

April 30, 2024

Mr. Sandy-Michael McDonald
Director
Broward County Office of Economic and Small Business Development
115 South Andrews Avenue, Room A-680
Fort Lauderdale, FL 33301

Dear Sandy,

Please find below the Alliance's FY 2024 second quarter report to Broward County. The Alliance is pleased to report that Broward County's employment growth continues to be very strong with employment being at 1,062,477 jobs, our labor force being at 1,097,797 and our unemployment rate at 3.2%. These overall numbers, and the growth in our targeted industry clusters, continues to show the strength of our market and is a testament to the strong collaborations between Broward County, the Alliance, and other partners leading to success in Broward and jobs for its residents. Some of the highlights of the second quarter include the following:

1. We were pleased to finalize the following company projects and continue to work with 19 companies that are in the project pipeline:

Project Stella (formal announcement to be forthcoming from the company), an aviation maintenance, repair, and overhaul (MRO) company that specializes in servicing commercial aircraft parts and engines, will be creating 80 jobs and occupying 40,000 square feet of industrial space in Davie.

Project Manatee (formal announcement to be forthcoming from the company), will be creating 82 jobs and making a \$6.5 million capital investment for a corporate headquarters relocation and expansion project in 32,000 square feet of office space in Dania Beach.

Project Amsterdam (formal announcement to be forthcoming from the company), an aviation maintenance, repair, and overhaul (MRO) company specializing in aircraft radio, airframe, and instruments will be creating 20 jobs and making a \$300,000 capital investment in 70,000 square feet of industrial space in Miramar.

Chick-Fil-A, a major food and beverage company, will be creating 116 jobs and making a \$50.5 million capital investment in a logistics expansion project involving 200,000 square feet of distribution space in Weston.

2. As always, a primary focus of the Alliance is assisting local companies through our BRAVO (Business Retention and Visitation Outreach) program. 21 Broward County companies were visited by the Alliance during the second quarter of FY24, as we assisted in areas such as access to capital, workforce training opportunities, permitting and site location.
3. The Alliance continues to implement its FY24 economic development marketing campaign which is targeting C-Level executives and company location decision makers through print, digital, search engine and B2B digital in publications such as *Business Facilities*, *Chief Executive*, *Aviation Week*, *CIO*, *CSO*, *Network World*, *InfoWorld* and *ComputerWorld*

ALLIANCE: PARTNERSHIP FOR ECONOMIC GROWTH

In addition to the company outreach, advertising continues to be directed to attracting talent to Broward County. For the first two quarters, these company and talent attraction campaigns generated 6.8 million impressions resulting in 2.6 million video views/audio completions and more than 65,000 clicks to the Alliance website.

4. The Alliance's Port Everglades Action Team, a partnership with Broward County and numerous community organizations, continued its work to support Port Everglades expansion projects.
5. In effort to continue to grow its social media presence and following, the Alliance outlines goals for number of followers on four social media platforms: Twitter (6,000), Facebook (6,000), and increase followers on Instagram and LinkedIn. Total followers between the four platforms is 15,905, up from 10,686 at the beginning of the initial reporting period in 2022.
6. On January 31st, in partnership with Broward County Public Schools, the Alliance hosted the 7th annual Claim Your Future Showcase at Amerant Bank Arena in Sunrise. The event offered workforce preparation and business exposure to nearly 1,000 students from Career and Technical Education programs. The day was filled with workforce development activities, including mock interviews, an executive panel discussion, and a showcase of local businesses. Also, on February 15th the Alliance held its annual TechGateway in the Schools partnership, bringing technology executives to Broward Public School classrooms across the county to let students know about careers in technology.
7. The Alliance continues to lead *The Prosperity Partnership* initiative, a part of Six Pillars Broward, which addresses issues such as affordable housing, homelessness, resilience and transportation. As one of the Partnership's most important initiatives, the implementation phase of its Economic Mobility/Prosperity Broward project in Lauderdale Lakes has begun. With the community's support, and led by a professional facilitator and evaluator, a Community Action Board was created between residents, service provider organization leaders, and members of the business community, where they co-designed solutions and system changes, allowing nonprofits, educational institutions, workforce development organizations, employers and policymakers to find ways to innovate in their operations to better meet the needs of residents while, at the same time, supporting their missions. Implementation of the 6 focus areas and 51 recommendations of the Community Action Plan has begun.
8. The Alliance, through its 501(c)(3) foundation, continues to lead the South Florida Opioid Alliance initiative, working with a number of community partners. The mission of the Opioid Alliance is to gather and educate influential community leaders across all sectors: business, faith, nonprofit and law enforcement sectors to create awareness and implement strategies among the business community to address the growing opioid crisis in Broward County and South Florida.

Throughout the second quarter, the Alliance continued its work to strengthen and diversify our economy as well as help businesses navigate through difficult economic challenges. Our goal remains to create jobs for the residents of Broward County and build the county's tax base, working with Broward County and other partners.

With warm personal regards, I remain

Sincerely,

A handwritten signature in black ink that reads "Bob Swindell". The signature is written in a cursive, flowing style.

Bob Swindell
President and CEO

FY 2024 Market Measures

Administrative Objectives

- A.** Continue to promote and support the Port Everglades Master Plan through the Port Everglades Action Team. PEAT has successfully partnered with Port administration and the County to advocate for Federal and State funds for capital projects such as the ICTF, Turning Notch and the Widening & Deepening of the Port channel.

In September 2023, a team from PEAT (Port Everglades Action Team) traveled to DC to update elected officials, their staff, key committee members, ACOE, and others, on the status of our widening & deepening project at Port Everglades. In total, we had 18 attendees plus our County partners in DC, Thorn Run, and collectively we attended 24 meetings. The big issue currently comes from the National Marine Fisheries which is requesting an unreachable mitigation plan involving replanting thousands of corals, a plan that even the Army Corps of Engineers says is unreasonable. With the help of our U.S. elected officials, meetings between the two agencies are ongoing as we try to determine a reasonable strategy. We are encouraged that our challenges with mitigation requirements for the project were met with astonishment and that real solutions can now be adopted, including movement in relocating and building a new Coast Guard station for Port Everglades.

In sad news, our Port Director Jonathan Daniels has accepted a position at the DOT in Maryland overseeing, among other things, the Port of Baltimore as the new Maryland Dept. of Transportation Port Administrator. Currently a national search for a new Port Director is being led by the County Administrator. Glenn Wiltshire is serving as interim Port Director.

- B.** Continue to implement The Prosperity Partnership's key priorities: Affordable Housing, Community Branding, Economic Mobility (Prosperity Broward), Education, Homelessness, Resiliency, Social Justice & Racial Equity, Talent Attraction & Retention, and Transportation.

Examples of Project Updates include:

Dismantling Barriers to Economic Mobility – The implementation phase of the Prosperity Broward Pilot Project in Lauderdale Lakes has begun. With the community's support, and led by a professional facilitator and evaluator, a Community Action Board was created between residents, service provider organization leaders, and members of the business community, where they co-designed solutions and system changes, allowing nonprofits, educational institutions, workforce development organizations, employers and policymakers to find ways to innovate in their operations to better meet the needs of residents while, at the same time, supporting their missions. Implementation of the 6 focus areas and 51 recommendations of the Community Action Plan has begun.

Homelessness – Homelessness affects everyone—it impacts healthcare resources, public safety, the workforce, the use of local tax dollars, and overall economic competitiveness and resilience. Work is underway to re-engage the Broward Business Council on Homelessness as a way to seek more involvement and assistance from the business community in addressing homelessness in Broward County.

Resilience – Under the Resilience Pillar, the Prosperity Partnership is helping to inform the business community and local residents about the Broward County Climate Change Action Plan (CCAP) and the Southeast Florida Regional Climate Change Action Plan. The Broward CCAP was published in 2020 and consists of nearly 100 strategic actions for addressing the economic, environmental, and social impacts of climate change. The Southeast Florida Regional CCAP 3.0 was released in December 2022. This plan provides a voluntary framework designed to align, guide, and support the acceleration of local and regional climate action in Southeast Florida to realize a healthy, prosperous, more equitable and resilient, low-carbon region.

Information about other Pillars and projects can be found at www.TheProsperityPartnership.org.

Key Broward County Economic Indicators

Following are key Broward County economic statistics that are indicators of Broward's overall economic health and trends (2024 numbers are as of March 2024)

Years	Number Employed	Number in Labor Force	Number Unemployed	Unemployment Rate
2014	1,017,456	1,065,335	47,879	4.5%
2015	956,378	999,633	43,255	4.3%
2016	980,719	1,025,431	44,712	4.4%
2017	991,883	1,026,696	34,813	3.4%
2018	1,011,564	1,041,177	29,613	2.8%
2019	1,023,100	1,049,805	26,705	2.5%
2020	941,123	1,007,605	66,482	6.6%
2021	1,017,099	1,055,251	38,152	3.6%
2022	1,043,555	1,066,747	23,192	2.2%
2023	1,078,157	1,109,563	31,406	2.8%
2024	1,062,477	1,097,797	35,320	3.2%
