value Point. Refer to Russ Bassett Corp.'s email correspondence dated July 16, 2025.

Justification:

Russ Bassett Corp. is an established global provider with installation in military, air traffic control, and law enforcement facilities nationwide and provides a comprehensive turn-key solution that includes computer aided design (CAD) concepts, space planning and technology integration. As such ORCAT's request to create uniformity of the 9-1-1 dispatch flex console workstation furniture across all Broward County Regional PSAPs will ensure compatibility, operational consistency and supports adaptability for personnel working 24/7 throughout the County's emergency response centers.

Although an independent review identified other companies such as Xybix and Sustema that specialize in designing and manufacturing ergonomic 9-1-1 dispatch flex console workstation furniture for PSAP centers, a competitive solicitation will not be conducted for this project. The Aviation Department already has an existing Participating Addendum with Russ Bassett Corp (see below for details). Additionally, since the North PSAP will consist of the Russ Bassett workstations, and Russ Bassett has confirmed that it is the sole provider for its proprietary 9-1-1 dispatch flex console systems, amending the existing Participating

Addendum will enable all Broward County PSAP locations to use the Russ Bassett brand and this will maintain design consistency and functionality.

Existing Agreement:

On October 24, 2025, the Director of Purchasing executed a Participating Addendum between Broward County and Russ Bassett Corp. for the Aviation Department in the amount of \$250,000 for a term of fifteen (15) months pursuant to Contract No. 43190000-22-NASPO-ACS Public Safety Communications Products, Services, and Solutions. Amending this existing agreement will streamline maintenance and support services, which is critical to maintaining uninterrupted public safety operations. Additionally, this approach will generate cost savings for the County through volume discounts, competitively negotiated through NASPO's Lead State, the State of Washington, Department of Enterprise Services.

Recommendation:

Approval is recommended to proceed with Russ Bassett Corp. sole brand designation to purchase new 9-1-1 dispatch flex console workstations for the Central and South PSAP locations. An Agenda Item will be presented to the Board authorizing the Director of Purchasing to negotiate and execute the First Amendment to the existing Control Room System Furniture Participating Addendum between Broward County and Russ Bassett Corp. This amendment will increase the maximum not-to-exceed amount from \$250,000 to \$2,756,000 and extend the term for two additional one-year periods.

Good morning Michael,

Russ Bassett sells it dispatch console furniture products and services direct to end user public safety agencies. We do not sell via resellers/distributors.

Our dispatch console furniture can be purchased utilizing two cooperative buying contracts. HGACBuy and NASPO Value Point.

I have been the person working with the Broward County public safety team.

Project Description:

Notice of Intent to Designate Sole Source/Sole Brand:

This Request for Information (RFI) (Notice of Intent to Designate a Sole Brand) is to determine if the specified commodity or service is available from multiple providers, or if an alternate commodity or service is available that would meet the County's needs. This is not a request for pricing or a purchase commitment.

The following commodity or service is thought to be available only as a sole brand and is the only commodity/service that meets the County's needs:

Broward County Office of Regional Communications (ORCAT) is seeking a firm to provide new Russ Bassett furniture to replace existing end-of-life furniture for the South and Central Public Safety Answering Points (PSAPs). Russ Bassett furniture is currently in use at the County's Non-Regional PSAP locations. In addition, a project to relocate the Broward County North PSAP to a new County facility is underway and will utilize Russ Bassett furniture. As such, ORCAT is requesting the Russ Bassett workstation furniture for the South and Central PSAPs to provide uniformity of workstations for all PSAP locations and allows for continuity and efficiency of the work area for critical emergency response personnel.

This RFI will remain posted until closing date and time.

Prospective Vendors are requested to provide information regarding their ability to provide the commodity or service described or written explanation or other documentation contesting the proposed RFI designation.

If you are capable of meeting or exceeding the County's requirements for the specified commodity or service, respond to this RFI through the electronic bidding system. Vendor should upload any supporting information in the electronic bidding system as part of its response to assist the County in determining if commodity or service is comparable, is available from multiple suppliers, and meets the County's needs. The Director of Purchasing shall have sole authority in deciding what is comparable.

The Director of Purchasing shall consider such submittals and notify all submitting vendors (thru the electronic bidding system) of the decision whether to designate as a Sole Source/Brand, which decision shall not be subject to objection, protest, or appeal.
