

Terminal 2 Water Feature Artwork Project

Fort Lauderdale-Hollywood International Airport

Artwork Site

Artwork Proposal

CASCADE

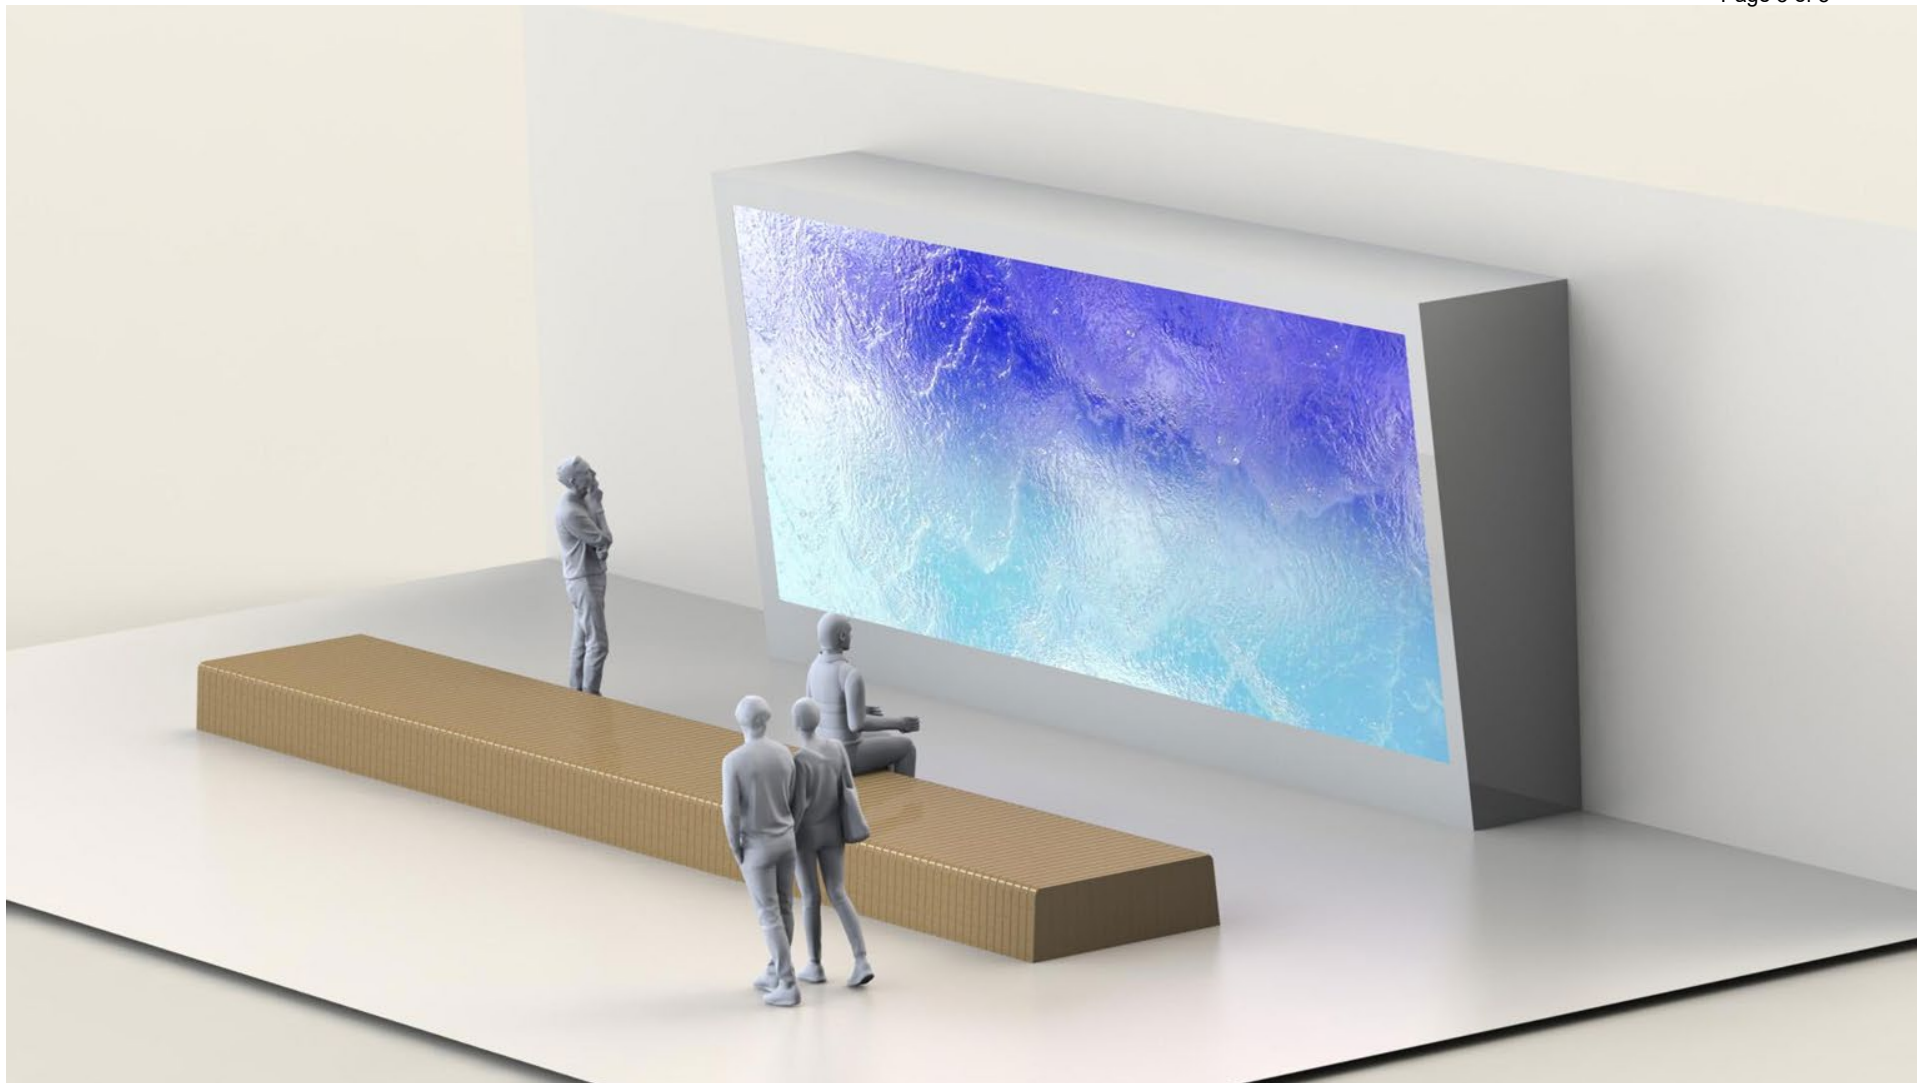

We propose to create a monumental fountain for the Fort Lauderdale-Hollywood International Airport that transforms the bustle of airport travel into a relaxing experience that awes and inspires.

Cascade will create a luminous, ever-changing liquid display inviting family photos and selfies while also providing a moment to sit and relax in quiet contemplation and wonder.

This sculpture of fluid color will become an iconic symbol of southern Florida, transforming fleeting moments of travel into a recognizable landmark for colorful memories.

The Experience

- 1 As you pass through security, you will see a glimpse of color
- 2 Once past security, a bench provides an opportunity to collect yourself
- 3 A constant display of falling water and vibrant color fully envelops you
- 4 Beautiful chevrons of falling water invite close-up viewing and reward observation
