1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

Currently, Section 5-182.2 of the Broward County Code of Ordinances (“Code”) requires certain findings to be made in order to determine whether an application is subject to an adequacy determination according to Section 5-182.1(a)(4)a) of the Code. Notwithstanding, the Code provides for a de minimis exception to the adequacy determination if the proposed development meets certain specified criteria, including that the proposed development consists of one (1) single family dwelling or duplex.

The proposed Ordinance amends the Code to increase the de minimis exception to proposed developments that consist of ten (10) or less single family dwellings or one (1) duplex. The proposed amendment would result in a greater number of applications satisfying the de minimis exception criteria.
